The Indian National Congress.

For a complete history of the movement re-presented by the Indian National Congress left, with the result that for a time there appeared, the reader is referred to earlier editions of the Indian Near Book. The Congress was founded Liberals and Congressmen. At its 1928 session in 1885 by Mr. Allan Octavian Hume, a retired member of the Indian Civil Service, and it held its first session in Bombay at Christmas of that year, the fundamental principles of the Congress were laid down to be :--

Firstly, the fusion into one national whole of all the different and discordant elements that constitute the population of India:

Secondly, the gradual regeneration, along all lines, mental, moral, social and political of the nation thus evolved; and

Thirdly, the consolidation of union between England and India by securing the modification of such of the conditions as may be unjust or injurious to the latter country.

With these objects in view the Congress puraued an uneventful career until 1907. It undoubtedly exercised a great influence in inducing a spirit of national unity amongst the diverse peoples of India, in focusing the chief political grievances, and in providing a training ground for Indian politicians. But in 1907 the extre-mists, chiefly of the Deccan and the Central Provinces, who had for some time chared under the control of the older generation, succeeded in wrecking the Surat session of the Congress and produced a split which had long been seen to be imminent. The senior members of the Congress therefore re-crystallised its creed in definite terms. They isid down that—

"The objects of the Indian National Congress are the attainment by the people of India of a system of Government similar to India of a system of Government similar to that enjoyed by the self-governing members of the British Empire, and a participation by them in the rights and responsibilities of the Empire on equal terms with those members. These objects are to be achieved by constitutional means by bringing about a steady reform of the existing system of administration and by promoting national unity, fostering public surjets and overlaining and organisms.

For some years following 1907 efforts were made to heal the split and these were without avail until 1916 when a re-united Congress met at Lucknow under the presidency of Babu Ambios Lucknow under the presidency of Babu Ambios Act of 1935, the Congress decided to contest the union then effected was purely superficial; the difference between the moderates and the extremists was fundamental; the extremists captered the machinery of the Congress and from the period of the special session held at Calcutta in September 1920 the Congress passed entirely under the domination of Mr. Gandhi and his replacement of the "unwanted constitution" illustrations. In 1927 the Congress actually by one desirated by Indian sthemsalves, and the For some years following 1907 efforts were

ieft, with the result that for a time there appeared to be a commonness of purpose between the Liberals and Congressmen. At its 1928 session the Congress, while adhering to Independence, agreed to accept Domision Status, if granted, before the end of 1929. Things were tending towards a satisfactory settlement when in the latter half of 1929 the Congress insisted on the immediate grant of Domision Status or an assurance that Domision Status would be the basis of discussion at the Round Table Conference to be convened in England between representatives discussion at the Round Table Conference to be convened in England between representatives of England, British India and the Indian States. Here was the parting of the ways. The Liberals went their way and the Congress its own. In fulfilment of the "ultimatum" issued at its previous semion, the Congress, at its 1929 session, declared for complete independence or "Purna Swaraj." Throughout independence or "Purns Swaraj," Throughout the year 1980 the Congress was engaged in a defiance of the law of the land which, it was hoped, would help India, to attain complete independence. Early next year the Congress actually suspended civil disobedience by virtue of an agreement arrived at with the Govern-ment, but the fulfilment of the terms of this agreement gave rise to trouble and another agreement was concluded.

As a result of this Mr. Gandhi, on behalf of the Congress, went to London to take part in the Round Table Conference. While he was in the Round Table Conference. While he was away things took a turn for the worse in the country, and matters reached a crisis with the birth of the New Year. In 1932 the Government bent all its efforts to making it impossible for the Congress to carry on its subversive acti-vities and succeeded fully in its object. Con-gress was crushed and all forms of Congress work throughout the country were successfully prevented. In fact as well as in law Congress successfully ceased to exist. In the middle of 1984 the civil disobedience movement, which had rendered the Congress illegal, was withdrawn. In the autumn of that year Mr. Gandhi retired from the Empire on equal terms with those members. These objects are to be achieved by constitutional means by bringing about a steady tutional means by bringing about a steady at present, the Congress is once again a constitution of the existing system of administration and by promoting national unity, fostering public spirit and developing and organising His Majesty's Government in eight of the eleven provinces in India. (See past issues of the intellectual, moral, economic and industrial resources of the country." movements).

linetenants. In 1927 the Congress actually by one designed by Indians themselves, and the adopted independence as the goal of India. Left wing wishing to adopt obstructive tacties In the following two years the Congress made right from the start. Alf Gandhi svolved as what the extremists left described as a climb-

to prevent a schism in the Congress but also to place the British Government in the wrong. He advised Congress majorities to form Cabinets provided the Governors of Provinces undertook in advance not to exercise their discretionary powers of interference with Ministersin respect of their "constitutional activities". This the Governors refused to do as being contrary to the provisions of the Act and the Instrument of Instructions. The Congress refused to form Cabinets without the assurance demanded, and the Governors called upon leaders of minority groups to form Ministries. These Ministries groups to form ministries. These ministries were short-lived—they could not be otherwise. For one thing, they had hardly any support behind them and for another the majority party soon came to claim their rightful place. The controversy over the conditions on which the Congress agreed to take office was amicably settled, with the result that in six of the eleven provinces the quondam outlaw assumed the reins of His Majesty's Government. Subsequently, thanks to coalition with other groups, two more provinces, the North-Western Frontier Province and Assam, came under the Congress influence. The Congress was primarily responsible for throwing out of office the first Ministry in Sind and facilitating the formation of another which depends considerably on the Congress support for its continuance in office. As in the Frontier and Sind provinces, the Congress tried to oust the Cabinets in Bengal, while a feeble attempt on similar lines is being made even in the Punjab. Thus the Congress is proving an adept in parliamentary tactics as in direct action. As Government, the Congress Ministries in the various provinces are dis-playing initiative, asgacity, tact and firmness and have carned well deserved encomiums from friend and foe alike,

Meanwhile Mr. Gandhi has been concentrating in rural uplift work, thereby exploring the possibilities of a new field for exploitation. His foresight was amply rewarded by the success of Congressmen at the general elections of 1936. In that year, for the first time in the history of the Congress, the annual session was held in a village. It proved the correctness of Mr. Gandhi's plan, for itserved to send the Congress into the villages—the real masses of India were touched by the Congress. It is indeed a new phase of Congress activity whose value Mr. Gandhi had the vision to see.

Since Faispur all sessions of the Indian National Congress continued to be held in rural areas. While it has undoubtedly struck the imagination of the masses and brought them closer to the Congress —till then the Congress was only a name to the vast masses of rural India, but now they were privileged to attend the sessions and know at first hand what the Congress did for them and proposed to do—it has falled to achieve Mr. Gandhi's object of simplifying the Congress and reducing it from a huge tessess to a businessiike meeting. Although it is being held miles away from the nearest railway station, it differs little from past sessions held in important cities. With the supply of electricity and water carried through pipes and the building of a Congress Neger, the site chosen became a city for all practical purposes. Never-

theless, it is true to say that the village sessions tried to answer the Congress claim that it represents and works for the masses. At least as long as Mr. Gandhi lives and his lieutentants are in control of the Congress it seems certain that the annual meetings of the Congress will continue to be held away from the big cities.

In keeping with the idea underlying holding of the Congress sessions in rural areas Mr. Gandhi definitely gave a rural bias to Congress activities. Thanks to him, khaddar and other cottage industries got a fillip and the ryot on the field is now more in evidence than before 1935.

Partly because of this and partly due to the fact that the cultivator was given a large measure of importance under the new franchise the peasants came into their own in Indian politics. The movements in certain parts of India, especially in Bihar and the United Provinces to arouse consciousness among the cultivators were accelerated in consequence. This was all to the good from Mr. Gandhi's and the Congress point of view inasmuch as the Congress was best suited to exploit this vast source of political power in future; at the same time, it had in store a new development which was not very much to Mr. Gandhi's liking, namely, the growth of the Kisan Sabha. This latter organisation, at first sponsored and developed by Congressmen, was soon captured by extremists who had little faith in the Congress creed of truth and non-violence and in its policy of harmonising the differences among the various grades of society by adjustment and evolution rather than through revolution. The leaders of the Kisan Sabha soon eclipsed genuine Congressmen and propagated a spirit of violence among the ignorant and gullible mass of peasantry which today has become a serious problem for Mr. Gandhi and his right wing followers.

A similar development occurred in the industrial sphere where extremists, taking advantage of the comparative freedom allowed to them by Congress Governments in the provinces stirred up trouble among the working classes much to the chagrin of Mr. Gandhi and his iriends who are definitely opposed to class war of any kind.

In recent months Mr. Gandhi took a great deal of interest in the affairs of the States subjests and supported their demand for civil liberties, the reign of law and responsible government under the aegis of their respective rulers. At first, the States people were told that they should keep their movements apart from that of the Congress in British India and that they should rely more on their own strength than on the help of the Congress. This led to intense political activity in most of the States and an unprecedented awakening among the comparatively backward people of the States. In several States the movement took the form of direct action, disobedience of laws, refusal to pay taxes, etc., exactly on the lines of the civil disobedience movement in British India. For some time Mr. Gandhi lent the weight of his personality to this movement and even staked his life in support of the people's cause. He undertook a fast unto death to secure the fulfilment by the Thakore Saheb of Bajkot of the

latter's promise to set up a committee to devise various provincial governments are concerned, a scheme of drastic reforms for his subjects, there areas a new wave of opposition to his Mr. Gandhi won in the first round, but soon policy and method. The revolt came from discovered that there were innumerable obstacles to the application of the tactics of satuagraha in Indian India. Having entered the political game but recently, the States people made several mistakes and violent outbursts occurred in more than one State. Eventually Mr. Gandhi advised suspension of direct action in all States and suggested instead a method of negotiation.

This action has been variously interpreted by his crities some of whom regard it as the failure of his attempt to capture the States while others think it is only the calm before the storm to come.

described by many people as an indirect attempt on his part to secure for the Congress a majority in the Federal legislature. Under the present arrangement the States get one-third the number for Muslims, so that the Congress has no chance whatever of becoming the dominating party at the centre as it has become in several of the provinces. Having failed to bring about an understanding with the Muslims, it is said, Mr. Gandhi turned to the States in order to be able to obtain for the Congress a majority at the centre. This he could not do if the Princes nominated their representatives to the Federal legislature. Therefore, it is argued, he tried to bring into existence representative institutions in the States so that the States' nominees at the centre might be elected in which case Congress could hope to be in the picture in the Federation-to-come. The foregoing analysis is stoutly resisted by Mr. Gandhi's friends who explain his interest in the

pet ideas in the field of education, social reform and economic equity were taken up by the provincial ministries. He returned the compliment by stoutly defending them and denouncing their critics and opponents. This created for him a number of enemies who, though moderate in outlook, joined the ranks of extremists in the Congress on account of their common hatred of Mr. Gandhi and Gandhism.

Side by side with the growth of Mr. Gandhi's influence under the parliamentary regime, fack of faith in his methods. How far and how amounting almost to dictatorship as far as the soon this revolt will succeed remains to be seen

Congressmen themselves who condemned the growing reformist mentality within the Congrowing recommendation of the measure when are ownered with British Imperialism". A section of Congression openly challenged the wisdom of Mr. Gandhi's policy and urged the return to the bad old days of an organised fight against the British power. The novel has always a peculiar attraction in politics and this revulsion of feeling against the comparatively dull working of the constitutional machinery by the Congress drew a fair following in the country.

His advent into the States arena is itself had a certain number of wind-falls through adsecribed by many people as an indirect attempt ventitious circumstances. Men disappointed in the pursuit of the parliamentary programme joined the ranks of the leftists. Leaders of the Kisan and labour movements tried to discredit of seats in the Federal Assembly while of the Mr. Gandhi and Gandhism. Attempts to pull remaining number one-third is to be reserved them up and to restrain their harmful activities only resulted in confirming their hostility to Mr. Gandhi's leadership.

Then occurred an unprecedented event in the Congress history. Mr. Subhas Chandra Bose dared to defy Mr. Gaudhi and stood for re-election to the presidentship of the Congress. He succeeded partly through the vote of the leftists, partly through the suspicion (assiduously cultivated by Mr. Bose) that Mr. Gandhi and his colleagues were trying to compromise with the British Government on the issue of Federation, partly because of a growing resentment against the firmness with which discipline in the ranks of the parliamentary parties in the various provinces was enforced by the Gandhian High States has been in consonance with the declared Command, partly through the operation of throughout India including the States.

In the parliamentary sphere Mr. Gandhi secured a number of triumphs. Many of his comparatively unknown in Upper India, pet ideas in the field of education, social reform Mr. Bose's success was halled as a defeat for pet ideas in the field of education, social reform Mr. Gose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for pet ideas in the field of education, social reform Mr. Goselis success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success was halled as a defeat for the personal popularity of Mr. Bose's success Mr. Gandhi and admitted by the latter as such, Mr. Bose could not make good his success in the presidential election, for the same people who voted for him refused to endorse his programmerather than the absence of it-and within three months dethroned him.

> Nevertheless, the revolt against Mr. Gandhi continued and at the time of writing there is a growing section of Congressmen who openly avow lack of faith in his methods. How far and how

Shortly after the elections, in pursuance of the Party in the legislature is satisfied and is able Faixpur resolution, a meeting of the A. I. C. C. to state publicly that the Governor will not was held at Delhi, followed by a convention of members of the various provincial legislatures aside the savice of Ministers in regard to their constitutional activities."

In due course the leaders of the majority

to be satisfied with a general assurance by the certain land tenure reform measures proposed Governors of help, sympathy and co-operation. Thereupon, they withdrew, refusing to form fight on the ground that the remedy proposed ministries unless the A. I. C. C.'s demand was was not adequate. It was a delicate situation. complied with. The Governors then invited leaders of minority parties to form cabinets.

A prolonged controversy ensued in which Mr. Gandhi and the Congress leaders, the Secre-tary of State for India, the Vicercy, the Gover-nors and leaders of moderate opinion in India Year Book) the controversy was brought to a conclusion with a lengthy statement. to a conclusion with a lengthy statement issued by the Vicercy late in June 1937. After giving an authoritative reaffirmation of the Covernment, namely, that the Act itself and the Instrument of Instructions precludes the Instrument of Instructions precludes the Governors from giving an advance guarantee of the kind demanded by the Viceroy dispelled the doubts expressed by Congressmen that real power would not be surrendered to the Ministers and that the latter would be subject to vexatious and that the latter would be subject to versions an agging and interference at every turn, preventing them from carrying out their policy and programme. His Excellency made it clear that, apart from the intention of the framers of the Act and of Parliament to confer on Ministers responsible to their own legislatures uprestricted powers to administer the provincial government, the Governors were all anxious government, the Governors were all anxious so to work the Act and so exercise their special powers as not to precipitate an irretrievable clash,

The Vicerov's statement, although it did not formally concede the demand of the Congress, was eminently conciliatory in tone. It gave in spirit what it could not give in letter. It convinced the Congress and Mr. Gandhi that the British Government wished the Congress to take seriously to the constitutional experi-ment on which it had embarked. The influence of this was not lost on the Working Committee of the Congress which met shortly after and decided that the leaders of Congress Parties in the various legislatures should proceed to undertake the task of forming Cabinets without any condition. Thus the Congress became the Government in six of the eleven provinces. It was a great change for the Congress which since 1920 had been in the wilderness.

Nevertheless, the leaders of the Congress Parties in the provincial legislatures assumed office with confidence and discharged their duties with skill and ability. Almost everyone of the new Ministries had an initial handicap in the shape of financial stringency, but by means of coonomy and retrenchment they managed to produce budgets which were generally speaking, applauded. In the field of law and order, they behaved with exemplary firmness and put down every attempt to disturb public peace and tranquility. This was particularly so in Bombay and the United Provinces, where with Bombay and the United Provinces. where within a few weeks of assuming office the Ministries were faced with a serious labour situation. The Madras Ministry was called upon to tackle the activities of some extremist Congressmen who went about preaching violence and they met the situation with commendable

was not adequate. It was a delicate struction, but the Government, aided by right-wing leaders, tided over the difficulty by carrying the zemindars and peasants with them, although the peasant leaders, who were extremist Congressmen continued to give trouble to the Ministry.

It is not possible in a short survey to recount the activities of all the Governments run by Congressmen. Broadly speaking, most of them undertook beneficent measures calculated to help the under-dog, although in an attempt to do so and in pursuance of a policy of Prohibition some Congress Ministries levied taxation which bore unduly heavily on trade and industry especially on those who provide the capital for the economic regeneration of the country. A few, Governments sought to increase their revenue by levying a tax on agricultural incomes. Most of them undertook more or less drastic measures to reduce and remove the burden of debt on the agricultural population. Prohibition of alco-holic liquor and drugs in small areas an experiment preliminary to the proclamation of total prohibition throughout the province was intro-duced in most of the Congress provinces. The Bihar and the United Provinces Governments took concerted measures to rationalise the sugar industry from top to bottom and tried to ensure for the grower of angar-cane a minimum economic price for his produce. Attempts were made to reform education, local self-government and several branches of public activity.

Barring a few cases here and there, the Services, both in the Secretariats and in the districts, co-operated willingly with their new masters. The Governors too acted in conformity with the spirit of the assurance given by His Excellency the Viceroy, except for a crisis which occurred early in 1938 in Bihar and the United Provinces (see later). On the whole provincial autonomy was worked by the Congress and the representatives of the British Governments with a great deal of cordiality and efficiency.

An important development, as far as the An important development, as are as une congress was concerned, which occurred during the year 1937-39 was the growing influence of the Congress on the masses. This was due not only to the fact that the outlaw Congress had become His Majesty's Government in the majority of the provinces, but also to the en-couragement which the various provincial Governments gave to the Congress. The membership of the Congress which was about 600,000 odd before 1937 multiplied itself nearly tenfold in the course of two years. This increase in the extra legislative influence, coupled with the over-whelming majorities which the Congress Parties whetming majorities winton the Congress Parties enjoyed in most provincial legislatures, led them to what critics described as "steam roller methods" so far as the non-Congress opposition was concerned. The Opposition in most cases was a disorganised group which exerted little influence on the policy and programme of the provincial Governments. Side by side with this influx of new members into the and shey met the attuation with commence this indix of new members into the promptitude and firmness. Similarly, in Bihar the Congress, corruption critic ranks. Ministry was faced with attack from two camps: The prestige and power of the Congres the zemindars threatened satyagraks owing to coupled with the opportunities for social and notitical advancement held out by offices in the organisations attracted a large number of new organisations attracted a mass natural of the recruits. Many people wished to have a place in the sun, and in order to get themselves elected to offices or membership on Congress committees, the aspirants enrolled thousands upon thousands of members with a view to getting into places of power and influence through the votes of such new recruits. Bogus memberships, impersonations at elections, undue influence, bribery and coercion were practised on a large scale. Mr. Gandhi and his right-wing colleagues were shocked, but were helpless. Repeated attempts were made to overhaul the Congress constitution so as to prevent malpractices and it was not until the middle of 1939 that steps were taken to discourage bogus enrolment and corrupt practices at elections.

1938 CRISES.

While the Congress Ministries were engaged on the one hand in promoting the welfare of the masses and on the other administering the provinces with firmness, the left-wing Congress-men were spitting fire and loudly protesting against the restrictions placed on their so-called freedom of speech and movement. They would have untrammelled license to go about where they liked and incite people to acts of violence. They seemed anxious to prevent the growth of what they described as the reformist mentality

among the Congress Ministers,

Meanwhile their hands were strengthened by the non-release of certain political prisoners in Bihar and the United Provinces. This was one of the promises made by the Congress in its election manifesto, and the Ministries' failure to give effect to it was put down by the extremists to their weakness. The death from hunger mists to their weakness. The death from hunger strike of a political prisoner in Dacca (Bengal) proyded a war cry for them. Thus the demand for the release of all political prisoners assumed first class importance. An additional compilea-tion was introduced by the bearing which the release of prisoners in the two Congress provinces mentioned above had on the release of the detenus and political prisoners in Bengal, which was not under the control of the Congress.

On the eve of the annual session of the Congress the Working Committee met at Wardha and passed a resolution urging the Premiers of Bihar and the United Provinces to press for the release of the outstanding political prisoners.

What happened in the next few days is still mystery. There was some bungling somewhere. Pandit Nehru who was still President of the Congress is said to have given instructions to the Premiers of the two provinces to back up their demand for the release with a threat to their demand for the release with a threat to resign. The Congress executive did not appa-rently authorise such a course. Nor did Mr. Gandhi himself appear to be in favour of such a drastic step. As things happened, the Premiers insisted on their right to order the wholesale release of all political prisoners, but the Governors concerned argued that the case of each prisoner might be examined before the order was issued. The Governors pointed out that indiscriminate

that nothing should be done to restrict their responsibility for the administration of law and order and gave a few hours' ultimatum to order and gave a 1ew nours untimatum to their respective Governors that unless the latter agreed to a wholesale release they (the Premiers) would resign. At this stage the Governor-General stepped in under section 265 of the Government of India Act and withheld consent for the release order. The two Ministries resigned.

A few tense days ensued. Other Ministries seemed hardly inclined to copy the example of Bihar and the United Provinces. Everybody deplored the developments in the two provinces, and everyone was confused. Even the members of the Working Committee did not seem to know what exactly to do in the

circumstances.

Mr. Gandhi once again stepped into the breach and relieved the tension with an appeal to the Governor-General and the British Government to reconsider their decision to withhold consent to the release ordered by the two Ministries. He challenged the application of section 265 and insisted that the Ministers should have unfettered right to direct the administration of law and order in accordance with the assurance by the Viceroy in July 1937. He concluded with the hope that the British authority had not become tired of the Congress Governments. To this Lord Linlithgow issued a reply which was couched in conciliatory terms. While reaffirmcouched in conciliatory terms. While reaffirming that the Governor-General or the Governor could not divest themselves of the special responsibility placed on them by the Act of preserving the peace and tranquility of the country as a whole and of the provinces individually, His Excellency declared that the Ministers would be enabled to examine the cases of individual prisoners with a view to their ultimate release. The Governor-General, too, hoped that the Ministries could resume their interrupted labours. The Viceroy's statement eased the tension considerably and the Premiers withdrew their resignations. The crisis which a few days ago threatened to envelope the whole of India passed off without leaving any trace on the political life of the country.

Hardly had the Bihar and the United Provinces ministerial crises died down when another arose in Orissa which too threatened to affect the position of other Congress ministries all over the country. It started with the appointment of Mr. (now Sir) J. R. Dain as acting Governor of Orissa in place of Sir John Hubback who had planned to go to England on four months' leave. All sections of public opinion in India objected to this appointment on the ground that objected to this appointment on the ground ran-ti was unsound in principle to promote a sub-ordinate official to a position of superiority over the ministry. The Orissa Ministers had in addition to this certain personal reasons against the appointment of Mr. Dain because he and the ministry had not pulled together very well. As arrangements for Sir John Hubback's leave and for the appointment of Mr. Dain to act in his place had been made. His Majesty's Government amounced the appointment. That was the signal for loud protests from Congressmen who release might lead to a situation in which the peace and tranquility not only of their respective provinces but also of adjacent provinces Orises Ministry's case. He wrote: "The would be threatened. The Premiers demanded whole of the sting lies in a subordinate official

becoming an acting Governor of a province This leads us on to the second phase of Congress with whom the Ministers are expected to work activity in the past few months referred to above. Since the enunciation of Congress signature and who will preside at their meetings."

It was rumoured at the time that even if the February 1938, throwing the States subjects on their own resources, the latter began to show their own resources, the latter began to show activity all over the country. Mysore, and that after the termination of the period of acting Governorship the Congress would be invited again to form the Ministry. Mr. Gandhi warned the authorities that the Congress would not be a party to such an arrangement. In response to unanimous public opinion His Majesty's Government rescinded Mr. Dain's appointment, Sir John Hubback magnanimously agreeing to cancel his leave.

This was the first time that an order of His Majesty regarding a gubernatorial appointment was cancelled after publication. The Congress duly announced it as its second triumph of the year.

CONGRESS IN 1938-39.

Since the Orissa episode there has been no direct conflict between the Congress and the British Government. The Congress had its hands fully occupied with the solution of internal problems and with attempts to substantiate its claim that it stood for the whole of Indian These problems fall into three distinct categories. Firstly, the relationship between the Congress and the Muslims; secondly, the activities of the Congress and Congressmen in the Indian States; and thirdly, setting the Congress house in order.

Reference has been made in the chapter dealing with the Muslim organisations to the attempts made by Mr. Gandhi and the Congress leaders to bring about an agreement between the Congress and the all-India Muslim League. The failure of the negotiations embittered the already strained relationship between the Hindu and Muslim communities. Numerous communal disturbances occurred in the Congressgoverned provinces. Most of them could be traced to complaints against Congress Governments: the Muslims contended that the Congress Governments were unjust to them while the Hindus protested that they were sacrificed in an attempt to placate the Muslims. The Governments themselves were in a very unenviable position; if they took action against those who spread malicious propaganda they were accused of invading civil liberties, while if they allowed the propagandists to do what they liked, life and property were placed in serious jeopardy. On the political plane spokesmen of the Muslim

League complained that the interests of that community were not adequately looked after and more than one individual and committee toured the country and collected data in this behalf and published them as so many charge sheats against the Congress Governments. To sheets against the Congress Governments. these the Governments concerned issued lengthy replies purporting to substantiate their claim that they were more than just and generous to the minority community.

This controversy of accusation and rebuttal continued unabated-if anything it was aggravated by the activities of the Congress in the States.

Travancore, Baroda, Kashmir and Hydersbad, among the bigger States, Jaipur, Rajkot. Limbdi and the Orissa States, were all astir. Mass movements of varying intensity were organised by local leaders to support the demand for responsible government. Being unaccustomed to political life on such intense scale, the people lost their balance and in many cases violence ensued. The States authorities took measures to put down manifestations of violence which in turn provoked further violence, activity in the States compelled recognition at the hands of the Congress whose Working Committee in the autumn, without deviating from its policy of non-interference, offered consistently with its resources to help the States subjects in every way open to it. Specific mention was made of the repressive policy adopted in certain States and the Princes as a whole were invited to confer responsible government on the subjects and themselves to function as constitutional monarchs.

As violence and counter-violence increased with the progress of time, the Congress executive under the direction of Mr. Gandhi took a much stronger attitude in the winter of that year. The Congress welcomed the awakening among the States subjects and expressed its solidarity with the movement for civil liberty and responsible government. It denounced the attempts of certain rulers to suppress the movements " by banning all peaceful and legitimate organisations of political activity and in some cases resorting to cruel and inhuman repression". Particular mention was made of the part played by the British Government in India and the Congress declared its "right to protect the people against the unwarranted use of military or police forces lent by the British authorities." It was also explained that the Congress policy of non-interference was dictated by considerations of prudence and that it was never conceived as an obligation. With the great awakening that is taking place among the people of the States there must be an increasing identification of the Congress with the States people.

Meanwhile, direct action in one form or the other was in vogue in several States and Mr. Gandhi whole-heartedly threw his weight in the scales in favour of the States subjects. He went to the extent of suggesting that Congress Governments in adjoining and surrounding areas should not look on while States subjects were being "persecuted." He also hinted that the British Government, while they were working as allies of the Congress in the provinces, should not display hostility towards the same organisation in the States.

The States were in a state of ferment, rulers were alarmed and the subjects defiant. The Princes heartly resented the attitude adopted by Mr. Gandhi and the Congress leaders who in their individual capacity actively associated themselves with the mass movements in several States.

Mr. Gandhi's Fast.

It was at this time that Mr. Vallabhbhai Patel, baving successfully paralysed the administration of Rajkot through civil disobedience, forced the Thakore Saheb of that State to enter into an Inagore Sanes of that state to enter into an agreement with him undertaking to set up a reforms inquiry committee with the specific object of devising a scheme "conferring the widest possible powers upon the people consistent with the ruler's treaty rights, obligations to the Paramount Power and prerogatives as a ruling chief." This gave an extraordinary fillip to the people's movements elsewhere.

After the conclusion of this agreement and the withdrawal of the civil disobedience campaign in Rajkot a hitch occurred in the implementing of the agreement. Mr. Patel contended that by virtue of a letter written to him by the Thakore Saheb on the day of the agreement he had the right to nominate seven members out of the ten to be appointed to the reforms committee. The Thakore Saheh, on the other hand, insisted that Mr. Patel could only recommend names and that it was open to the ruler to reject them, if he thought fit to do so. Mr. Gandhi regarded this as a breach of promise on the part of the Thakore Saheb and went to Rajkot in order to persuade the ruler to give effect to the agreement which, he pointed out, had been embodied in a Gazette notification of the State amounting to a promise from the ruler to his subjects. Negotiations having failed, Mr. Gandhi launched upon a fast uuto death in the hope of thereby making the ruler see his error and redeem his promise. Past seventy, Mr. Gandhi, it was feared, might not emerge from the ordeal with his life intact. There was a chorus of demand from every nook and corner of the country that the Paramount Power should intervene and by forcing the Thakore Saheb to redeem his pledge enable Mr. Gandhi to break his fast. The suspicion was also widely held that agents of the Paramount Power stood in the way of the Thakore Saheb implementing his promise. The countrywide demand for immediate intervention by the Paramount Power was reinforced by a hint from the various Congress Provincial Governments that they would resign if the Rajkot tangle was not satisfactorily solved.

Under pressure of these circumstances the Vicercy curtailed his tour of Rajputana, returned to headquarters and after delicate negotiations succeeded in persuading Mr. Ganchi to give up his fast on condition that the point in dispute between him and the Thakore Saheb would be referred to the Chief Justice of India,

After a few weeks the Chief Justice found in favour of Mr. Gandhi holding that the Thakore Saheb was obliged under the agreement with Mr. Patel to appoint to the committee all the seven persons submitted by Mr. Patel.

point of view inasmuch as the majority secured at such great cost by those who took part in the civil disobedience movement would be reduced to a minority.

Nor were the further stages in the task of evolving a constitution for Rajkot free from doubts and difficulties, Meanwhile, the people of Rajkot who, not many months ago, had shown remarkable solidarity, began to betray signs of dissension and weakness. Mr. Gandhi realised that it was hardly worth while fighting for methods and forms of responsible government and that what was necessary was the requisite amount of strength and will on the part of the people not only to obtain but also to work representative institutions in the States. Without proper training they were apt to fall victims to violence as was evidenced by numerous disturbances on a mass scale in one of which a British official of the Political Department was done to death. The sum total of all these was Mr. Gandhi's decision to renounce the Chief Justice's award in the Rajkot dispute and to advise the States subjects all over the country to suspend satyagraha. He asked them to go through the requisite period of training in the shape of quiet and constructive work which alone, he said, would give them the capacity to suffer and to sacrifice for their ideals. In the meanwhile, he suggested, that they should lower the pitch of their demands and make a direct approach to the local authorities in a spirit of humility and goodwill so that the rulers and their advisers might be moved to see the justice of their claims and meet them in a generous measure. This has since been done and the upheaval in Indian India which had assumed alarming dimensions died down overnight as it were. In this connection, His Excellency the Viceroy gave some very wholesome advice to the Princes exhorting them so to mould their administrations as to give no cause of serious complaint by their subjects. He also assured them that if they desired to introduce constitutional reforms in their States the Paramount Power would not stand in their way.

It only remains to notice that the Congress movement in the States was disapproved by the Muslim League which was interpreted as a bid for power at the future Federal centre. Towards the end of 1938 the Working Committee of the Muslim League passed a resolution which ran as follows: "While the All-India Muslim League fully sympathises with the aspirations of States subjects for their constitutional advance, it deprecates the change of attitude on the part of the Congress whose main objective in championing the cause of the States people is only to secure the establishment in the Indian States of an elective system enabling their representatives to be returned to the Federal Legislature, irrespective of anything else, in the hope that it might get a majority in the Federal Legislature. This victory proved, however, to be short-lived. When the time came for Mr. Patel to nominate the non-official members of the committee read difficulties were encountered. The Muslims and the landlords claimed representation on the committee, and if their claims were Muslims and the landlords claimed representation on the committee, and if their claims were with disastrous consequences, if they did not meet the demand of the Congress". In particonceded it became apparent that the object conceded the value of the Chief Justice's Hyderabad State which it construed as an attack ward would be suited from Mr. Candidite. award would be nullified from Mr. Gandhi's on the principal Muslim State. It is by no

means unlikely that the threat of communal further asked not to contest the election of a trouble in the States if the Congress agitation in leader and to make a public declaration that by the States were continued, was partly responsible for Mr. Gandhi's direction to the States subjects of any position of trust and responsibility in the to suspend direct action.

The third aspect of Congress activity in recent months relates to its internal affairs. The first evidence of a source of weakness in the Congress organisation was provided by developments in the Central Provinces. The Central Provinces have in the past proved a thorny proposition to the Congress although they have consistently remained Congress—minded. True to tradition the Congress party in this part of the country began to show signs of weakening solidarity not many months after the formation of Congress Ministers. Regional and personal rivalries began to manifest themselves and very soon created an atmosphere in which sustained work became impossible. Different factions strove to gain ascendency inside the Congress party and the Ministry itself was not free from intrigue. Complaints of favouritism and corruption were preferred against more than one Minister while the Ministers themselves did not pull together as a united team.

The Khare Episode

A situation arose in the summer of 1938 in which the intervention of the Congress High Command was rendered imperative. This term command was rendered imperative. This term High Command applies generally to the Working Committee of the Congress but particularly to the Parliamentary Sub-Committee of the Working Committee. The sub-committee consisted of Mr. Vallabhbhai Patel, Babu Bajendra Prasad and Maulana Abul Kalam Azad, and lité task was generally to supervise, advise, direct and control the various provincial ministries according to a restonal division the tries according to a regional division, the members of the committee dividing the country into separate spheres of their respective authority. The High Command managed to bring about a reconciliation between the rival groups in the Central Provinces Cabinet, but it was short-lived. The Prime Minister, a few weeks later, called upon his colleagues to tender their resignations. Some of the latter compiled, while others suggested that it might be advisable to consult the Dathameter of to consult the Parliamentary Sub-Committee and the Working Committee which were due to meet a couple of days later—before such a drastic step was taken. The Premier, Dr. Khare, refused to yield when he was asked by a member of the Parliamentary Sub-Committee to stay his hands. He tendered the resignation of the entire Cabinet whereupon the Governor was forced to terminate the office of those Ministers who were disinclined to lay down their office. His Excellency then called upon Dr. Khare who was still the leader of the majority party to form a new Cabinet. This he did with some members of his former Cabinet and some new man all of who was a still the cabinet and some new man all of who was a still the cabinet and some new man all of who was a still the cabinet and some new man all of who was a still the cabinet and some new man all of who was a still the cabinet and some new man all of who was a still the cabinet and some new man all of who was a still the cabinet and some new man all the cabinet and some new manufactured the cabinet and so men, all of whom, however, belonged to the Congress Party.

Dr. Khare's action was strongly disapproved by the Congress High Command which found success of him guilty of indiscipline and called upon him to disband his newly formed second Ministry and and carry to relinquish the post of the leader of the Party. Be did so, resigned for the second time and Government the man application of the second time and on Indis.

further asked not to contest the election of a leader and to make a public declaration that by his behaviour he had rendered himself unworthy of any position of trust and responsibility in the Congress organisation. This, however, he refused to do. The Party met under the guidance of the High Command and elected Pundit Ravishanker Shukla as its leader, who was called upon by the Governor to form a new Ministry. From the third Congress Ministry were excluded Dr. Khare and those of his colleague in the first Cabinet who had acted contrary to the wishes of the High Command.

The decision of the Working Committee on this episode provoked conflicting comments in the country, some leaders and newspapers accusing it of a tendency towards facism, authoritarianism and dictatorship.

Disciplinary action, although under different circumstances, against another Congressman earlier in the year followed by the Central Provinces ministerial episode served to create an element of discontent among a section of Congressmen who showed signs of revolt against the

smen who showed signs of revolt against the High Command. This was strengthened by persistent rumours that the leaders of the Congress were contemplating a compromise with the British Government on the subject of Federation, a suspicion which was assiduously cultivated by extremists who disliked the restraint placed upon their activities by the various Congress Ministries backed up by the High Command. Thus, there grew up a new school within the Congress composed of divergent elements who united in attacking the Working Committee. That the Congress Governments were doing no more and no less than what governments ought to do and that the Working Committee reiterated the Congress hostility to Federation did not satisfy the extremist school.

Early in 1939 the time arrived for the election of the Congress President for the ensuing year. In accordance with past practice the old leaders selected Dr. Pattabhi Sitaramayya and recommended him to the three thousand odd Congress voters. At any rate they were opposed to the reelection of Mr. Subhas Chandra Bose on the ground that some items of his programme were unwise and impracticable. Mr. Bose contested the electin against the wishes of Mr. Gandhi and the old leaders and succeeded in defeating the latter's nominee. On page 849 of this book to causes of this event have been analysed. Mr. Gandhi regarded Mr. Bose's success as his own defeat and wrote as if the Congress leadership had passed from his hands to those of Mr. Bose whom he called upon to take over the machine and run it according to his lights. A fierce controversy ensued in which Mr. Bose and the right wing leaders said several uncomplimentary things against one another. Thinking that it was impossible for them to reconcile their deals and methods of work with those of Mr. Bose, the right wing leaders tendered their resignations on the eve of the next session of the Congress to be held at Tripuri in March 1939. Congress to be need at "rippur' in Marca 1989.
They hoped that Mr. Bose would carry his success of his presidential election to its logical conclusion and proceed to form his own executive and carry out his programme which included the giving of a six-month ultimatum to the Reitish Government to confer complete independence

Tripuri Session

There was general confusion in the country, especially among the Congress Parties and Ministers in the various provinces. It was at this time that the annual session of the Congress met at Tripuri. In a very short presidential address, Mr. Bose said the time had come to raise the issue of "Swaraj" and submit India's national demand, to the British Government in the form of an ultimatum. To his mind the problem was what they should do if the Federal scheme was indefinitely shelved. They should submit their national demand in the form of an ultimatum with a time limit, at the expiry of which a renly should be demanded. "With the Congress in power in eight provinces, the strength and prestige of our national organisation have gone up", he said. "The mass movement has gone up" made considerable headway throughout British India. Last, but not the least, is the widespread awakening in the Indian States, What more opportune moment could we find in our national history for a final advance in the direction of Swaraj, particularly when the international situation is favourable to us? If only we sink our differences, pool our resources and pull our full weight in the national struggle, we can make our attack on British Imperalism irresis-Shall we have the political foresight to make the most of our present favourable position or shall we miss this opportunity, which is a rare opportunity in the life of a nation "? His appeal for an ultimatum to Great Britain did not cut much ice with the delegates. The exposures made during the controversy over the presidential election and Mr. Gandhi's offer to hand over the machinery of the Congress to Mr. Bose by virtue of his re-election caused a revulsion of feeling against Mr. Bose among the same delegates who only two months ago had chosen him to be President for another year. Members of the old Working Committee who had resigned took no part in the deliberations. The Premiers of Madras and the United Provinces played a leading role at Tripuri and they tried to pull back the Congress from the swerve to the left.

The main resolution of the session was one which reaffirmed the old policy of the Congress and the faith of the bulk of the Congressmen in Mr. Gandhi and his leadership in spite of Mr. Bose's re-election. The resolution ran: "In view of various misunderstandings that have arisen in the Congress and the country on account of the controversies in connection with the presidential election and after, it is desirable that the Congress should clarify the resistion and declare its general policy. This desiration and declare its general policy. This Congress declares its firm adherence to the fundamental policies which have governed its programme in the past years under the guidance of Mahatma Gandhi and is definitely of opinion that there should be no break in these policies. and that they should continue to govern the Congress programme in future. This Congress expresses its confidence in the work of the Workexpresses no condensor in the work or the working Committee which functioned during the
last year and regrets that any aspersions should
being rapidly exhausted. The proposed Federation strangles India still further and will not be
view of the critical situation that may develop
during the coming year and in view of the fact
that Mahatma Gandhi alone can lead the
Congress and the country to victory during
of a free India made by the people themselves.

such crisis, the Congress regards it as imperative that its executive should command his implicit confidence and requests the President to appoint the Working Committee in accordance with the wishes of Gandhiji".

Other resolutions of importance passed at Tripuri dealt with India's "national demand", the Indian States and Britain's foreign policy.

he resolution on "national demand" said :

"The Congress has for more than half a century striven for the advancement of the people of India and has represented the urgs of the Indian people towards freedom and self-expression. During the past 20 years, it has engaged itself, on behalf of the masses of the country, in a struggle against British Imperialism, and, through the suffering and disciplined sacrifice of the people, it has carried the nation a long way to the independence that is its objective.

With the growing strength of the people, it has adapted itself to the changing and developing situation, and while pursuing various pro-grammes has ever worked for the independence of India, and the establishment of a democratic state in the country. Rejecting the Govern-ment of India Act, and with full determination to end it, it has decided to take advantage of the measure of provincial autonomy that this act provided-restricted and circumscribed as it was—in order to strengthen the national move-ment and to give such relief to the masses as was possible under the circumstances. To the federal part of the Act, the Congress declared its uncompromising opposition and its determinamination to resist its imposition.

"The Congress declares afresh its solemn resolve to achieve independence for the nation and to have a constitution framed for a free India through a constituent assembly elected by the people and without any interference by a foreign authority. No other constitutions or attempted solutions of the problem can be accepted by the Indian people.

"The Congress is of the opinion that in view of the situation in India, the organised strength of the national movement, the remarkable growth of the consciousness of the masses, a new awakening among the people of Indian States as well as the rapid development of the world situation, the time has come for the full application of the principle of self-determination to India, so that the people of India might establish an independent democratic state by means of a constituent assembly.

"Wot only the inherent right and the dignity of the people demand this full freedom, but also or one people commit and its intermediation, but accommit and other problems which press insistently on the masses cannot find solution; nor can India get rid of her poverty and keep pace with modern progress unless the people have full opportunities of self-development and property which tadacandess along a given and growth which independence alone can give.

"Provincial autonomy affords no such scope

"An independent and democratic India will face the solution of our great problems rapidly and effectively and will sligh herself with the progressive peoples of the world and thus aid the cause of democracy and freedom. With a view to the speedy realisation of the Congress objective and in order to face effectively the national and international crisis that iooms ahead, this Congress calls upon all parts of Congress organisations as well as Congress Provincial Governments and the people generally to prepare themselves to this end, to promote unity and in particular to strengthen, purify and discipline the organisation, removing weakness and corrupting influences, so as to make it an effective organ of the people's will".

The following is the text of the resolution on Indian States:—

"The Congress welcomes the awakening of the people of Indian States in many parts of the country and considers this as a hopeful prelude to a larger freedom, comprising the whole of India, for which the Congress has laboured. The Congress aupports the demand for responsible Government and civil liberty in the States and expresses its solidarity with these movements for freedom and self-expression, which are integral parts of the larger struggle. While appreciating that some Rulers of States have recognised this awakening as a healthy sign of growth and are seeking to adjust themselves to it in co-operation with these people the Congress regrets that some other Rulers have sought to suppress these movements by banning peaceful and legitimate organisations and all political activity and in some cases resorting to zeruel and inhuman repression.

"The whole of India was profoundly stirred by the announcement of the indefinite fast by Mr. Gandhi in order to remedy the breach by the Thakore Saheb of Rajkot of the settlement arrived at between him and his counsellers on the one hand, and Mr. Patel as representing the people on the other.

"The Congress expresses its gratification at the recent agreement resulting in the termination of the fast and trusts that the people of Rajkot will have their aspirations fulfilled, and further hopes that the Princes of Kathiawar and other parts of India will march with the times and, in co-operation with their people, introduce popular government.

The Congress is of the opinion that the resolution of the Haripura session of the Congress, relating to States, has answered the expectations raised by it and has justified itself by encouraging the peoples of the States to organise themselves and conduct their own movements for freedom. The Haripura policy was conceived in the best interests of the people in order to enable them to develop self-reliance and strength. This policy was dictated by circumstances and by a recognition of the limitations inherent in the circumstances, but it was never conceived as an obligation.

"The Congress has always possessed the right, as it is its duty, to guide the people of the States and lead them with its influence. The great awakening that is taking place among the people off the States may lead to a relaxation or to the

complete removal of the restraint which the Congress imposed upon itself, thus resulting in an ever-increasing identification of the Congress with the States people.

"The Congress desires to reiterate that its objective, complete independence, is for the whole of India, inclusive of the States, which are integral parts of India which cannot be separated, and which must have the same measure of political, social and economic freedom as the rest of India."

Thus, it must be said that the Tripuri Congress virtually devoted all its time to making known to the world that the Congress was solidly behind Mr. Gandhi in spite of Mr. Bose's re-election to the presidentship.

In accordance with the principal resolution passed at Tripuri it would have been in the fitness of things if Mr. Bose sought the advice of Mr. Gandhi for the formation of a new Working Committee. This he could not do on account of illness. After a few weeks, however, he entered into correspondence with Mr. Gandhi who expressed his unwillingness to suggest to Mr. Bose the personnel of his new executive. Mr. Gandhi thought that in view of the sharp conflict between Mr. Bose and the right wing leaders it would not be proper for him to yoke the two together. He therefore advised Mr. Bose to form his own Working Committee, to formulate his own programme and to face the All-India Congress Committee therewith.

The-All India Congress Committee met at Calcutta in April 1939 at which Mr. Bose tended his resignation of the office of presidentship consequent on the failure of renewed negotiations between him on the one hand and Mr. Gandhi and the right wing leaders on the other. Babu Rajendra Prasad was elected president in his place.

Immediately following his resignation Mr. Bose gathered round him a few Congressmen composed of radicals and critics of the right wing and formed a "Forward Bloc". The main purpose of this move was to give a revolutionary bias to the Congress and to present an ultimatum to the British Government in respect of the future constitution of India.

About two months later, the A.I.C.C. met in Bombay and adopted the recommendations of the sub-committee appointed at Calcutta to formulate measures for the removal of corruption and indiscipline in the Congress.

Mr. Bose took advantage of the presence of a large number of Congressmen in Bombay to make an attempt to bring together all the left groups in the Congress under one banner. This he failed to achieve, but he got them to agree to act in concert wherever they thought alike. What is known as a Consolidation Committee was formed to regulate the activities of the various left wing groups.

The Bombay meeting of the All-India Congress Committee in addition to making certain changes in the constitution of the Congress adopted a resolution sponsored by the executive which laid down that no Congressmen should offer or organise civil disobedience movement without the prior sanction of the provincial Congress

committee concerned. The proposal raised a in the Federal Legislature, co-ordinate powers storm of protest from all left wing Congressmen for the Upper House in voting supplies at joint who insisted on having the right "to keep up the sessions, freedom for States from direct taxation spirit of revoit among the masses". The rightists who were in a clear majority of two to one in the committee were determined to prevent all activities which were calculated to embarrass the Congress Ministries in office. Thus, the critics of Mr. Gandhi and his policy sustained another defeat although they managed to pool together sixty votes.

At the time of writing it is difficult to foretell the future of the leftist movement.

INDIAN PRINCES.

During the past four or five years the Indian Princes have figured largely in discussions on the future constitutional machinery of British India. They became actively interested in British Indian Reforms with the announcement made by representative Princes at the First Round Table Conference that they would join an All-India Federation provided there were adequate safeguards for them. This enthusiasm waned, however, in 1981 when some prominent Princes began to entertain doubts about the advisability of their joining the Federation. The Congress resolution which set its goal as the establishment of a socialist state and the subsequent pronouncements of Congress leaders, including Mr. Gandhi, on their intentions if they gained power, made the Princes pause before they plunged. The late Maharaja of Patiala was the first to come into the open to warn his brother Princes against the dangers to their very existence involved in the Federal Structure Committee's plan. He declared that smaller States were bound to suffer the fate of the smaller German principalities under the Confederation of 1815 and disappear from the map of India. He suggested the advisability of a Union of Indian States directly in relationship with the Crown. He was later followed by other Princes, who shared his fears, and the view gained in strength that unless adequate guarantees were given for the continued maintenance of their rights and privileges, they should not give their consent to ioin the proposed Federation.

Almost all the Princes of India or their representatives had gathered at Delhi about the time of the publication of the White Paper.
The scheme was generally supported by the Princes, subject to the incorporation in the Constitution Act of safeguards for the maintenance of internal autonomy, an equitable distribution of seats among the States in the federal legislature and a satisfactory settlement of the claims made by the Princes under the vague term "paramountcy."

Interest next shifted to London where the Joint Parliamentary Committee took evidence on the Reforms proposals. Representatives of the Standing Committee of the Princes' Chamber demanded statutory provisions rendering it permissible for States to enter the proposed Federation collectively through a confederation, measures to secure weightage for the representa-tion of States in the Legislature in the event of a bare minimum federating at the outset, prohibi-

were considered essential, but entry into federa-tion would depend on the final completed picture of the Indian constitution.

The Joint Parliamentary Committee having accepted Sir Samuel Hoare's suggestion that the new Government of India Bill should not confine itself to provincial autonomy but should include the establishment of a federation for all-India, the position of the States in the Federation naturally became an important consideration with the Princes. They appointed a committee of States Ministers to examine the report and formulate their views. This was done and a number of Princes, including the most prominent Rulers, met in Bombay in February, 1985, and expressed their disapproval of the Joint Parliamentary Committee's recommendations as they stood.

A resolution passed by the meeting of Princes emphasised that before the Bill could be considered as acceptable to the States it was necessary that it should be amended in certain essential particulars. These were set out in the report of the States Ministers' Committee and referred to the form and mode of accession to the Federation, specific mention and preserva-tion of the treaties and agreements concluded with the States, the extent of the executive authority of the Federation in regard to the States, the special responsibilities of the Governor-General vis-a-vis the Indian States, provisions consequent upon the possible suspension of the constitution, and enforcement of Federation laws and powers vested in the Governor-General.

The Princes' decision caused a great sensation and was promptly seized upon by the Conserva-tive die-hards in Britain who saw in it a weapon with which they hoped to kill Federation. Sir Samuel Hoare showed a conciliatory spirit and offered to consider the Princes' representations in respect of details. On the question of principle, however, he refused to bring into discussion the question of Para-mountcy, which was definitely outside the purview of the Government of India Bill.

(For details see past issues of this book.)

The Secretary of State's assurances allayed to some extent the fears of Indian Rulers. During the report stage of the Bill amendments were introduced by the Government which, it is believed, generally meet the issues raised by the Princes.

A new development occurred with the passing of the Government of India Act. The picture was complete and it was no more open to the Princes to argue that they could not come to a decision on their entry into federation until after they had known the final constitution of the federation. Following on the parliamentary enactment of the reformed constitution, the officers of the Political Department in India sent to the various Princes draft Instruments of Accession to the federation with a request that the reply should be sent at an early date. The tion of discussion of the domestic affairs of States larger question of the entry into federation was

narrowed down to the terms on which each individual State was invited to join. But even in the matter of details many of the Princes sought to withhold many of their existing powers, rights and privileges and seemed inclined to federate for the minimum purposes. The next stage of discussion was confined to the extent to which they should go.

The federal scheme as embodied in the Act and as detailed in the British Government's draft Instruments of Accession was subjected to a state of criticism by the smaller states. In order to ventilate these points and to evolve a minimum formula on which most state could agree, the Standing Committee of the Chamber of Princes organised a bigger conference of Princes and Ministers in the latter half of 1936. At this conference, which met in Bombay and which was presided over by the Changallar the Maharaia Rana of Photometers. Chancellor, the Maharaja Rana of Dholpur, some very strong speeches were made expressing the disinclination of many small states to federate on the terms proposed. Important amendments were suggested to the provisions of the draft Instruments of Accession and it was sought to withhold a number of subjects mentioned in the list of federal items appended to the Government of India Act. To consider these suggestions the conference appointed two sub-committees, the constitutional sub-committee under the chairmanship of the Maharaja of Patiala and the finance sub-committee presided over by the Nawab of Bhopal. The former had the assistance of two legal experts, namely Mr. Morgan and Mr. D. G. Dalvi, and the latter was assisted by Sir B. N. Mitra and Mr. Manu Subedar. The constitutional sub-committee met for three weeks in Delhi and the latter met from time to time at Bhopal and submitted their reports to the Chamber of Princes.

The main recommendation of the constitutional sub-committee was that the sphere of paramountcy must be quite distinct from the federal sphere and the obligations of the Crown arising out of the treaties and must in no way be affected by the federation. It was also made clear that it must be understood that the states would join the federation only in respect of the subjects to which they acceded and with the limitations proposed by them. Moreover the sovereignty of the states must remain as before except to the extent agreed to be transferred to the federation by their rulers through the Instruments of Accession.

The finance sub-committee recommended that there should be no direct taxation of the states' subjects except in respect of the sur-charge on income-tax. Even in respect of incharge on income-tax. Even in respect of in-direct taxation, only those mentioned in the Act should be levied, and the list should not be added to. Whatever tributes were now payable should cease after federation.

Both the reports were in the main adopted by the meeting of Princes and Ministers which

met at Delhi early in 1987.

Most of the States then sent to Government alternative draft Instruments of Accession ment alternative drait instruments of accessions embodying the suggestion approved by the Delhi conference, but many are reported to have gone beyond the Delhi formula. These alternative drafts were considered by Whitehall which sent to the various states final drafts of Instruments of Accession.

The British Government's final draft Instruments of Accession is a secret document, at any rate at the time of writing. It took into consideration the various points urged by the Princes and is believed to have made certain concessions to the Princes' fears and suspicions. It was sent round to individual Princes in January 1939 and they were given six months' time to examine it and give their final reply.

The revised draft was examined in all its implications by a committee of States Ministers, called the Hydari Committee, whose findings were later confirmed by a conference of Ministers

were later commend by a conference of ministers and their Ministers held in Bombay in midsummer. The last-mentioned resolved:

"The Conference of Princes and Ministers assembled in Bombay, having considered the revised draft Instrument of Accession and the connected papers, resolves that the terms, on the basis of which accession is offered, are fundamentally unsatisfactory in the directions indicated in the report of the Hydari Committee of Ministers and confirmed by the recommendations of the Gwalior Conference and are, therefore, unacceptable.

"At the same time, the conference records its belief that it could not be the intention of His Majesty's Government to close the door on an

All-India Federation.

The Princes' reasons for refusing to accede to the proposed federation on the terms embodied in the draft Instruments of Accession are summarised in the Hydari Committee's report, which, in its concluding paragraph, said :

"The Committee reiterates its conviction that there is in fact no alternative ideal for India, except that of an All-India Federation, provided it ensures all the essential safeguards advocated by the Committee and offers effective assurance of the continued autonomy and integrity of the States.

The Committee came to the unanimous conclusion "that the draft Instrument of Accession and other drafts circulated, on the basis of which accession is offered, are fundamentally unsatisfactory in the directions noted

by it."

The Committee found it difficult to believe that it was the intention either of His Majesty's Government or the Government of India to close the door on Federation. If the vital matters, to which the Committee had drawn attention, could be satisfactorily adjusted the Committee was of the opinion that there would then exist a satisfactory basis on which accession could be concluded by individual States with due regard to the particular interests of each.

Referring to the general clauses of the Instrument of Accession, the Committee pointed out that, while in the former draft Instruments there was a limitation on the exercise of the executive authority of the Federation in the State, that limitation had now been omitted in the revised The Committee emphasised that the limitation referred to correctly stated the position hitherto understood by His Majesty's Government and the States, and that as a matter of form it was correct and was based on a relevant section of the Government of India Act of 1985.

The Committee, referring to "other matters," stated that in the course of its discussions it had been pointed out that some " other

the Instrument of the two clauses dealing with the separation of Paramountcy from the Federal

Sphere and vice versa.

With regard to the question of defence, the Committee was of the opinion that the position had not been made as clear as it should have been in the case of such a vital matter. The Committee did not feel entirely satisfied that this obligation of the Crown to the States and relationship regarding Paramountcy would remain unaffected by accession without appropriate limitation.

with Customs, the Dealing Committee considered that any limitation on the power to alter the existing rates could not be accepted by the States concerned, while the amendments now proposed were a reversal of past decisions of a vital character, and had been proposed without giving the States likely to be affected even an opportunity of stating their objections thereto.

As regards railways, the Committee stated that despite the improvement effected in the present position through the provision of a Railway Tribunal, the suggestion of unqualified accession to that item in the Federal List went far beyond anything which the States had ever

contemplated.

"Excise duties." Under the item Committee stated that, in the matter of finance. the views of the Committee had been well-known, It was pointed out that the date fixed, namely, March 31, 1937, for deciding whether a State should be allowed to retain any item of excise revenue, must operate harshly upon its financial resources. That date should be the date of the inauguration of Federation, and if and when the distribution of excise duty among the federating units took place by federal legislation, the States concerned should not receive less than what at the advent of Federation they would be entitled to receive.

The Committee considered that the proposed Administration Agreement fell far short of what had been contemplated throughout the federal discussions. The present draft did not ensure that administration of federal laws should be

reserved to the States.

The Committee viewed with great concern the proposed amendments to items relating to Customs and the proposal to insert a new section

in the Government of India Act.

Referring to Treaty Rights, the Committee stated that at present a treaty right could not be extinguished by the unilateral action of one party. The Committee felt that it would be a very serious change in the status of treaty rights, if, through accession, they were to become rights liable to be so extinguished, and the fact that the Governor-General, in his individual judgment, would determine whether it was proper in all the circumstances that the Federal Legislature should be permitted to do so was not a sufficient safeguard.

The Committee also felt that States which had important treaty rights relating to matters for which they had been asked to accede and not being rights which they were prepared to waive on accession, might find great difficulty in acceding on the basis at present offered. The Committee anticipated that in many cases it would not be found to be the intention of the Crown Representative that treaty rights should

States strongly favoured the further inclusion in amendments, some of them of substance, were being introduced by His Majesty's Government. a suitable method of safeguarding such rights.

The Princes' Conference resolution based on the Hydari Committee was a serious set-back to the negotiations for the introduction of federa-tion; but the hope is held at the time of writing that the individual replies of the Princes to the Viceroy's circular may be such as to lessen the

prevalent pessimism.

A new factor in the accession of the State to the proposed federation arose early in 1988. The Congress which had all this while opposed the inauguration of the federal part of the Government of India Act intensified its opposition since July 1987 when its nominees became Ministers in the majority of British Indian provinces. What were merely unofficial resolutions passed at public meetings and Congress conferences became the considered judgments of these Governments. They also induced their respective legislatures to pass specific resolutions protesting against the federal Scheme contained in the Government of India Act of 1935, affirming their determination to resist its inauguration and setting out in detail their objections to the proposed federation. One of the principal objections was the anomaly of "forcing an alliance between democratic British Indian provinces and autocratic Indian States." In other words, the Congress demand-ed as one of the conditions precedent to its active co-operation with the federal scheme the introduction in the State of self-governing institutions and an undertaking by the States rulers that in choosing their representatives to the federal legislature they would adopt an elective element. Neither the British Government nor their representatives in India could countenance these demands which were contrary to the provisions of the Act. Nevertheless the tide of democracy could not be stemmed. Many States could not escape the influence of autonomous adjacent provinces.

Numerous States announced their Rulers' intention to liberalise their constitutional machinery and to improve their administrations. Many introduced reforms. A few Rulers actually declared that responsible government was the goal of policy and took steps towards it. declared Prominent among those who announced reforms were Baroda, Gwalior and Aundh, the last named giving effect to a scheme which had previously Gandhi. been approved by Mr. Gandhi. Other States like Hyderabad and Mysore appointed committees to suggest reforms proposals

At a certain stage doubts were held whether it was open to an Indian Prince to liberalise his administrative and constitutional machinery consistent with his obligations under Para-mountey. These were dispelled by mountcy. These were dispelled by authoritative statements by spokesmen of the British Cabinet sha by the Vicercy to the effect that the British Government would neither force nor obstruct the grant of internal reforms by Indian Princes but that no State would be regarded as relieved of its obligations to the Paramount Power by the fact that the Ruler had divested himself of the control necessary to discharge them. Whatever the measure of reform introduced by the Indian Princes, there is no gainsaying that they have felt the influence be waived, and it ought not to be difficult to of the prevalence of autonomous representative devise by amendment, if necessary, of the institutions in British Indian provinces and are provisions of the Act at a moment when many striving to respond to the spirit of the times.

The National Liberal Federation.

special session in Bombay in August 1918 (vide 1918 edition of this book) witnessed the birth of the National Liberal Federation which has, since the Mational Liberal Federation which has, since then, been the platform of Indian moderate leaders. It held its first session in Bombay in 1918, Sir Surendranath Banerjee presiding. The Federation adopted for its creed the old Congress formula which was set aside by the Nagpur Congress. The Liberal Party in India has always been the rallying point of moderately progressive opinion. It has consistently stood for a pure type of nationalism and orderly progress through peacaful and constitutional means, as opposed peaceful and constitutional means, as opposed to the revolutionary creed and policy of the Congress. During the first five or six years of its existence, the party played a useful and valuable partip politics and exerted a wholesome influence on public life. The death of the Rt. Hon. E. S. Montagu was a serious blow to the Indian Liberal Party whose influence on Indian affairs steadily waned since then. The Indian Round Table Conference brought it again to the forefront, but its influence again suffered partly as the result of the "reactionary provisions" of the Government of India Act of 1935 and partly as the result of the growing strength of the Congress organisation. The return of the Congress to the constitutional path ousted it from Indian politics. At the time of writing the Liberal Party exists only in name, there being no place for a middle group in Indian affairs of the present day. Indeed, it was felt necessary to enter at the last session of the Liberal Federation a special plea for the continuance of the Liberal Party in reply to suggestions that the party be wound up.

Shortly after the annual session of the Liberal Federation in 1935 there were rumours of an understanding with the Congress in order jointly to contest the elections, but these were soon proved to be unfounded. Efforts were doubtless proved to be unfounded. Efforts were doubtless made to bring about this consummation, but it was found there was very little chance of the Congress and Liberals agreeing on any joint programme of work—their outlook was so widely divergent.

The general elections for the provincial legislatures under the Government of India Act of 1935 not only proved that the Congress had enormous influence over the electorate but also confirmed the exit of Liberals from active political life in India. Few Liberal candidates contested the elections, but hardly any was successful. During the past two or three years the Liberal Party existed only in name. Its leaders, however, made their existence felt by occasional contributions to the discussion of public questions. They also played a valuable part in offering sober and constructive criticism of the policies and actions of the majority party, the Congress. Such criticism was all the more useful owing to the absence of an opposition in most of the provincial legislatures in which the Congress is now in power.

The definite breach between the moderate fixed Dominion Status within the Empire as and extremist elements in the Congress at its their ambition, while the latter have set their substantial in Empire in Angust 1918 (middle incomplete independence). "complete independence" as their goal; similarly in the matter of method, the Liberals are opposed to direct action and are wedded to constitutional forms of agitation to accelerate the pace of the country's political advance.

> These points were emphasised at the last session of the Liberal Federation held in Bombay in December 1938, Sir Cowasji Jehangir, welcoming the delegates, observed: "Although strict constitutionalism had characterised the administration of the Congress provinces and that the Congress had vindicated the Liberal policy to seek political salvation on constitutional lines, I wonder whether the line of demarcation between the Liberals and the Congress has grown so faint in practice as not to justify the separate existence of a distinct political party. We may be called cowards and the most uncomplimentary language may again be the order of the day," he continued "but we shall continue to warn our countrymen that direct action will not lead us to the goal of our ambitions, while suffering, hardship and dis-organisation will follow in its wake. I assert that the necessity to abandon these methods, even if temporarily, by Congress is a triumph of Liberal foresight. In order to secure the veneer of temporary political unity the Liberals cannot light-heartedly abandon a principle for which they have fought these twenty years. The Liberals from conviction believe in ordered progress. They think and feel in terms of evolution. All attempts at a temporary advance by the method of direct action is regarded by them as definitely dangerous to ultimate political progress. We believe that if the Congress abandoned its present method of constitutional Government and resorted to civil disobedience, as threatened by its President, large numbers of thinking people in India, while approving of the present constitutional Congress policy, would be most unwilling to subject this country to a fresh spell of political confusion. Such people will then naturally turn to a political party which has no communal basis and which can afford a common rallying centre for the bulk of political opinion, which does not belong to the direct action school. There are, too, a large number of politically minded persons who though they do not label themselves as Liberals approve of, and follow, liberal principles."

A powerful plea for India remaining within the Empire was made by the Hon. Mr. P. N. Sapru, President of the session. He said:

"Viewing the world situation in its proper setting, bearing in mind what the new imperialisms are and mean for the weaker races of mankind, I think we were wise in fixing as our objective Dominion Status as defined in the Statute of Westminster. Dominion Status which is a dynamic conception is hardly distinguishable for any practical purpose from virtual independence. It is a free association of free peoples in no way subordinate to one another. In a world full of menace to the democratic Although the Liberals hold no less progressive | States, we have in the British Commonwealth views than Congressmen, there is a fundamental of Nations, an organisation which can provide difference between the two: the former have the base for a system of collective security. And surely democratic States must pull together. In a world full of menace to the Asiatic and African races, it would give to India a sense of security which an entirely independent existence cannot. If, however, forgetting the dark chapters in our relationship it is wise for us to accept it loyally and unreservedly as our objective, it is equally the duty of those who control British policy to endow India as speedily as possible with Dominion Status, for Indian thought is running in channels which threaten to make an Indo-British Commonwealth an unacceptable idea!

Mr. Sapru dwelt at length on the federal part of the new constitution and, while declaring that few in India were in love with it in its present form, deprecated the threats uttered by some Congress leaders that an attempt to impose federation on India would be resisted with civil disobedience. "That way lies disaster", he said; "we owe it to ourselves and to the country to utter a warning, in the present tense communal atmosphere, against the dangers of such a course. Fortunately, the wiser heads of the Congress have been keeping discreetly silent. It would, in my humble judgment, be a grievous blunder on the part of democratic provincess to give up in pursuit of a weapon which experience has demonstrated to be a double-edged one, the position of advantage they enjoy at present, the opportunity they possess, within their limited resources, to do constructive work for social and economic uplift and establish correct conventions of responsible government and traditions of democracy, to abandon the lever they possess, to control the tendencies of a centre which, it is apprehended, will be unduly conservative. That is not the way to combat the new constitution.

"Politics is the art of method and results. Wise statesmanship consists in sizing up situations and devising effective weapons to meet them. Not by refusing to handle the machinery set up at the Centre but by utilising it in an independent, courageous and constructive manner for the removal of those obstacles which the Act has, unfortunately, placed in our way, shall we be able to build up a mightly force which even this extraordinarily rigid constitution will not be able to resist. There is no inconsistency in condemning the framework of the Act and then bending it for the promotion of those ends we believe in. We should despair of the future if we did not believe in the capacity of Indian (including Indian States) and British statesmanship to profit by experience gained of the Government of India Act in operation. Let us, therefore, take care to see that in an attempt at wrecking the federation, we do not wreck ourselves."

The Liberals' President concluded with an expression of hope that Eulers of Indian States would move with the times, liberalise their administrations and establish representative government and the rule of law in the States.

The Session formulated what were described as the irreducible minimum changes in the federal machinery essential for the successful working of the federal constitution. The changes proposed were:—

- (1) clearing up the position of the Princes and securing the subjects of Indian States the right of election of States' representatives to the Federal Legislature;
- (2) removal of safeguards relating to the monetary policy and commercial discrimination;
- (3) introduction of direct election to the Federal Assembly;
- (4) making the Constitution elastic so as to enable India to attain Dominion Status within a reasonable period.

The conference passed a resolution which, while expressing satisfaction that provincial autonomy was being worked on constitutional lines without any undue interference from the Governors, deprecated the manner in which the Congress Working Committee "tried to impose its will and decisions" on Congress Ministries. Such interference, the resolution stated, was calculated very seriously to hinder the growth of a healthy, democratic system of government in the country.

A resolution on the economic development of India advocated reform of agrarian laws, the embodiment in legislative enactments of the main principles of land revenue assessment, the relief of agricultural indebtedness and measures to check fragmentation, substantial aid in the development of industries, a fiscal and monetary policy wholly in the interests of the country, labour legislation, free and compulsory elementary education and provision of medical relief.

Another resolution expressed the hope that the Rulers of all Indian States would realise in their own interests that with the working of autonomous responsible Government in the Provinces, it was no longer possible for them to continue to administer their States on the existing basis. The Federation, therefore, urged the Rulers to concede to their subjects without any further delay the right of security of person and property, liberty of speech and of the press, freedom of association, an independent judiciary, and to initiate measures for the establishment of responsible government.

An appeal to Government to make the country self-reliant in the matter of defence was made by a resolution which demanded the rapid nationalisation of the defence forces, the re-distribution of defence expenditure so as to provide more money for the development of the Indian Air Force and Navy, the removal of communal and provincial restrictions regarding recruitment to the Army, a wider expansion of the University Training Corps and the introduction of military drill and the establishment of cadet corps in schools. The resolution recorded its protest that the Government of India Act of 1985 did not provide for a close association of the responsible part of the Federal Government with the defence of the country and also strongly deprecated the exclusion of Indians from the membership of the Chatfield Committee. The resolution also urged the need to undertake a more systematic organisation of air raid precautions.

The appointment of civilians as Governors and judges formed the subject-matter of another

resolution. The Federation expressed the to the judiciary, including the High Court, opinion that the practice of appointing members abound the Indian Civil Service as Governors should no longer be continued; that Governors should living outside this country, the Federation be men drawn from public life and that the suggested the development of an Indian Consular policy of appointing Indians as Governors should Service on the lines adopted by other Dominions be promoted. It further urged that recruitment of the British Empire.

MUSLIM ORGANISATIONS.

The awakening of political consciousness among Muslims in India as a separate entity dates back to 1906 when the All-India Muslim League was formed. It worked up its influence steadily, so that when it was hardly ten years old it became sufficiently important to enter into an agreement—known since as the Lucknow Pact—with the powerful as the Lucinow Fact—with the powering indian National Congress. The League fell on evil days in the 'twenties, and differences set in among its members. When enhanced powers were conferred on India by the Montford Reforms, Muslims became more and more politically minded and began to aspire for a greater share in the control of the administration of the country and in Government posts. This feeling gave rise to the formation of a new body whose promoters concentrated on aggressive presentation of Muslim demands. With the prospect of still further constitutional reforms at the end of the first ten years of the working of the Montford Scheme, these leaders strove to organise Muslims into an influential body which would safeguard their interests more effectively than the League. The result was the Ali-Parties Muslim Conference in 1928. The publication of the Communal Award and its inclusion in the White Paper Scheme of Reforms in 1988 helped this process of consolidation. An attempt was made early in 1934 to consolidate the community by healing the split within the Muslim League and, if possible, bringing the League and the Conference together to work as a united body. The latter failed, but the former object was largely successful and the League marched from strength to strength until it emerged as a powerful organisastronger until to energed as a powerful organisa-tion of the Muslim community on the eve of the first elections to the provincial legislatures under the Government of India Act of 1935. For the first time in the political history of Muslims their representative institution functioned as a vigorous and active all-india organisation with results which flattered Mr. Jinnah and his co-workers. Doubtless Mr. Jinnah, who was the guiding spirit behind this new activity, was handicapped by flasiparous tendencies and reactionary forces in distant provinces beyond the arrhers of this direct influence. the sphere of his direct influence.

after the elections, Mr. Jinnah explained the position of the League members of provincial legislatures vis-a-vis other groups and said: "The constitution and policy of the League do not prevent us from co-operation with others. On the contrary, it is part and parcel of our basic principle that we are free and ready to co-operate with any group or party from the very inception, or inside the legislature, if the basic principles are determined by common consent."

These words engendered a hope that the League might be induced to co-operate with the Congress in its extremist programme and negotiations were started, but it soon became apparent that the two could not come together. The situation was rendered more difficult by the attitude of stiffness adopted by the Congress and its President, Pundit Jawaharlal Nehru. Mr. Jinnah refused to convert the League into an understudy of the Congress and firmly upheld the position of the Muslim community. The Congress, for its part, found as the result of the elections that it did not have the support of the Muslim community. Very few Congress Muslims were put up as candidates for the elections, and were put up as candidates for the elections, and even they failed. The Congress therefore set about roping in the Muslims by an appeal to their economic conscience, explaining that the Congress was out to alleviate the sufferings of the masses, Muslims as well as Hindus, and to uplift the nation as a whole. In this process the League and its leaders came in for a great deal of violent criticism at the hands of the Congress managers. On behalf of the League Mr. Jinnah retorted: "The Congress have not the monopoly, nor are they the sole custodians of Indian nationalism. As I have always maintained, the Muslim League is prepared to join hands with any progressive party in the fight for the country's freedom, but to achieve this the question of minorities must be settled satisfactorily. Here I am not talking of only Muslims but all minorities. Further, we are acusims out all minorities. Further, we are not prepared to merge ourselves into any organisation, however great it may be, and however advanced its programme and policy may be unless it is determined by common consent."

Paying little heed to these words of warning. the Congress leaders went their own way. Puffed with the success at the polls, they affected to ignore the claims of Muslim leaders. In what may be described as non-Muslim provinces—that is, those in which the Muslims are in a minority—the Congress formed Ministries without consulting and securing the co-operation of the Muslim League. No doubt attempts were made to arrive at an understanding with the Muslim League, but they failed mainly on account of the Congress demand that wherever such an understanding was reached the Muslim League should cease to be a separate parliamentary body and merge itself into the resultant Congress-League Party. The League, for its part, was willing to co-operate but not on the terms imposed by the Congress. In the result the negotiations failed, and the League remained in the Opposition. Although the bulk of the Muslim representatives returned to the provincial legislatures by the electorate were in opposition to the Congress the latter proceeded to constitute Governments with Muslim Ministers who did not represent Muslim opinion in the legislature. Nowhere in any of the co-called Congress provinces did the Muslim Ministers have the support of the majority or even a decent number of Muslim legislators. Thus these Muslim Ministers in the Congress provinces were the objects of repeated displays of Muslim hostility.

Having failed to reach an agreement with the League and its leaders, the Congress tried to crush the League and its leaders by making a direct approach to the Muslim masses through an economic and national programme. For a time this appeared to succeed, but eventually failed to achieve its object. The League leaders counteracted the Congress propagands by pointing out to the Muslim masses that their true interests lay in their organisation under the banner of the League which alone could serve The League's counter-drive them truly. The League's counter-drive succeeded in a large measure aided by allegations that in provinces where the Congress was running the Government the Muslim minorities were not treated well. The Congress, on the other hand, inspired movements to undermine the authority of the Ministers in Bengal, the Punjab, Assam and Sind, and in the last named it actually succeeded in overthrowing the Ministry. The widening gulf between the Congress and the League gave an additional stimulus to the consolidation of the Muslim forces under the League which found fruition at the Lucknow session of the League in the autumn of 1937.

The session was unique in several respects. For the first time in the history of the Muslim organisational movement, complete unity was achieved, and every section of Muslim opinion, including those which till then had been opposed to the League or outside it, rallied round the League. There was no discordant note and Muslim political unity was complete. The Muslim League emerged the only strong and influential political organisation of the Muslim community.

The session changed the creed of the League to "the establishment in India of full independence in the form of a federation of free democratic states in which the rights and interests of the Muslims and other minorities are adequately and effectively safeguarded in the constitution."

On the subject of federation, the League passed the following resolution: "The All-India Muslim League records its emphatic disapproval of the scheme of All-India federation as embodied in the Government of India Act of 1935, and is opposed to its introduction, and urges upon the British Government to refrain from its enforcement as it considers the scheme to be detrimental to the interests of the people of India generally and to those of Muslims in particular." (For details of the proceedings of this session, see Indian Year Book 1938-39)

The enthusiasm engendered by the success of the Lucknow seasion was kept up in succeeding months by an intensive organisation of branch Leagues in every province and district.

Such was the remarkable success achieved by the Muslim League in consolidating the strengt of the community under its banner that it very soon compelled attention at the hands of the Congress. Shortly after the Lucknow session of the League Mr. Gandhi and Pandit Jawaharial Nehru, the then President of the Congress, made overtures to Mr. Jinnah with a view to bringing about an understanding between the Congress and the League if not between the Hindu and Muslim communities generally. They entered into elaborate correspondence which was mostly acrimonious in tone. Curiously enough, the large number of letters exchanged between Pandit Nehru and Mr. Jinnah related to ascertaining the points in dispute. Each wished the other to clarify the position and to make demands or offers as the case may be. It was with considerable difficulty that the Congress leader managed to ascertain from Mr. Jinnah a list of the Muslim points. These, as understood by the Pandit, were: (1) The Fourteen Points formulated by the Muslim League in 1929 (See old issues of the *Indian Year Book*). (2) The Congress should withdraw all opposition to the Communal Award and should not describe it as a negation of nationalism. (3) The share of the Muslims in the State services should be definitely fixed in the constitution by statutory enactment. (4) Muslim personal law and culture should be guaranteed by statute. (5) The Congress should take in hand the agitation in connection with the Shahidgani Mosque and should use its moral pressure to enable the Muslims to gain possession of the mosque. (6) The Muslims' right to call azan and perform their religious ceremonies should not be fettered in any way. (?) Muslims should have freedom to perform cow slaughter. (8) Muslim majorities in the provinces, where such majorities exist at present, must not be affected by any territorial redistribution or adjustments. (9) The Vande Materam song should be given up. (10) Muslims want Urdu to be the national language of India and they desire to have statutory guarantees that the use of Urdu shall not be curtailed or damaged. (11) Muslim representation in the local bodies should be governed by the principles underlying the Communal Award, that is, separate electorat-es and population strength. (12) The tri-colour flag should be changed or, alternatively, the flag of the Muslim League should be given equal importance. (13) Recognition of the Muslim League as the one authoritative and representative organisation of Indian Muslims. (14) Coalition Ministries in the provinces. To these Pandit Nehru replied seriatim; but, while most of the points could be discussed at a personal conference, considerable difficulty was experi-enced with respect to the insistence that the League should be recognised as the exclusive spokesman of the Muslim community. Mr. Jinnah, for instance, made this clear in one of his letters to Mr. Gandhi. "We have reached a stage," he said, "when no doubt should be left that you recognise the All-India Muslim League as the one authoritative and representative organisation of the Muslims of India and, on the other hand, you represent the Congress and other Hindus throughout the country. It is only on that basis that we can proceed further and devise a machinery of approach." The Congress had two difficulties in agreeing to such

a position: firstly, to recognise the League as the only authoritative exponent of Muslim viewpoint would be to throw overboard the large number of Muslims who had become members of the Congress and a number of other Muslim organisations which were outside the League and which were friendly to the Congress; secondly, and this was more important for the Congress, it could not surrender its claim to be a national institution and accept by admission as well as implication that it represented only the Hindus.

There were conversations on the subject of Congress-League understanding between Mr. Gandhi and Mr. Jinnah and Mr. Bose and Mr. Jinnah. They broke down on the preliminary issue of the status of the parties. Thereupon the League leaders carried on a vigorous campaign against the Congress. A number of grievances were cited against some at least of the provincial Governments under the Congress. The League appointed a committee to tour round the provinces which submitted a long charge aheet, including ill-treatment of the minorities in those provinces. The Ministries concerned repudlated the charges, but the tension between the Congress and the League grew worse.

The League's resentment against the Congress increased with the failure of the leaders of the former organisation to form a League Ministry in Sind and with the fail of the Sa'adullah Cabinet in Assam, which was perhaps the only League Ministry throughout the country. Congress leaders' continued attacks on the two other predominantly Muslim Ministries in the Punjab and Bengal, especially the latter, provoked the League still further. Thus the extrangement between the Congress and the League and between Hindus and Muslims generally grew as days rolled by. There were communal clashes in several parts of the country.

Yet another complaint of the League leaders was the drive organised by the Congress in the Indian States. Indirectly, if not actively, the Congress leaders encouraged agitation by subjects of Indian States for responsible government. This was viewed with suspicion and fear by the League which saw in the movement an attempt to secure for the Congress a majority in the projected federal legislature. Moreover, the League resented the agitation carried on against the Nisam's Government, the premier Muslim State, although the Congress discountenanced the agitation.

During the past year the League held two or three rallies, at Karachi, at Patna and at Sholapur. At the first of these Mr. Jinnah, who presided, made a severe criticism of the attitude of the Congress towards the Muslims, especially the Muslims of Sind, to unite. United, he said, they could assert their rights; divided, they would continue to be maltreated. The Hon. Mr. Fatill Huq. Premier of Bengal, and the Hon. Sir Sikander Hyst Khan, Premier of the Panjab, spoke in the same strain. They hoped that Sind would soon have a Muslim League Ministry. The attempts of the League leaders

to convert the present Cabinet of Sind into a League Ministry met with failure. The session adopted a resolution recommending the League to review and revise the entire question of a suitable constitution for India, which would secure an honourable status to the Muslims. It also recorded its emphatic disapproval of the federal scheme and opposed its introduction. It was further declared that no constitution would be acceptable to the Muslims unless it conformed to their principles and was prepared in consultation with and adopted by the League. Another resolution criticised the policy of the Congress towards the Muslims. The resolution declared that the Working Committee of the Congress had recently refused to open negotia-tions on the basis that the League was the supreme and sole representative Muslim body for the purpose of a communal settlement, This again marred the prospect of an amicable settlement of the minorities problem for which the League had tried in vain. The Congress, stated the resolution, by means of a powerful press and purse, had launched upon a campaign Muslim mass contact to cause disruption in the Muslim community with the object of deceiving the world into the belief that it was the sole representative organisation in India. The Congress had persistently endeavoured to render the power of the Muslim majorities ineffective in the Frontier Province, Bengal, the Punjab and Sind by supporting Coalition Ministries not enjoying the confidence of the majority of Muslims. The High Command had superimposed its authority on the Congress Ministries to prevent the healthy growth of parliamentary conventions and the establishment of constitutional traditions, and had refused to reconstitute the Ministries having regard to Muslim interests. The Congress had decided to enforce the Vidya Mandir scheme, foist the Bande Mataram song on Muslims, make Hindi with the Devnagri script the lingua franca of India, introduce and enforce joint electorates in local bodies, close Urdu schools and discourage the teaching of Urdu.

In his presidential address to the annual session of the League held at Patna in the winter of 1938, Mr. Jinnah declared that the Congress had dashed every possible hope of arriving at a settlement of the Hindu-Muslim question on the rocks of Congress Fascism. In fact, it did not want a settlement with the Muslims on equal terms. Its claim that it alone represented the entire country was preposterous. The League and the Muslims did not want any gifts or concessions from the Congress. The Muslims wanted to advance as a nation. The Congress might go on saying that it was a national body, but it was not a fact. It was only a communal hindu body and the Congress knew it. That a few Muslims had been misguided into joining its ranks did not mean that the Congress represented the Muslims.

A Resolution authorising the Working Committee of the All-India Muslim League to launch direct action, with a view to safeguarding Maslim rights and interests, if and when necessary, in Bihar, the United Provinces and the Central Provinces, was passed unanimously at the open session. The resolution referred to "the atrocities that have been committed in

these provinces" and to "the systematic manner; conditions in order to make it acceptable and in which even the elementary rights of the Muslims have been trampled upon." The Governments of these provinces, it was stated, had failed to afford redress in spite of the consti-tutional methods adopted so far. Vehement speeches were made by supporters of the resolu-tion. The mover, Mr. Aziz Ahmad Khan, declared that Muslims would adopt all possible means sanctioned by their religion to defend their rights and interests and would not hesitate to make any sacrifice to achieve that end.

The League's apprehensions regarding the Congress drive in the Indian States was voiced in another resolution which ran: "While in another resolution which ran: expressing sympathy with the legitimate aspirations of the subjects of the Indian States for constitutional advancement and for obtaining constitutional advancement and or obtaining redress of their grievances, the Muslim League, although bound by its present programme and policy to maintain an attitude of non-interference in the affairs of the Indian States, unequivocally declares that if the Congress or other Hindu organisations do not desist forthwith from their present subversive activities in the States, actuated by ulterior motives, the League will be forced to take such action as will be necessary to safeguard the legitimate interests of the Muslims."

On the subject of federation, the Patna session passed a resolution which was somewhat in advance of the position taken up at Karachi.
It said: "The All-India Muslim League reiterates its views that the scheme of Federation, as embodied in the Government of India Act, 1935, is unacceptable, but, in view of further developments that have taken place or will take place from time to time, it hereby authorises the President of the All-India Muslim League to take such steps and adopt such course as may be necessary with a view to exploring the possibility of a suitable alternative which would completely safeguard the interests of the Muslims and other minorities of India."

The proceedings of the Sholapur session were on similar lines, except that special attention was paid to the agitation in Hyderabad. A resolution on the subject condemned the versive movement carried on by a section of rabid and selfish communalists against Hydera-bad State" and assured the Nizam of support against insensate attempts at coercion. It requested the Paramount Power to implement its obligations to Hyderabad State, and called upon the Bombay Government to stop the province being made the base for a subversive movement which threatened to develop into a serious crisis disastrous to the peace and progress of India.

On the subject of federation, Sir Sikander Hyat Khan, who presided over the conference, said that in the light of the experience of the preceding two years he was convinced that the scheme embodied in the Government of India Act had ceased to be suitable, having regard to the rapidly changing circumstances and requirements of the Indian people. Although he was equally convinced that some sort of federation was easential for the ordered progress of the rest of India would resolve itself into cultural country, he insisted on the following basic zones for Hindus.

workable :-

- (a) That it secures to India the unfettered right of rising to its full political stature ;
- (b) That the autonomy and the integrity of the units are effectively guaranteed and that neither the Centre nor any unit nor any outside subversive movement shall be allowed to interfere with the internal autonomy and the integrity of individual units;
- (c) That the financial provisions of the proposed federation shall leave free scope for the development of the units and of their resources unhampered from pressure or discrimination from the Centre :
- (d) That important minorities and interests in the country shall be effectively guaranteed the fullest possible protection and unhampered development of their political and cultural rights, and their due share in the governance and the administration of the country :
- (e) That the powers of the Centre shall be confined to a few essential subjects and functions and that the residue shall vest either in the individual units or groups of units as they may desire.

Illustrative of the attitude of the Muslims towards Indian reforms was a scheme drawn up at the instance of a sub-committee of the League which called upon the British Parliament to replace the Government of India Act of 1935 by another which should lead the country to resolve itself into an important confederacy of culturally homogeneous free states. The scheme, which is given in three parts, explains the ideology which the Moslems of India should place before themselves and an alternative scheme of Federation in the light of that ideology. The Constitution as provided in the Government of India Act is not acceptable to the Moslems of India, states the scheme, "as it is framed on the assumption that India is a composite nation which it is not and does not promise to be, so long as Hindus and Moslems, the two leading or major nationalities of India continue to remain divided into two different social orders drawing direct inspiration in every detail of life from two fundamentally different religions or cultures. The democratic majority government which it (the Constitution provided by the Act of 1985) has established in most provincial units, and aims to establish at the Centre will, in reality, be a government of a single majority nationality, namely, the Hadws, on whose sufferance the other nationalities will have to live.

For the establishment of a confederacy of culturaly homogeneous States for India, the culturary nongeneous states for the assignment of sones to such units, so that "self-secure in homelands of their own, the two might freely unite into a confederacy." An exchange of unite into a confederacy." An exchange of population is a feature of the zonal system. Referring to the division of India into zones, the scheme suggests that the following should constitute the four Moslem zones: The north-west and the north-east blocks, the Delhi-Lucknow block and the Deccan block. The

The North-West block: To consist of Sind, or cultural safeguards to preserve their individua Baluchistan, the Punjab, the North-West lity. It is realized that these changes can only Frontier Province and Kashmir, Khairpur and come into operation after the 1941 Census, and a Bahawalpur. Suggestions have been made for the Hindu and Sikh Indian States within the area to concentrate into the States, with the boundaries of the Kashmir State altered to give the States a free and homogeneous cultural existence. A suggestion for the re-settlement of terms with the Ruler of Kashmir, with an adequate compensation to the Maharaja, is also

The North-East block: To consist of Bengal and Assam; the Delhi-Lucknow zone is to be contiguous to the Punjab Moslem block but is to leave out the Hindu religious centres of Muttra, Benares, Hardwar and Allahabad. The Deccan block with Hyderabad, Berar and Madras City is aimed at consolidating into a compact area the Moslems living scattered below the Vindhyas and Satpuras.

Several safeguards are provided in the Constitution of the Confederacy. The smaller nationalities such as the Christians or Anglo-Indians, State, Moslem or Hindu, all necessary religious Moslem.

Royal Commission has sat and reported. transitional Constitution is therefore also neces sary, and for this the Federal legislative list should be reduced to a minimum number of items and be confined only to subjects which concern the common political and economic interests of India as a whole.

The inclusion of the Indian States in an all India Federation, according to the scheme, is to be made "dependent upon their returning to the Central Legislatures a sufficient quota of Moslems so as to maintain their present propor-tion in the Centre. Under the transitional constitution the Executive should not be a " par liamentary executive" but a "stable executive" independent of the legislature. The Prime Minister instead of being elected directly by the people, should remain in office during the life of the legislature and will not be removable by it. Of the provinces into which Hindustan is to be divided, according to the scheme, the Prime Parsis and Buddhists will be afforded by each Minister for the Lucknow Province should be a

Government of India Act, 1935.

were sown as far back as the autumn of 1930 when the Indian Round Table Conference met in London for the first time. Three sessions of the conference were held, and it concluded on December 24, 1932. Some months later the British Government published their proposals for the reform of the Indian constitution based on the largest measure of agreement reached at the three sessions of the Round Table Con-ference. These proposals were embodied in a White Paper (March 1983) which was referred to a Committee of the two Houses of Parliament, The Committee submitted its report in October 1934. Based on the recommendations of this Committee, the Government of India Bill was presented to Parliament in October, 1935. The Bill has since become law with a few changes in its passage through Parliament.

The Act proposes to set up a Federation with limited responsibility at the Centre, and provides for autonomy to the eleven provinces composing British India.

The Federation which the Acc provides from those in other parts of the world because from those in other parts of the world because the ladden The Federation which the Act provides differs rom those in other parts of the world because agoncy of c its units are not homogeneous. The fields in all other of States differ widely from the British fields. Provinces. These complications react upon the constitution. As Sir Samuel Hoare said is the House of Commons "they react, for instance, upon the provisions as to how the federation is the homogeneous that the business. to be formed, for it is obvious that the Princes, being voluntary agents, can only enter of their own volition. They react again upon the kind of executive and the kind of legislature that is proposed, each side of the federation obviously demanding adequate representation both in the government and in the federal legislature. They react again upon the relations legislature. They react again upon the relations

The seeds of the Government of India Act, between the two Federal Chambers, the Princes which was placed on the Statute Book in 1935, from the first attaching the greatest possible from the first attaching the greatest possible importance to the Chambers having equal powers. They react, further, upon the list of federal subjects, the Princes again rightly insisting that, apart from the functions of Government which they surrender to the Federation, there should be no interference in their internal sovereignty. These complications make a formidable list of difficulties.

> The Act sets up a Federal Executive similar to the responsible executives in other federations of the Empire. The whole executive power of the Federation is conferred on the Governor-General, and his Ministers are appointed to "aid and advise" him and hold office during his pleasure. The Ministry shall consist of persons in whom the Legislature has confidence and the Governor-General shall dismiss them when they lose that confidence,

> In contrast, however, with Dominion Constitutions, the Governor-General of India is given special powers by the Act. In the first place the Departments of Foreign Affairs, Ecclesias-tical Affairs and Defence are "reserved" and will be administered by him through the agency of counsellors: in the second place, in all other departments he may act in certain cases and for certain purposes otherwise than on his ministers' advice.

The Act imposes upon him special respon-

- (a) The prevention of any grave menace to the peace or tranquillity of India or any part thereof.
- (b) The safeguarding of the financial stability and credit of the Federal Government.
- The safeguarding of the legitimate interests of the minorities.

- (d) members of the public services of any rights provided or preserved for them by or under the Act and the safeguarding of their legitimate interests.
- (e) The prevention of discrimination.
- (f) The prevention of action which would subject goods of United Kingdom or Burmese origin imported into India to discriminatory or penal treatment.
- The protection of the rights of any Indian State and the rights and dignity of the rulers thereof.
- The securing that the due discharge of his functions with respect to matters with respect to which he is by, or under, the Act required to act in his discretion, or to exercise his individual judgment, is not prejudiced or impeded by any course of action taken with respect to any other matter.

The Federal Legislature will consist of two chambers: the Council of State and the Federal The Council of State will consist Assembly. of not more than 104 representatives of the federating Indian States and of 156 representatives of British India elected by the people, of whom six will be chosen by the Governor-General in his discretion. The Council of State is to be a permanent body with a provision that a third of its members should retire every third year. The representatives of British India are to be chosen on a communal basis, while those of the States will be appointed by the Rulers of the States concerned in accordance with the relative rank and importance of the State. (See table at the end of this chapter for the composition of the British Indian half of the Council of State.)

The Federal Assembly will consist of not more than 125 representatives of the federating Indian States and of 250 representatives of British India mostly elected by the Provincial Legislatures—by the lower House of the Provincial Legislatures wherever there are two Houses.

The Federal Assembly is to continue for five years from the date appointed for their first meeting after the expiration of which it will be dissolved. The distribution of seats here will in respect of the regulation, construction, also be on a communal basis. Thus, the Hindu, Muslim and Sikh seats will be filled by the representatives of those communities in the Provincial Assemblies voting separately for a prescribed number of communal seats. pressed Classes will have representation from among the Hindu seats. Besides these three main groups, Europeans, Anglo-Indians, Indian Christians, representatives of commerce and industry, landholders, representatives of labour and women will have seats. (See table at the end of this chapter for the composition of the British Indian half of the Federal Assembly.

show separately the sums required to meet and any of the Federated States. Provision is

The securing to, and to the dependents expenditure charged upon the revenues of the of persons who are or have been Federation; and the sums required to meet other expenditure proposed to be made from the revenues of the Federation. Items falling under the former category will not be submitted to the vote of the Legislature. With a view to the observance of the well-recognised principle of public finance that no proposal for the imposition of taxation or for the appropriation of public revenues should be made otherwise than on the responsibility of the Execute, it is provided in the Act that no demand for a grant is to be made unless recommended by the Governor-General.

The Federal Legislature alone may make laws upon any federal subject and the Provincial Legislature alone may make laws upon any subject treated as "concurrent"; but in case of conflict Federal legislation shall prevail unless the provincial law has been reserved for the consideration of the Governor-General and has received his assent.

The foregoing is a description of the framework of the India Federation. When half of the Indian States, on the basis of population and of representation in the Upper Federal Chamber, have acceded and after both Houses of Parliament have presented an address to His Majesty praying that the Federation may be brought into existence, a Royal Proclamation will give legal effect to the Federation of India.

The creation of a number of autonomous administrative units including two new ones. namely, Sind and Orissa, some of which have in recent years found it very difficult to make both ends meet, and the need for a strong Central Government presented some very difficult financial problems for the framers of the con-The allocation of sources of taxation and the settlement of heads of expenditure and debts, not only to enable the provinces progressively to develop but also to provide the Central Government with adequate funds to discharge its All-India responsibilities was the main problem. To secure a satisfactory solution of this problem the expert advice of Sir Otto Nicmeyer was sought. His recommendations are summarised elsewhere in this volume.

The Government of India Act also establishes a Statutory Railway authority which will take over the executive authority of the Federation maintenance and operation of railways coming under the jurisdiction of the Federal Government. The powers which the Governor-General possesses of taking action in virtue of special responsibilities and in respect of the reserved subjects extend to the giving of directions to the Railway authority.

Under the Act a Federal Court is to be established which will consist of a Chief Justice of India and such number of other Judges as His Malesty may deem necessary. The Federal His Majesty may deem necessary. The Federal Court will ordinarily sit in Delhi. It will have an original jurisdiction and an appellate jurisdiction, An "annual financial statement" setting in the latter in appeals from High Courts in out the estimated receipts and expenditure of British India and in Federated States. Its the Federation in respect of every financial year original jurisdiction will extend to any dispute will be laid before both Chambers of the Federal between any two or more of the following, Legislature. The estimates of expenditure will namely, the Federation, any of the Provinces

iso made for an appeal to the Judicial cases payment of land revenue is the main the Federal Court.

The Act abolishes the Council of the Secretary of State for India and makes him a Minister of the Crown individually responsible for the exercise of all authority vested in the Crown in relation to the affairs of India. He will, however, continue to be a member of the Cabinet and of Parliament, to which bodies he will be responsible for his actions.

Provincial Constitutions.

It may take two or three years before the federal part of the constitution is ready to func-tion. In the meantime Provincial Autonomy is in operation. Under the Act there are is in operation. Under the Act there are eleven Governors' provinces, namely, Madras, Bombay, Bengal, the United Provinces, the Punjab, Bihar, the Central Provinces and Berar, Assam, the N. W. F. Province, Orissa and Sind, with power to the Crown by Order-in-Council to create, if deemed necessary, a new Province, increase or diminish the area of any province or after the boundaries of any Province. The Provincial Executive is similar to that of the Federation in form.

In addition to the Governors' Provinces there an activiou of the tovernors' Provinces there are the following Chief Commissioners' provinces: British Baluchistan, Delhi, Ajmer-Meywars, Coorg, the Andaman and Nicobar Islands, the area known as Panth Piplida and such other Chief Commissioners' Provinces as may be created under the Act which will be administered by the Governor-General acting through a Chief Commissioner to be appointed by him.

The Provinces of Madras, Bombay, Bengal, the United Provinces, Bihar and Assam have two Chambers, Upper and Lower, namely, the Legislative Council and the Legislative Assembly, while the others have only one Chamber, the Legislative Assembly, Representation in the Legislative Assembly is by Assembly alectorates for each community has separate electorates for each community based on the provisions of the Communal Award as modified by the Poons Pact of September 25, 1932, under which a number of seats out of the seats classified as general seats are reserved to the Depressed Classes. The life of the Provincial Legislatures is the same as that of the Federal.

In provinces with bi-cameral legislatures the Upper House will see that the Lower House does not indulge in hasty and ill-conceived legislation due to the temporary majority of any party. But the deliberations of the Upper any party. But the deliberations of the Upper House will also be subject to examination by the Lower House.

While there are no nominated members and no officials in the Assembly—all members of the Lower House are elected—the Governor has the right to fill some seats in the has almost the same special responsibilities. Provincial Council wherever one exists, (See as the Governor-General except the one relating tables at the end of this Chapter for the to financial stability and credit. The Governor composition of the Provincial Councils and has, notwithstanding the advice of his Ministers, Provincial Assemblies.)

The constitution sets out the qualifications of electors. There are certain provisions of a general nature applicable to all Provinces while particular Provinces are dealt with separately, as in some cases the payment of local taxation, composition of the Federal and Provinces of local taxation, in other cases payment of local taxation, in other

ed the existing franchise so as to enfranchise about 10 per cent, of the total population of British India. The Acts of 1915 and 1919 provided for an electorate of approximately 3 per cent, of the total population, the franchise based mainly on a property qualification. Under the reformed constitution women have a much wider franchise, over 8,000,000 women voters as compared with 315,000 provided by the acts of 1915 and 1919. The Act of 1935 secures representation for women, for the Depressed Classes, for industrial labour and for special interests and for the bulk of the small landholders, small cultivators, urban ratepayers as well as a substantial section of the poorer classes.

Under the old constitution the Provinces had no original or independent powers. The local Governments were under the superintendence. direction and control of the Governor-Generalin-Council and the Secretary of State for India. The first step which the new constitution took was to create provinces with independence of their own and to assign to them a certain exclusive share of the activities of Government. All subjects have been transferred to the control of the legislature. The subjects which are classified as provincial are as indicated above, exclusively dealt with by the Provincial Government which have power to make laws for peace and good government. There "reserved" are no more "reserved" subjects. All subjects are "transferred." The administration of all these subjects have passed from the bureaucracy to the control of Ministers responsible to the legislature. Such subjects include public order, courts, police, prisons, education, health and sanitation, public works, agriculture, forests, land revenue, excise, tolls, unemploy-ment and certain classes of taxation.

Generally the Ministers are entrusted with the administration of their own departments. Under the old constitution they were merely advisers of the Governor. Under the new advisors of the Governor. Oncer the country constitution they are effective executives. Only in those spheres where the Governor retain a special responsibility does he have the right to act independently of the Ministers should be differ from their views. But normally such occasions are not frequent.

Both the Upper and Lower Houses have power to initiate legislation except that Money Bills can be initiated in the Lower House only. Should there be a difference of opinion between the two Houses with regard to a Bill the Governor has power to convene a joint session of the two Houses. Any Bill affirmed by the majority in the joint session shall be taken to have been duly passed.

Under the new Constitution the Governor has almost the same special responsibilities as the Governor-General except the one relating to financial stability and credit. The Governor power to take whatever action he thinks necessary for the due discharge of his responsibility for preserving the peace or tranquillity of the Provinces

The following tables give the strength and composition of the Federal and Provincial

In the Punjab one of the Landholders' seats is to be a seat to be filled by a Tumandar. In Assam and Orises the seats reserved for women are to be non-communal seats. Note: -In Bombay seven of the general seats are to be reserved for Marathas.

The Indian Legislature.

during the session was provided by the annual Railway and General Budgets. The Hon. Sir Thomas Stewart, presenting the Railway Budget in the Assembly, forecast for the year 1937-38 a surplus of about Rs. 24 crores, against a small surplus of Rs. 15 lakhs originally estimated, and for the year 1938-39 a surplus of about Rs. 2½ crores. The improvement in the figures for the previous year was due mainly to increase in traffic earnings, total traffic receipts of State lines being expected to reach Rs. 941 crores— about Rs. 21 crores more than last year and Rs. 31 crores more than the original estimate. Total working expenses were a little over Rs. 52 crores including Rs. 121 crores for depreciation, or Rs. 11 crores more than last year. A surplus of Rs. 21 crores was to be paid to Central revenues but this contribution would fall short of the full Defiance contribution by Rs. 1½ crores. The balance on punished the Depreciation Fund would stand at under extend to Rs. 19 crores. The gross total of the works programme for the year was Rs. 122 crores. to ventilate certain grievances of the public, The some of these cuts being carried. The Railway Budget was finally passed by the Legislature.

General Budget 1938-39.—On February 26 the Finance Member, Sir James Grigg, introduced the 1938-39 Budget in the Assembly. He explained that expenditure for the year about to close had been increased through the cost of military operations made necessary in Waziristan which totalled Rs. 167 lakhs. The result showed that the financial year would require Rs. 109 lakhs from Revenue Reserve Fund to balance the Budget. When it was introduced, the estimate was for a nominal surplus of Rs. 7 lakhs after utilising the whole of the Revenue Reserve Fund of Rs. 184 lakhs. The revenue for 1938-39 was expected to be Rs. 85,92 lakhs, with expenditure at Rs. 85,83 lakhs, leaving a surplus of Rs. 9 lakhs. No changes in taxation were proposed so that the 1938-39 Budget was generally regarded as a status quo Budget, although it had certain special features in respect of defence expenditure and the financing of provincial autonomy. The defence expenditure was increased, Rs. 38 lakhs being taken from ordinary revenue and Rs. 80 lakhs being expended from the free balance in the Defence Reserve Fund. These sums were necessary to finance improvements in India's coastal defences, the erection of a factory to make India self-sufficient in the matter of high explosives, and expenditure involved in a scheme of mechanisation of certain Indian units. In other respects the Finance Member's aim was to find the money required to pay for the inauguration of Provincial Autonomy and hand over to the provinces as large a share of revenue as possible, while at the same time safeguarding the Central finances.

The separation of Burma caused a net loss of Rs. 21 crores and payments to the provinces under the Niemeyer Award in that year amounted to Rs. 1.98 lakhs.

The annual Budget session of the Indian Legislature commenced with the opening of the Indian Legislative Assembly in New Delhi on January 31, 1938. The principal official business appropriation of grants were connected, lasted for several days as usual and during the prolonged general discussion on the Finance Bill it became clear that the Congress Party were determined not to accept the finance proposals. When it came to a division of the House, Government were defeated and after Budget was submitted to the Council of State with the Viceroy's certificate, it was passed by that body in its original form and in that form became law. An unofficial Bill passed at the same session was that sponsored by Mr. B. Das, its object being to amend the Child Marriage Restraint Act, popularly known as the Sarda Act. The new Act provided known as the Sarda Act. The new Act provided for the issue of a prohibitory order after due opportunity had been given to the persons complained against to explain their case. Defiance of the court's injunction was to be punished with imprisonment which might extend to three months. Courts were given the right to take cognisance of offences without the formal complaint from members of the public Both Houses discussed the Railway Budget at which was formerly necessary. The 1938 Budget some length and moved a number of token cuts session ended on April 12 after it had been announced that the life of the Central Assembly which was due to expire in the autumn of 1938 would be extended up to October 1939.

Motor Vehicles Bill.—The autumn session of the Central Legislature opened at Simla on August 8. The chief business before it was the Motor Vehicles Bill which had been sent to select committee and had come back with major modifications. Protracted debates upon this measure followed in both Houses and it underwent further material alterations in the clause by clause stage. There was a large measure of agreement between Government and the Congress Opposition as to the merits of the Bill and the need for its enactment. As it finally emerged it might be said to form a magna carta of transport in India, being designed to put an end to the road-rail rivairy which has in recent years grown intense. The Bill provided for the pre-vention of uneconomic competition between railways and motor services, as also among motor vehicles operating on certain routes; the prohibition of long-distance road traffic, and the fixing of maximum and minimum fares. Wide powers were conferred upon provincial and regional Transport Control Boards, but it was hoped that these powers hoped that these powers would be interpreted in a liberal fashion so that they would neither prevent healthy expansion of road services nor perpetuate non-paying railway monopolies. Another important provision was that for the introduction of compulsory third party insurance for all motor vehicles within four years. All parties having successfully co-operated in the modification of the Motor Vehicles Bill, it was passed amid acclaim. The Council of State fater assented to the Bill.

In addition, the Simla session of 1938 passed several other measures including a Bill to amend the Prevention of Cruelty to Animals Act popularly known as the Phooka Bill; another to amend the Workmen's Compensation Act in order to prevent invidious evasions; a Bill to

amend the Emigration Act; and a Bill to amend the Indian Aircraft Act so as to afford protection against epidemics. More controversial was a Bill introduced by Government to penalise activities detrimental to secure maintenance of the defence forces. This measure was bitterly opposed by the Congress group and the Muslim League group ultimately threw its weight in favour of enabling any province, if it so wished, to implement the measure with the knowledge and consent of its responsible legislature. This was because the proposed powers were acquired by the Punjab Government to cope with certain aspects of extremist politics in that province. Finally, on a non-official resolution protesting against the financial burden arbitrarily laid upon India by the enhanced emoluments of the British officer and soldier serving in this country, Government failed to secure a single non-official vote, the European group not excepted, and the resolution was passed by a large majority. The Simla session of the Assembly came to an end on September 20 and the Council of State a few days later.

Income-Tax Bill .- The winter session of the Legislature began at Delhi on November 10. 1938. It was in the nature of an ad hoc session, being specially called for detailed consideration of the Finance Member's Bill to amend the Income-Tax Law. The Bill had previously been referred to a select committee which had made far-reaching changes in its provisions. When it came to the clause by clause consideration of the measure, a stiff fight ensued for its further modification. Details of the provisions of the Bill as it emerged from the Assembly may be found in the relevant chapter of this Year Book on "Income-Tax". Suffice it here to say that in the Assembly Sir James Grigg made a firm stand for the accrual principle in respect of foreign income. At one stage he declared that if the Bili was going to be emasculated in this respect, he would prefer to withdraw it altogether, thus depriving the country of the admittedly beneficial effects of other clauses, including the relief it brings to five-sixths of the total number of taxpayers. Finally, the Finance Member made a dramatic offer to abandon the proviso exempting what are described as "non-domiciled from taxation on the same basis The result of this offer was that a residents compromise was reached between Government and the Opposition and the Bill was passed by the Assembly and later by the Council of State. The Assembly adjourned on December 12 after passing a minor Bill, the Wheat Import Tariff Bill, and the Council of State adjourned shortly after.

Budget 1939-40.--In Railway 1939 Budget session of the Legislature opened on February 3 and a few days later the Communications Member, the Hon. Sir Thomas Stewart, presented the Railway Budget. He forecast for the current year a surplus of Rs. 205 lakhs as against the original surplus of Rs. 250 lakhs and anticipated for 1939-40 a surplus of Rs. 218 lakhs. Actually the total traffic receipts of State lines were expected to reach some Rs. 40 lakhs more than the original estimate for the current year, but for a variety of reasons which the Communications Member explained, working expenses showed an increase. For the coming

lakhs higher, bringing the estimated total receipt to Rs. 94-75 lakhs. A works programme of Rs. 11,00 lakhs was provided in the Budget including such projects as the purchase of the South Bihar Railway and the provision of new lines for Sind, to assist the growth of the Lloyd Barrage lands. Sir Thomas Stewart further claimed that the railways were rapidly imple-menting those recommendations of the Wedgwood Committee designed to increase efficiency and improve public service. He referred to the regrettable occurrence of two major disasters in the last year but appealed to critics not to forget the past record of safety on Indian railways which, during the quinquennium ending March 21, 1938-a period which included one of the most disastrous accidents in Indian railway history—had established a record of 17,000,000 passengers carried safely for every one person killed in an accident.

General Budget 1938-40.—On February 28 the Finance Member, Sir James Grigg, presented his fifth and last India Budget, that for 1939-40. He said that the position as at March 31, 1989, disclosed a net deficit of Rs. 265 lakhs. would be met out of the sum of Rs. 300 lakhs provided in the 1938-39 Budget for reduction or avoidance of debt which meant that there would be virtually no debt repayment from revenue during the year about to close, though fortunately there would be no addition to indebtedness. The basic reason for the deficit was the trade recession during the past year which had resulted in a drop in receipts from customs duties of Rs. 367 lakhs. Turning to the financial year 1939-40, total revenue estimates amounted to Rs. 82,15 lakhs as compared to Rs. 83,00 lakhs in revised esti-mates for the past year. On the expenditure side the total figure was Rs. 82,65 lakhs or Rs. 300 lakhs less than the revised estimates for the previous year. This was largely explained by decreases in Interest Charges and Defence, coupled with the continuance of certain economy measures. The prospective deficit of Rs. 50 lakhs, the Finance Member proposed to meet by an increase of 100 per cent, in the tariff duty on imported raw cotton, the duty being raised to one anna per lb. This increased duty was estimated to yield Rs. 55 lakhs, thus leaving a nominal surplus of Rs. 5 lakhs. Other changes embodied in the Budget were the new rates of income-tax and super-tax drawn up on the "slab" system and the decrease in the excise duty on *khandsari* sugar from Re, 1 to 8as, per cwt. During the general discussion on the Budget and on the demands for appropriation grants, Government's policy on defence and other matters was attacked by both Opposition parties and the Assembly declined to give its assent to the proposed doubling of the import duty on raw cotton. The Budget therefore had to be certified by the Viceroy and after it had passed the Council of State, it became law.

Tariff Bill .- Two other measures likewise had to be certified by the Viceroy during the same session. One was the Naval Reserve Discipline Bill and the other was the Tariff Bill embodying the new Indo-British Trade Agreement to replace the previous agreement, notice of termination of which had been given by India two years previously. During the debates on the Tariff Bill, a peculiar position arose in that year traffic receipts were estimated to be Rs. 10 although individual members of the Muslim

the leader of the group, Mr. Jinnah, declared His Excellency the Viceroy had no option but to that his party was not concerned with the issue careful the Bill which was later passed by the and would remain neutral. The effect of this negative attitude was when the issue came to a lative Assembly adjourned on April 12 1000 division, Government wars unable to a lative Assembly adjourned on April 12 1000 division, Government wars unable to a lative Assembly adjourned on April 12 1000 division, Government wars unable to a lative Assembly adjourned on April 12 1000 division. negative attitude was when the issue came to a lative Assembly adjoirned on April 16, division, Government were unable to secure a after having passed several minor Bills de majority and the Bill was rejected. It was to amend the Penal and Criminal Progenerally felt that had it not been for the unfortunate atmosphere of hostility created by the recent imposition of the doubled import duty on Whether its life would be extended again raw cotton, it might have been possible for the October 1, 1939 had not been made clear.

after having passed several minor Bills designed to amend the Penal and Criminal Procedure Codes, to reconstitute the Soft Coke Cess Committee, and to amend the Chittagong Port Act. Whether its life would be extended again after

The Indian Tariff Board.

The Indian Tariff Board continued in suspense (of April 1937 the statutory inquiry into the throughout 1936, owing to the absence of inquiries to be made by it. By the time these lines appear in print it will be reconstituted, in order to undertake the first of a series of new inquiries which are statutorily required before the expiration of the different periods for which protection has been given to various industries. Under the direction of the Government of India the following Board will take up at the beginning

extent of protection required by the Indian Sugar Industry during the period from 31st March 1938 to 31st March 1946:—

President .- Sir Geoffrey Bracken, R.C.I.E.,

C.S.I., I.C.S.

Members.—Mr. Fazal Ibrahim Rahimtoola and Dr. L. C. Jain, M.A., LL.B., Ph.D. D.Sc., Econ. (Lond.).

Sccretary .- Mr. K. B. Bhatia, I.C.B.

Origin of of Indians overseas in early times except in Sumatra, Java and Ceylon. Emigration for purposes of labour dates from the beginning of the 19th century. From 1800 A. D. onwards Indians crossed the Bay to the Straits Settlements to work on the sugar, spice, taploca, and cocoanut plantations of Penang, and this intercourse was allowed to continue for long without regulation. The first officially re-corded instance of genuine recruitment for labour emigration occurred in 1830, when a French merchant, named Joseph Argand, carried some 150 artizans to Bourbon. The abolition of slavery in British colonies in 1834 gave the first great impetus to the movement. The sugar planters of Mauritius at once turned to India as their best recruiting ground, and between 1834 and 1837 obtained at least 7,000 recruits from Calcutta. The Government of India at a very early stage realized the necessity of bringing such emigration under regula-The Law Commission was asked investigate the case and to make recommendstions for securing the well-being of emigrants. They advised that no legislation was required except in order to prevent undue advantage being taken of the simplicity and ignorance of emigrants by providing that a magistrate should satisfy himself that all contracts were entered into freely and understood by them and in order to secure that sufficient provision was made for their accommodation and sustenance during the voyage. A copy of every engagement was also to be transmitted to the Government of India in 1867, emigration to Government under which the enigrants were to that colony came under all the restrictions live. These recommendations were embodied in the first Emigration Act (V of 1837), which permitted from the port of Negapatam. Owing

Indian Emigration .- Emi- (89 men, the first and last direct emigrants Origin of Indian Emigration.—During the first and may emerge emigration gration is prohibited by the Hindu Shastias, to Australia). In 1838 emigration was susand there is little evidence of any settlement pended owing to agitution in England regarding of Indians overseas in early times except in the abuses to which the system was liable, and a committee of enquiry reported in 1840 that emigrants were being entrapped by force or fraud, robbed of their wages and treated with brutality. In consequence, emigration was prohibited (Act XV of 1842) except to Mauritius and there control was tightened. In Act XXI of 1844 emigration under still stricter regulation was allowed to Jamaica, British Guiana and Trinidad. Act XIII of 1847 removed the restrictions on emigration to Ceylon. The emancipation of slaves in the French colonies in 1894 gave rise to a system of emigration from French Indian ports to Reunion and Bourbon which was largely based on crimping in British territory. This practice was checked by Act XXIV of 1852. In 1858 emigration was opened to St. Lucia, and in 1860 to St. Vincent, Natal and St. Kitts. In the latter year a more elaborate Act, based on a convention with the French Government was passed legalising and regulating emigration to Reunion Martinique, Guadeloupe, and French Guiana. Act XIII of 1864 marks an important stage in the history of emigration, since it elaborated and consolidated the whole system of control. It was itself amended in 1869 and 1870 in important respects with the object of preventing epidemics on emigrant vessels and improving sanitary conditions in settlements. In 1869 emigration was permitted to Grenada, and in 1872 to Surinam. Owing to the removal of the Straits Settlements from the control of the in the first simigration Act (v of 1837), which permitted from the port of Negapatam. Owing also provided that contracts should be deter-to the injury caused to the agricultural indusminable atter 5 years. — Under the above removed in 1872, subject only to magisterial act emigration during 1837 was permitted control of recruitment in India. In 1870 to Mauritius, British Guiana and Australia complaints reached the Government of India. of gross abuses in the treatment of emi- India visited Fiji and British Guiana in 1921 grants in British Guiana. A commission In spite of all precautions certain social and of enquiry was appointed, and their report moral evils had grown up in connection with the led to important legislation in the colony for the protection of Indian immigrants, which was subsequently extended to Trinidad. Owing to similar complaints from Natal and points requiring amendment.

Recent Legislation .- In 1871 a fresh consolidating Act was passed (Act VII of 1871) by which the Acts regulating emigration to the French Colonies and two amending Acts to Act XIII of 1864 were incorporated in the general law. The question of revision of the law again came up for consideration in 1882. when several cases of kidnapping and other objectionable practices were reported to the Government of India. The opportunity was taken to depute two officials (Major Piccher and Mr. Grierson) to ascertain, in the N. W. P. and in Dengal respectively the way in which the system of recruitment actually worked, the respects in which it was open to improvement, and the attitude of the people towards emigration. Their reports were reviewed by the Government of India, and finally in 1883 the law was again recast and consolidated by Act XXI of that year. This Act specifies the countries to which emigration is lawful, but empowers the Governor-General in Council to add to the list by notification, and also to prohibit emigration to any of the countries in the list on the ground of epidemic disease and/or excessive mortality among emigrants in such country, or on the ground that proper measures have not been taken for the protection of emigrants, or that the agreements made with them in India are not duly enforced. This Act with certain amendments of no importance to the system of indentured emigration remained in force until 1908, when a fresh revision of the law was undertaken.

Under the Act of 1908 (XVII of 1908) the countries to which emigration was lawful were the British Colonies of Mauritius, Jamaica. British Guiana, Trinidad, St. Lucia, Grenada, St. Vincent, Natal, St. Kitts, Nevis, Fiji, the Seychelles, the Netherlands Colony of Dutch Guiana and the Danish Colony of St. Croix. Emigration to St. Lucis, Grenads, St. Vincent, St. Ritts, Nevis, the Seychelles and St. Oroix ceased soon after the passing of the Act, the demand for fresh labour having died out. Emigration to Natal was discontinued from the lst July 1911 as the Government of India were satisfied that it was undesirable to continue to send Indian labour to that country. Emi-gration to the French Colonies of Reunion, Martinique and Guadeloupe had been suspended prier to the passing of the Act of 1908 on account of repeated complaints of the inadequate precautions taken for the proper treatment and repatriation of the immigrants.

The labour laws of the several Colonies

indentured system of emigration and Indian public opinion has during the last decade been strongly opposed to it. The whole system was exhaustively examined by the Government Mauritius, commissions of enquiry were also of India in 1915 in the light of the report re-instituted in both these colonies, and their ceived from Messrs. McNeill and Chimanial, reports in 1872 brought to light a number of and they arrived at the conclusion that the time has come when contract labour should be abolished. The Secretary of State for India accepted this policy and authorised the Government of India to announce the abolition of the indentured system and the announcement to this effect was made in 1916,

In 1922 a further step forward was taken in Act VII of 1922 which prohibited indentured emigration and all unskilled emigration, scept to countries specially approved by the Legislature. Emigration to Ceylon and Malaya was "Emigrant" was extended to cover all persons "assisted" to depart from India.

It was found that the lack of power to regulate the total flow of emigration for unskilled work, whether assisted or voluntary and whether under contract or not, may operate to the detriment of Indian communities overseas, particularly in times of economic depression. The Indian Emigration Act was suitably amended in 1938 and the Government of India took power, to prohibit, when necessary, even unassisted emigration for the purpose of unskilled work.

emigration Present Position .- Indian questions have recently taken on a wider aspect. The status of Indians in the Empire generally is one in which the Indian public now take keen interest. It is no longer possible to deal with the treatment of Indian labour apart from other classes of Indian emigrants and travellers. In several colonies and dominions considerable Indian communities have sprung up, which although composed largely of the descendants of indentured labourers, are themselves free and lawfully domiciled citizens of the countries in which they are settled, but have not yet been placed on a footing of legal, social, political and conomic equality with the rest of the population. The issues round which public interest at present centres are

(a) Control of emigration.

(b) Rights of Indians to admission to other parts of the Empire.

(c) Rights and disabilities Indians domidied overseas.

These questions considered may be separately.

Control of Emigration.-Bo unskilled labour is concerned, the Government of India have assumed absolute powers of control. The terms of section 10 of the Emigration Act of 1922 are as follows:--

"10. (1) Emigration, for the purpose of unskilled work, shall not be lawful except to provide for the protection and weifare of unkilled work, shall not be lawful except to resident Indian labourers. The Government such countries and on such terms and conditions as their officers to report on the concilination in the Genetic of Indian labourers. Deputations from in this behalf.

"(2) No Notification shall be made under sub-section (1) unless it has been iaid in drait before both Chambers of the Indian Legislature and has been approved by a resolution of each Chamber, either without modification or addition, or with modifications and additions to which both Chambers agree, but, upon such approval being given, the notification may be issued in the form in which it has been so approved."

Under this law emigration has been legalised to Ceylon on the following conditions:

- (1) The emigrant shall-
 - (a) have been recruited by a person licensed for that purpose by and reaponsible to an officer (hereinafter called the Emigration Commissioner) appointed by the Government of Ceylon, or
 - (b) have applied direct to the Emigration Commissioner for an assisted passage and have been accepted by him.
- (2) The emigrant shall not, before leaving British India, have entered into a contract of service for a period exceeding one month.
- (3) Within six months from the issue of this Notification, or within such further period as the Governor-General in Council may by notification appoint, the Legislature of Ceylon shall have enacted that any contract of service for a period exceeding one month entered into by an emigrant shall be void.
- (4) No part of the cost of his recruitment, subsistence during transport, or transport shall be recoverable from any emigrant and all expenses in this connection shall be defrayed from a common fund to be raised in such manner and managed by such agency as may appear suitable to the Colonial Government.
- (5) The Government of Ceyton shall at any time when so desired by the Governor-General in Council admit and give all facilities to an Agent appointed under section 7 of the Act.
- (6) Within one year of his arrival in Ceylon any emigrant who has been assisted to emigrate at the cost of the common fund referred to in clause (4) shall, on satisfying the Agont appointed under section 7 of the Act that his return to his home is desirable either on the ground of the state of his health or on the ground of the state of his health or on the ground of the state of his health or on the ground that the work which he is required to do is unsuitable to his capacity, or that he has been unjustly treated by his employer, or for any other sufficient reason, be repatriated free of cost to the place of recruitment, and the cost of such repatriation shall be defrayed by the Government of Ceylon or the Ceylon Planters' Association.
- (7) If at any time there is no Agent appointed under section 7 of the Act, the Government of Coylon shall appoint a person to perform the duties of the Agent as set forth in clause (6).
- (8) Within six months from the issue of this Notification, or within such further period as the Governor-General in Council may by notification appoint, the Legislature of Ceylon shall have enacted that no payment made in India by a recreiter to an emigrant to enable him to pay off debts before emigrating shall be recoverable.

(9) The Government of Ceylon shall furnish such periodical reports and returns as may be required from time to time by the Government of India in respect of the welfare of persons emigrating to Ceylon in accordance with this Notification.

Similar conditions have been imposed in the case of Malaya. Emigration was also permitted to Maurisius for a period of 1 year ealy with effect from May let, 1923, and limited to a number not exceeding 1,500 labourers. The terms were more onerous than in the case of nearer Colonies and the arrangement has now lanced.

Emigration to British Guiana for the purpose of unskilled work has also been declared lawful on the terms and conditions given below, but the date from which emigration is to commence has not yet been fixed:—

Emigration to British Guiana.—Emigration to British Guiana for the purpose of unskilled work shall be lawful with effect from such date as the Governor-General in Council may with the concurrence of the Governor of British Guiana notify in the Gasette of India on the following terms and conditions, which shall thereupon become operative:—

- (1) The family shall be the unit for the purposes of emigration. Not more than 500 families shall be permitted to emigrate and the number of persons included in the said 500 families shall not exceed 1.500.
- (2) The emigrants shall either have been recruited by a person licensed for that purpose by and responsible to an officer (hereinatter called the Emigration Commissioner) appointed by the Government of British Guians, or have applied direct to the Emigration Commissioner for an assisted passage and have been accepted by him.
- (3) No part of the cost of his recruitment of subalistence during transport shall be recoverable from any emigrant and all expenses in this connection shall be borne by the Government of British Gulans or met from funds at their disposal.
- (4) The Government of British Guiana shall at any time when so desired by the Governor-General in Council, admit and give all facilities to an Agent appointed under section 7 of the Act.
- (5) If at any time there is no Agent appointed under section 7 of the Act, or if the Agent is absent or unable to perform his duties, the Government of British Guiana shall at the request of the Governor-General in Control appoint a person to perform temposary the duties of the Agent.
- (6) Prior to the arrival of the emigrants a Settlement Commission shall be appointed in British Guiana to select and pressus suitable agricultural land for the emigrants and generally to supervise their employment. The Agent referred to in clause (4) shall, on appointment, be a member of such Commission.
- (7) The Government of British Quiana shall offer to each family for its separate enjoyment a holding comprising not less than five acres of auticable agricultural land prepared for cultivation on the terms beceinafter set out in a locality

which shall be healthy and shall have an adequate supply of good drinking water. All expenses in connection with the preparation of the holdings shall be borne by the Government of British Guiana and shall in no case be recoverable from an emigrant.

The annual rent of the holding shall be fixed by the Settlement Commission at a rate not exceeding the lowest rate paid in the locality.

After an emigrant has been in occupation of a holding for three years, he shall, provided that he has cultivated a portion of the holding either by himself or through some member of his family, be entitled to a grant of the holding on payment at any time during the ensuing four years of such fees not exceeding 24 dollars as may be fixed by the Settlement Commission.

On the expiry of seven years from the date of the commencement of his occupation of a holding an emigrant shall acquire absolute ownership in the holding provided that he has paid the rent and fees referred to in the foregoing paragraphs of this clause and has brought under cultivation either by himself or by some member of his family half the area of his holding.

- (8) An emigrant on arrival in British Guiana shall be housed and maintained without charge by the Government of British Guiana for at least one month.
- (9) If any emigrant so requires loans shall be made to him for maintenance, house accommodation, payment of rent and for agricultural purposes generally. Free medical assistance and free skilled supervision shall be provided.
- Any emigrant shall be entitled to repatriation at the expense of the Government of British Guiana to the place of his former residence in India on the expiry of 7 years from the date of his arrival in British Guiana.

Any emigrant shall be entitled to repatriation at the expense of the Government of British Guiana to the place of his former residence in India on the expiry of more than 3 and not more than 5 years from the date of his arrival in British Guiana on payment to the Government of British Guiana of half of the cost of his passage from his residence in India to British

Any emigrant shall be entitled to repatriation India on the expiry of more than 5 and not more than 7 years from the date of his arrival in British Guiana on payment to the Government of British Guiana of quarter of the cost of his passage from his residence in India to British Guiana

- (11) Notwithstanding anything contained in the last preceding clause the Government of British Guians on the request of an Agent patriate at its own expense and without any pay-ment by or on behalf of the emigrant to the place of his former residence in India any emigrant at any time after his arrival in British Guiana.
- (12) An emigrant shall be at liberty at any time after his arrival in British Guiana to take

- (13) The ordinance enjoining compulsory education in British Guiana shall be enforced to the same extent in the case of Indian children as in the case of children belonging to other communities.
- (14) Boards of arbitration in regard to wages shall be established before the arrival of the emigrants and Indians shall be adequately represented on such boards.
- (15) Any Indian who has emigrated to British Gulana before the date of this notification and under any agreement in force at the date of this notification is entitled to an assisted return passage to India shall not be required to pay more than 25 per cent. of the excess in the cost of his return passage and clothing over the cost of such passage and clothing at the time of his first arrival in the colony.
- (16) Any Indian who has emigrated to British Guiana before the date of this notification and has at the date of this notification become or thereafter becomes destitute shall be entitled to be repatriated to India at the expense of the Government of British Guiana without being further required to prove that he has become incapable of labour.
- (17) The Government of British Guiana shall furnish such periodical reports and returns as may be required from time to time by the Government of India in respect of the welfare of the persons emigrating to the Colony in accordance with this notification.

Admission of Indians to Other Parts of the Empire.—On the motion of the Government of India this question was discussed at the Imperial War Conferences, 1917 and 1918, and the policy accepted by the self-governing dominions and the British Government was embodied in the following resolutions:-

- "(1) It is an inherent function of the Governments of the several communities of the British Commonwealth including India, that each should enjoy complete control of the composition of its own population by means of restriction on immigration from any of the other communities.
- "(2) British citizens domiciled in any British country, including India, should be admitted into any other British country for visits, for the purpose of pleasure or commerce, at the expense of the Government of British including temporary residence for the purpose Guiana to the place of his former residence in of education; such right shall not extend to a visit or temporary residence for labour purposes or to permanent settlement.
- "(3) Indians already permanently domiciled in the other British countries should be allowed to bring in their wives and minor children on condition: (a) That not more than one wife and her children shall be admitted for each such indian; and (b) that each individual so appointed under section ? of the Act shall re- admitted shall be certified by the Government of India as being the lawful wife or child of such Indian."
- The first paragraph of this resolution has regularized the various restrictions on immigration which the self-governing dominions have, up work or employment other than or in addi-out expressly differentiating against Indians tion to the cultivation of a holding on lease from the Settlement Commission.

to be not racial or political but economic.
Australia prohibits the entry of any person who falls to pass a dictation test of not less than 50 words in any prescribed language. New Zealand prohibits the entry of any person who has not received in advance a permit from the Dominion Government which is refused to any person regarded as unsuitable to settle in the country. South Africa prohibits the entry of any person deemed by the Minister of the Interior on economic grounds or on account of his standard or habits of life to be unsuited to the requirements of the Union. Canada prohibited the landing of any person who had come to the Dominion otherwise than by continuous journey from the country of which he was a native and unless he possessed in his own right 250 dollars. Since 1930, Canada has restricted the immigration of Indians to the wife or unmarried child under 18 years of age, of any Canadian citizen legally admitted to and resident in Canada, who is in a position to receive and care for his dependents. Newfoundland and the Irish Free State impose All the self-governing Domino restrictions. nions have adopted special exemptions in favour of students, tourists and merchants visiting the countries for the temporary purposes of com-merce, pleasure, or education. India on its side has assumed power to regulate the admission of immigrants from any other part of the Empire or foreign countries, by means of passports. A bill has also been passed by the indian Legislature empowering the Government of India to make rules "for the purpose of securing that persons not being of Indian origin, domiciled in any British possession, shall have no greater rights and privileges as regards entry into and residence in British India, than are accorded by the law and administration of such possession to persons of Indian domicile." With regard to the Crown colonies and protectorates, the attitude of the Indian Government is that there is no justification for placing any restrictions on the immigra-tion of British Indians, which are not placed on other classes of British subjects, and this principle has in practice been observed by the Colonial Office except in the case of Kenya colony where, as stated hereafter, the British Government has reserved to itself the right to impose restrictions on the immigration of classes of people whose entry into the colony may have an adverse effect on the economic evolution of the indigenous population.

Rights and Disabilities of Indians Lawfully Domiciled Overseas.—The policy of the Empire is summed up in the resolution of the Imperial Conference, 1921, which was recorded in the following terms:—

"This Conference reaffirms that each Community of the British Commonwealth should enjoy complete control over the composition of its own population by restricting immigration from any of the other communities, but recognises that there is incongruity between the position of India, as an equal member of the Empire, and the existence of disabilities upon British Indians lawfully domiculed in some parts of the Empire, and this Conference.

the solidarity of the Commonwealth it is desirable that the rights of such Indiana to citizenship should be recognised."

"The representatives of South Africa regret their inability to accept this resolution in view of the exceptional circumstances of the greater part of the Union. The representatives of India while appreciating it acceptance of this resolution, nevertheless feel bound to record their profound concern at the position of Indiana in South Africa and hope that by negotiations between India and South Africa a way can be found as soon as may be to reach a more satisfactory position.

Summary of precent Position.—Outside Australia, New Zealand and Canada the position stands as follows:—

- (1) South Africa:—The main grisvances of Indians, which led to a passive resistance movement headed by Mr. Gandhi, were settled by the compromise embodied in the Indians Relief Act, 1914 and by the gurannee known as the Smuts-Gandhi agreement. The substance of this agreement is embodied in the following extracts from letters:
- (i) Mr. Gorges, Secretary for the Interior, to Mr. Gandhi, June 30th, 1914: "With regard to the administration of existing laws, the Minister desires me to say that it always has been, and will continue to be, the desire of the Government to see that they are administered in a just manner and with due regard to vested rights."
 - (ii) Mr. Gandhi to Mr. Gorges, July 7th, 1914:
- "By vested rights I understand the right of an indian and his successors to live and trade in the township in which he was living and trading, no matter how often he shifts his residence or business from place to place in the same township."
- This has been officially interpreted to mean "that the vested rights of those Indians who were then living and trading in townships, whether in contravention of the law or not should be respected,"

In 1920 an Asiatic Enquiry Commission was appointed to investigate the grievances of Indians regarding their rights to trade and hold land in the Union. Their main recommendations were as follows:—

- (1) Law 3 of 1885 (Transvaal), the Gold Law of the Transvaal (Act No. 35 of 1908) and Act No. 37 of 1919 should not be repealed.
- (2) There should be no compulsory repatriction of Asiatics; but
- (3) Voluntary repatriation should be encouraged.
- (4) There should be no compulsory segregation of Asiatics; but
- (5) A system of voluntary separation should be introduced under which municipalities should have right, subject to certain conditions:—
 - (a) to lay out residential areas for Asiatics:
- tas Empire, and the existence of instantical suppose Eritish Indians lawfully domiciled in some parts of the Empire, and this Conference, of the town for Asiatic traders to which exists therefore, is of opinion that in the interests of ing license holders should gradually be attracted.

- (6) These areas should be selected and allocated by a board of independent persons in consultation with the Municipal Council and Asiatic community.
- (7) In Natal the right of Asiatics to acquire and own land for farming or agricultural pur-poses, outside townships, should be confined to the coast belt, say, 20 to 30 miles inland.
- (8) A uniform "License Law" applicable to all the Provinces of the Union should be possible, be enacted. If that is impracticable, the law relating to the issue of Trade Licenses in the Cape Province, the Transvasi and Natal should be assimilated in a comprehensive consolidating Act of Parliament providing, inter alia :--
- (a) That the granting of all licenses to trade (not being liquor licenses) shall be entrusted to municipal bodies within the area of their jurisdiction; outside those areas to divisional Councils in the Cape Province, and in the other Provinces to special Licensing Officers appointed by the Administrator.
- (b) The grounds upon which an application for the grant of a new license may be refused.
- (c) That the reasons for the refusal to grant any license shail be recorded, together with any evidence tendered for or against the applica-
- (d) That, in the case of the refusal of a Roense on the ground that the applicant is not a fit and proper person to hold the same or to carry on the proposed business, there shall be a final appeal to a Special Appeal Board, appointed by the Administrator.
- (e) That municipal bodies shall have the right to prohibit the license holder, or any other person, from residing in any shop, store or other place of business.
- (9) There should be no relaxation in the enforcement of the Immigration Laws, and more active steps should be taken to deal with prohibited immigrants who have evaded the provisions of those laws.
- (10) The administration of the Asiatic policy of the Government should be placed in the hands of one official, under whose charge would some all administrative functions, together with the official records relating to Aniation. This officer abould also be entrusted with the duty of securing full statistics regarding Asiatics in the Union and of the arrivals in Assatics in the Union and of the arrival in and departures from South Africa. Details of all applications for trade licenses, and transactions in connection with the purchase of land and property made by Asiatics throughout the Union, should be sent to him in order to ensure the enforcement of the provisions of Section 8 of Act 22 of 1918.

On the other hand, he should keep in close touch with the various sections of the Indian community, see that the laws are applied in a just manner, give a ready ear to any complaints or grievances and generally safeguard their interests.

From the above it will be observed that the

dations, threatened the right which Indians had previously enjoyed of acquiring and owning land in the Uplands of Natal. Against this latter proposal the Government of India carnestly protested, but the protest was not accepted by the Union Government.

As has been stated above, the representatives of the Union of South Africa dissented from the resolution of the Imperial Conference of 1921 which recommended the recognition of the right of Indians to citizenship in the self-governing Dominions. The negotiations conducted betwen the two governments produced little result and the anti-Asiatic feeling prevailing was re-flected in the legislation passed during the follow-ing years. Between 1922 and 1925 the Durban Land Alienation Ordinance, the Borough and Township Land Ordinance, the Natal Boroughs Ordinance (No. 19 of 1924) and the Natal Townships Ordinance of 1925 were all passed and were detrimental to Indian interests. In 1925, the Areas Reservation, Immigration and Registration (Further Provision) Bill was introduced in the Union Parliament, the object of the Bill being to stiffen the immigration law in its application to Asiatics and to introduce segregation in Natal. The Billroused consternation in South Africa and widespread resentment in India, After prolonged negotiations between the two Governments, the Union Government agreed to a conference between the representatives of the two Governments and to the postponement of the consideration of the Areas Reservation Bill until consideration of the Areas Reservation Bill unit after the conference. The Conference met in Cape Town and arrived at an understanding, commonly known as the Cape Town Agreement of 1927. The terms of this agreement, which were ratified by both Governments in Echnical 1927 are recorded by both decembers in February, 1927, are reproduced below.

Cape Town Agreement 1927.

1. It was announced in April 1926 that the Government of India and the Government of the Union of South Africa had agreed to hold a Round Table Conference to explore all possible methods of settling the Indian question in the Union in a manner which would safeguard the maintenance of western standards of life in South Africa by just and legitimate means. The Conference as-sembled at Cape Town on December 17th and its session finished on January 12th. There was, in these meetings, a full and frank exchange of views which has resulted in a truer appreciation of mutual difficulties and a united understanding to co-operate in the solution of a common problem in a spirit of friendliness and good-will.

Both Governments re-affirm their recognition of the right of South Africa to use all just and legitimate means for the maintenance of western standards of life.

- The Union Government recognises that Indians domiciled in the Union who are prepared to conform to western standards of life, should be enabled to do so.
- 3. For those Indians in the Union who may desire to avail themselves of it, the Union Government will organise a scheme of assisted emigration to India or other countries where western standards are not required. Union domicile will be lost after 3 years' continuous Commission recommended the retention of a law western standards are not required. Union prohibiting the ownership of land by Asiatics domicile will be lost after 3 years' continuous in the Transvani, and another of its recommen-

proposed revision of the law relating to domicile which will be of general application. Emigrants under the assisted emigration scheme who desire to return to the Union within the 3 years will only be allowed to do so on refund to the Union Government of the cost of the assistance received by them,

- 4. The Government of India recognise their obligation to look after such emigrants on their arrival in India.
- 5. The admission into the Union of the wives and minor children of Indians permanently domiciled in the Union will be regulated by paragraph 3 of Resolution XXI of the Imperial Conference of 1918
- 6. In the expectation that the difficulties with which the Union has been confronted will be materially lessened by the agreement now happily reached between the two Governments, and in order that the agreement may come into operation under the most favourable auspices and have a fair trial, the Government of the Union of South Africa have decided not to proceed further with the Areas Reservation and Immigration and Registration (Further Provision) Isill.
- 7. The two Governments have agreed to watch the working of the agreement now reached and to exchange views from time to time as to any changes that experience may suggest.
- 8. The Government of the Union of South Africa have requested the Government of India to appoint an agent in order to secure continuous and effective co-operation between the two Governments.

In February, 1930, a Select Committee of the Union House of Assembly was appointed to inquire into and report on certain matters relating to the rights of Indians to own and occupy immovable property in the Transvasi and incident-ally to trade. The Committee was required, inter alia, to investigate how far the intentions of the legislature, as embodied in the Act of 1919, were being given effect to and whether, and, if so, to what extent, an amendment of the Act was desirable. The Committee came to the conclusion that the position which had arisen as a result of illegal occupation in the mining areas was serious and that there was no doubt that Law 3 of 1885, as amended by the Act of 1919, intended that Asiatics should not own fixed property in the Transvaal outside reserved areas either individually or collectively and either directly or indirectly. It submitted its report on the 13th May, 1930, and embodied its recommendations in a Bill, which it urged should be enacted immediately. The Bill was read for the first time on the 14th May, 1930, but in degrence to the representations made by the Government of India that adequate time should be allowed for careful examination of the far-reaching provisions of the measure, the Union Government decided to defer further consideration of it until the Parliamentary session of 1981. As a result of opposition to the Bill, it was later postponed further, and a Con-ference was held in 1932 to examine the provisions of the Bill and to review the working of the Cape Town Agreement of 1927 in accordance with para. 7 of that Agreement.

- The results of the Conference are contained in the following extracts from a statement made in the Indian Legislature on the 5th April, 1932:—
- 1. In accordance with paragraph 7 of the Cape Town Agreement of 1927 delegates of the Government of the Union of South Africa and on the Government of India met at Cape Town from January 12th to February 4th, 1932 to conside the working of the Agreement and to exchangiviews as to any modifications that experience might suggest. The delegates had a full and frank discussion in the Conference, which was throughout marked by a spirit of cordiality and mutual good-will.
- 2. Both Governments consider that the Cape Town Agreement has been a powerful influence ir fostering friendly relations between them and that they should continue to co-operate in the common object of harmonising their respective interests in regard to Indians resident in the Union.
- 3. It was recognised that the possibilities of the Union's scheme of assisted emigration to India are now practically exhausted owing to the economic and climatic conditions of India as well as to the fact that 80 per cent, of the Indian population of the Union are now South-Africanborn. As a consequence the possibilities of land. settlement outside India, as already contemplated in paragraph 3 of the Agreement, have been further considered. The Government of India will co-operate with the Government of the Union in exploring the possibilities of a colonisation scheme for settling Indians, both from India and from South Africa, in other countries. In this investigation, which should take place during the course of the present year a representative of the Indian community in South Africa will, if they so desire, be associated. As soon as the investigation has been completed the two Governments will consider the results of the inquiry.
- No other modification of the Agreement is for the present considered necessary.
- 5. I shall now endeavour to deal with the Transvaal Asiatic Tenure (Amendment) Bill. The Conference decided that it should be considered by a sub-committee consisting of two representatives of each Delegation. After discussion in the sub-committee Dr. Malan, who was one of Union representatives, agreed to place informally before members of the Select Committee, which had prepared Bill, suggestions of the delegates from India. Results of this consultation may be summarised as follows:—
 - (1) Clause 5 of the Bill which embodied the principle of segregation by providing for the ear-marking of areas for the occupation or ownership of land by Asiatics has been deleted. Instead, the Gold Law is to be amended to empower the Minister of the Interior after consultation with the Minister of Mines to withdraw any land from the operation of sections 130 and 131 in so far as they prohibit residence upon or occupation of any land by coloured persons. This power will be exercised after inquiry high old vidual cases by an impartial commission presided over by a judge to validate present illegal occupations and to permit exceptions to be made in future from

occupational restrictions of Gold Law. is hoped that liberal use will be made of this new provision of the law so as to prevent the substantial dislocation of Indian business which strict application of the existing restrictions would involve, and to provide Indians in future with reasonable facilities to trade in the mining areas without segregation.

- (2) The Bill has also been amended so as to protect fixed property acquired by Asiatic companies up to 1st March 1930, which are not protected by section 2 of Act 37 of 1919. This will have the effect of saving many Indian properties which, though not acquired in contravention of the letter of the Act of 1919, were acquired contrary to its spirit.
- (3) Local bodies whom, clause 10 of the Bill required to refuse certificates of fitness to an Asiatic to trade on the ground that the applicant may not lawfully carry on business on the premises for which the licence is sought, shall have to treat a certificate issued by a competent Government officer to the effect that any land has been withdrawn from the restrictive provisions of sections 130 and 181 of the Gold Law as sufficient proof that a coloured person may lawfully trade on such land.
 As it is proposed to maintain hereafter a
 register of all lands in proclaimed areas
 where Asiatic occupation is permitted, such a provision should prove a valuable safeguard to the Indian community.
- 8. As against these important concessions, it has to be recognised that the recommendations of the Indian Delegation that areas like Springs and de-proclaimed land, to which the restrictions of clauses 130 and 131 do not at present apply should not be made subject to them, and that leases for ten years or more should not be treated as fixed property have not been accepted. the balance, however, the amendments which, subject to ratification by the Union Parliament, have been made in the Bill represent a substantial advance on the original Bill,

The Transvaal Asiatic Land Tenure Bill, as amended in the manner mentioned in paragraphs 6 and 7 of the statement above, was passed into law in 1932 and a Commission, presided over by the Honourable Mr. Justice Feetham, was ap-pointed in October, 1932, to enquire into the occupation by coloured persons of proclaimed land in the Transvaal. The Transvaal Asiatic Land Tenure (Amendment) Act of 1936, which was passed after consideration of the recommendstions of the Feetham Commission, completed the legislation necessary to give effect to the policy of the original Act of 1932.

The Government of the Union of South Africa also appointed a Committee to undertake the in-

mendation of the Committee was that further investigation in regard to the successful operation of a colouisation scheme could advantageously be made by a joint commission in British North Borneo, British New Guinea and British Guiana. The idea of colonising Indians from the Union. however, does not appear to have been proceeded

Since 1932, there have also been several enactments which are capable of being used against Indians in the Union, e.g., the Transvaai Licences (Control) Ordinance of 1932 and the Natal Rural Dealers' Licensing Law Amendment Ordinance of 1935. A further development occurred in 1937 when three private Bills affecting the position of Indians in the Union were introduced in the Union Parliament. The first sought to prohibit marriages between Europeans and Asiatics or natives. It was introduced on the 12th January but attempts to have it referred to a Select Committee failed. The second Bill sought to empower Provincial Courcils to prohibit the em-ployment of Europeans by non-Europeans in the Union, and the third to prohibit the acquisition of fixed property in the Transwal by any Euro-pean, Coloured or Cape Malay women married to Asiatics and by children of such marriages. Both the Government of India and their Agent General in the Union made representations against these two Bills. Second reading, which would have involved acceptance of the principle of the two measures, was not proceeded with and they were referred to a Select Committee of the Union House of Assembly for investigation of their contents and form. Both the Indian community and the Agent General gave evidence before the Select Committee. The Committee came to no conclusion on the proposal to restrict ownership of land through marriage, but after consideration of the other Bill, submitted an amended Bill entitled the White Women's Employment Restriction Bill. The amended Bill sought to prohibit the employment of European women by Asiatics except under a certificate of the Minister of Labour and to forbid the issue of such a certificate if the women concerned were to be under the direction or supervision of a non-European or to be housed or employed on premises containing dwelling or sleeping quarters of Asiatics or at places where they might come into contact with Asiatics other than as customers over the counter. Cape Malays and Japanese (while the trade convention with Japan lasted) were to be exempted from the restriction. The new measure was purely anti-Indian and the Government of India protested strongly against In the course of oral evidence before the Select Committee, a representative of the South African Indian Congress stated that he believed Indians would be willing to terminate employment of European women voluntarily where circumstances showed that particular exception might be, or had been, justifiably taken to such employment. The Union Government accepted this statement as an assurance of co-operation by the Indian community in objectionable cases and an announcement was made on the 14th April in the Union House of Assembly that no further and appointed a Committee to undertake the minimum vestigation of the possibilities of colonisation to the contemplated in the 1932 Agreement referred to above. The report of this Committee was published simultaneously in India and in South Africa on the 2nd July, 1934. The main recom - Government, however, reserved the right to

undertake legislation later should circumstances demand it. The dropping of these two Bills did not, however, satisfy certain sections and an announcement was made in the Union Parliament on the 17th May, 1937, that two Commissions, one to enquire into mixed marriages and the other into the question of Asiatic land tenure in areas not covered by the enquiry of the Feetham Commission, would be appointed. These Commissions were appointed in February, 1938. The local Indian community and the Agent General in the Union gave both written and oral evidence before the Commissions. The Mixed Marriages Commission has not as far reported and its findings are not likely to be of much practical importance to the local Indians, as such information as is available goes to show that mixed marriages are very rare among Indians in South Africa. The Land Commission reported to-wards the end of March, 1939 and its recommendations were generally considered to be satisfactory from the Indian point of view. No action has so far been taken by the Government of the Union of South Africa on the report.

Indians in the Union were, however, perturbed by the revival of anti-Asiatic agitation in the Transvaal. Early in 1939, proposals for the segregation of Indians were under consideration of the Minister of the Union Government concerned.

Present position: Indians enjoy both the political and municipal franchise only in the Cape Province. In the remaining provinces they are not enfranchised. They are subjected to differential treatment in the matter of trading licences, especially in the Transvaal. Their immigration into the Union is barred and severe restrictions exist on inter-provincial migration. In the Transvaal they are not allowed to acquire immovable property outside locations and the recent Asiatic Land Tenure legislation has closed certain loop-holes which existed in the Gold Law of 1908.

- (2) Kenya Colony.—The grievances of Indians domiciled in this Colony are fully set forth in the published despatch of the Government of India, dated October 21st, 1920. The controversy centred round the following points:
 - (a) FEANCHISE.—Indians have not the elective franchise. The Government of India proposed that there should be a common electoral roll and a common franchise on a reasonable proporty basis plus an educational test without racial discrimination for all British subjects.
 - (b) SEGREGATION.—Professor Simpson who santary matters, recommended segregation on sanitary grounds. The Government of India objected, firstly, that it was impracticable; secondly, that it was commercially inconvenient; and thirdly, that Indians are in practice unfairly treated in the allocation of sites.
 - (c) THE HIGHLANDS,—Lord Elgin decides in 1908 that as a matter of administrative convenience grants of land in the upland area should not be made to Indians. The whole area has now been given out, and the Government of India claim that there is no land left to which Lord Eigin's decision applies. This decision

has now, however, been extended so as to prohibit the transfer of land in the uplands to non-Europeans.

- (d) Immigration.—Suggestions have been put forward for restricting Asiatic immigration into Kenya. The Government of India claim that there is no case for restricting India immigration and that such restrictions would be in principle indefensible.
- The Settlement.—The decisions of the British Government were contained in a Whit Paper presented to Parliament in July 1923 It was held that the guiding principle should be that "the interests of the African native must be paramount," and in light of this i was decided:—
- (a) Franchise,—A communal franchise wandopted with 11 seats for elected Europeans, elected Indians, one nominated Arab, on missionary representing the Africans, an a nominated official majority. One India is also appointed on the Governor's Executiv Council.
- (b) SEGREGATION,—The policy of segregation as between Europeans and Asiatics is abardoned.
- (c) THE HIGHLANDS.—The existing practic is maintained both as regards initial grant and transfers. A similar reservation is the lowlands is offered to Indians.
- (d) IMMIGRATION,—Racial discrimination is inamigration regulations is rejected. But it the economic interests of the Africans, furthe control over immigration is necessary. Some arrangement is required for securing a strict impartial examination of applications for entribute Kenya. The Governors of Kenya and Uganda have been instructed to submit join proposals for legislation.
- The Government of India reviewed their decisions in a resolution published on Augustish, 1923, and recorded "their deep regretant His Majesty's Government did not fee justified in giving greater effect to the recommendations made by them "and reserved liberty to reopen the case on a suitable opportunity They stated their intention of making representations regarding the action to be taken to implement these decisions, particularly in the matter of the Immigration regulations.

Following upon the Kenya award statutory action was taken by the local administration on the franchise question. Adult suffrage on communal lines was conferred upon Indians. According to the communal lines was conferred upon Indians. According to the bill giving effect to the decision of His blajesty's Government until such time as the Committee proposed by their representatives at the Impetial conference in 1923 had an opportunity of examining the question of the restrictions therein embodied. Accordingly the introduction of the bill was postponed at the instance of the Colonial Secretary. The Government of the Service of the According the section of the setting of the section of the administration of insingration measures. The Government of India received an assurance from the Colonial Secretary that ample opportunities

would be afforded for the expression of their views; and that earnest attention would be given to any representation which their Committee desired to make. As has already been stated such a Committee was appointed in March 1924. The following statement made by the Secretary of State for the Colonies in the House of Commons on 7th August 1924 shows the result of the representation made by the Colonies Committee:—

- "(1) IMEIGRATION.—My position is that if danger ever arises of such an influx of immigrants, of whatever class, race, nationality or character, as may likely be projudical to the conomic interest of the natives, I hold myself entirely free to take any action which may be necessary. Conflicting statistics which have been laid before me have not enabled me to reach a definite conclusion as regards the extent of net Indian Immigration. Accordingly stops will be taken to create a statistical department to obtain accurate information with regard to persons of all races arriving in or departing from Kenya. Meanwhile the Kenya Immigration Ordinance will not be enacted.
- (2) Franchies.—I have given careful consideration to representations in favour of a common poil, but I am not prepared to resist the conclusion already arrived at that in the special circumstances of Konya, with four diverse communities, each of which will ultimately require electoral representation, the communal system is the best way to secure the fair representation of each and all of these communities.
- (3) HighLands.—I consider that the Secretary of State for the Colonies has no alternative but to continue pledges, expressed or implied, which had been given in the past, and I can hold out no hope of the policy in regard to agricultural land in the Highlands being reconsidered.
- (4) LOWLANDS.—It was proposed to reserve an area in the lowlands for agricultural immigrants from India. The Committee made it plain that it is averse from any reservation of land for any immigrant race, subject to the suggestion that before applications for land in lowland areas are invited an opportunity should be taken of sending an officer experienced in Indian settlement and agricultural methods to report on the areas. At present any consideration of the matter is in suspense pending receipt from the colony of reports from the native and agricultural points of view on the areas in question."

The work of the Colonies Committee did much to abate the bitterness which existed in the relations between the different classes of settlers in Kenya, and the situation was further improved by the decision of the Indian community to relinquish their attitude of non-co-operation and to select five members for nomination by the Governor to the Legislative Council.

In June 1924, His Majesty's Government announced the appointment of an East African the outcome of his consultations. At the invita-formatities, under the Chairmanship of Lord Southborough, to consider and report on certain questions regarding the administration and v. S. Srinivasa Sastri, P.C., to Basta their views dependencies. Since this enquiry was likely to

affect Indian interests, the Government of India urged that the Indian point of view should be heard before the Committee came to any conclusions. This request was granted, but further action in the matter was suspended, pending the publication of the report of the Commission presided over by Major Ormsby Gore, which visited East Africa to enquire into certain aspects of the questions referred to the Southborough Committee. The report of the Ormsby Gore Commission was published in the United Kingdom on May 7th, 1925. On June 9th, Major Ormsby Gore announced in the House of Commons that, in view of the completeness of the report presented by the Commission which, under his chairmanship, had visited East Africa, His Majesty's Government had decided that the Southborough Committee should not resume its sittings.

In November 1926, information reached the Government of India, that the Government of Kenya contemplated undertaking legislation at an early date in order to make the European and Indian communities responsible for the net cost of their education. It was originally intended to give effect to this decision by levying from Europeans a tax on domestic servants in their employ and from Indians a poll-tax. The Indian community resented this differentiation and, uitimately, the Colonial Government decided that both communities should pay the same form of tax, viz., an adult poll tax. For Europeans this has been fixed at 80 shillings and for Indians at 20 shillings. An Ordinance giving effect to this decision was passed by the Kenya Legislative Council and came into force from 1st January 1927.

Closer Union.—In view of the issue of another White Paper in July 1927, in which it was announced that His Majesty's Government had authorised the Secretary of State for the Colonies to send to Africa a special Commission to investigate the possibility of securing more effective co-operation between the Governments of Eastern and Central African Dependencies and make recommendations on this and cognate matters, the question regarding the position of Indians in Kenya again came to the forefront.

In March 1929, the Secretary of State for the Colonies sent out Sir Samuel Wilson, Undersecretary of State for the Colonies, to East Africa to discuss the recommendations of the Hilton Young Commission for the closer union of Kenya, Tanganyika and Uganda (and such possible modification of these propossis for effecting the object in view as may appear desirable) with the Governments concerned and also with any bodies or individuals representing the various interests and communities affected, with a view to seeing how far it may be possible to find a basis of general agreement. Sir Samuel was also directed to ascertain on what lines a scheme for closer union would be administratively workable and otherwise acceptable and to report the outcome of his consultations. At the invitation of the Secretary of State for the Colonies, the Government of India deputed the Et. Hon. V. S. Srinivasa Sastir, P.O., to East Africa to help the local Indian communities to state their view of the Sch Sch were Willessen and the secretary of the Sch Sch was well will be a second to the Sch Sch Sch was Williams and the second will be seen as the second will be se

be at Sir Samuel Wilson's disposal, if he wished to make use of him in dealing with the Indian deputations.

Mr. Sastri left India in April and returned in June 1929. In the Report presented by him on his return he recommended that the Government of India should-

- (a) press for inquiries as to the basis of a civilisation franchise which shall be common to all races alike;
- (b) invoke the good offices of the Colonial Office and of the Government of Kenya in securing the consent of the Euro-pean Community to the establishment of a common roll;
- (c) oppose the grant of responsible government to Kenya or of any institutions leading up to it :
- (d) oppose the establishment of a Central Council on the lines proposed by Sir Samuel Wilson:
- (e) demand, in case of the establishment of some such body that the unofficial representatives from each province should include an adequate number of Indians :
- (f) advocate the continuance of the official majority in the Legislative Council of Kenva:
- (9) demand that the representation of natives in the Kenya Legislative Council should be by natives or by Europeans and Indians in equal proportions.

Thereafter meetings of the Standing Emigration Committee were held and the decision arrived at by the Government of India was communicated to His Majesty's Government.

The report of Sir Samuel Wilson was published on the 5th October 1929. Another meeting of the Standing Emigration Committee was held soon thereafter to consider the report and a further communication was addressed to His Majesty's Government on the subject.

The conclusions of His Majesty's Government as regards closer union in East Africa were published in June, 1930, in the form of a White Paper and it was announced that they would be submitted to a Joint Committee of the two Houses of Parliament. In accordance with this decision a Select Committee was set up in November, 1930. The Government of India communicated their views in a despatch to the Secretary of State for India on the scheme set out in the White Paper in so far as it affected the Indian population in East Africa.
With the permission of the Joint Select
Committee of Parliament they also deputed the
Right Honourable V. S. Srinivasa Sastri, P.C., C.H., as their representative to present their case and elucidate in the course of oral examination such questions as the Committee might consider necessary to refer to him. The Select Committee examined Mr. Sastri in July, 1981.

The report of the Committee was published simultaneously in England, East Africa and India on the 2nd November, 1931, and the decisions of His Majesty's Government on the following:

the Hilton Young Commission's Report and to recommendations of the Committee together with certain correspondence arising from the report of the Committee were also similarly published on the 24th August, 1932.

> As regards the question of Closer Union, His Majesty's Government have accepted the view of the Joint Committee that apart from considerations arising out of the Mandatory position of the Tanganyika Territory, the time has not arrived for taking any far-resching step in the direction of the formal Union of the several East African Dependencies.

There was no important development in regard to this question until 1935 when certain sections in Kenya attempted to revive the proposal for Closer Union. Early that year an unofficial conference of Europeans, held at Arusha, was reported to have expressed the view that since 1931 circumstances had changed so that since 1931 circumstances had changed so rapidly as to justify a reversal of the Joint Committee's decision and that immediate steps should be taken towards the Closer Union of East Africa. A "Memorandum on Union" was also forwarded to the Secretary of State for the Colonies by the European Elected Members' Organisation of the Kenya Legislative Council. His Majesty's Government did not, however, consider that there were adequate grounds for reopening an enquiry into the matters which had reopening an enquiry into the matters which had been so carefully investigated by the Joint Select Committee as recently as 1931. This decision is contained in Mr. Malcolm MacDonald's despatch, dated the 12th October, 1935, to His Excellency the Governor of Kenya which has been published in all the countries concerned.

Franchise. -- As regards franchise. His Majesty's Government stated in the White Paper of 1930 that "His Majesty's Government are of the opinion that the establishment of a common roll is the object to be aimed at and attained, with an equal franchise of a civilization or education character open to all races." In 1931 the question of franchise was also referred to the Joint Select Committee of Parliament which was appointed to consider the question of Closer Union. After discussing the arguments that had been brought forward for and against a common electoral roll, the Select Committee stated in para. 100 of their report that it would be impracticable under present conditions to advocate the adoption of the system of common roll representation in preference to the existing system of election." The Secretary of State for the Colonies accepted the recommendations of the Joint Select Committee in the matter.

Highlands.—The Joint Select Committee of Parliament, which was appointed to consider the question of Closer Union in East Africa had recommended that "in view of the nervousness among the native population nervousness among the native population as regards the land question, a full and authoritative inquiry should be undertaken immediately into the needs of the native population present and prospective, with respect to land within or without the reserve held either on tribal or on individual tenure." In April, 1982, a Commission was accordingly appointed by His Majesty's Government and the terms of reference of the Commission included the following.

*To define the area known as the Highlands within which persons of European descent are to have a privileged position in accordance with the White Paper of 1923.

The Commission in their report, which was published in May 1934, recommended that the boundaries of the European Highlands should be safeguarded by Order-in-Council so that the European community might have the same measure of security in regard to land as the Commission had recommended for the natives. His Majesty's Government announced that they accepted this recommendation of the Land Commission. The Indian community was perturbed by this announcement as the proposed Order-in-Council would give statutory effect to restrictions which were originally considered necessary on grounds of administrative convenience and representations were made to His Majesty's Government both by the Government of India and the local Indian community. No Order-in-Council had been promulgated till the end of 1937, but the position as it affects Indians appears clear from the following extracts from the speech of the Secretary of State for the Colonics made on the 9th July, 1936:—

'(a) What is contemplated, arising out of the recommendations of the (Morris-Carter) Commission, is the issue of two Orders-in-Council. There are, of course, many other things arising out of those recommendations, but the points which have been raised are chiefly concerned with these Orders-in-Council. One of them is to define the boundaries of those parts of the Highlands which are to be set aside for nonnative occupation, and (b) I want to make it clear that there is to be nothing in either Order imposing any legal disability against Indians or against any persons on the ground of race, colour, creed or anything else. Equally I want to make it clear that the existing administrative prac-tice, which was first laid down by Lord Elgin is to be continued. I wish that to be understood clearly both in India and cleawhere. The of 1939, the Kenya Indians were interested in existing administrative practice of the Kenya Government which has been followed since administration that practice will continue in the future as in the past. There will be no legal colour bar.

In spite of protests from the Government of India and the local Indian community, the Order-in-Council contemplated in the above announcement issued in February, Though the Order does not contain a definition of the 'privileged position' which persons of European descent are to have within the territorial limits to be included in the Highlands, His Majesty's Government have made it clear that there is no intention of changing the administrative practice which has been followed for many years with regard to alienation and transfer of land in the Highlands. This decision has caused profound disappointment to all in India, in particular because of the preference which it accords even to non-British subjects of European race.

Lowlands.—Subsequent to the announcement made in the House of Commons in 1924, in connection with the 'Lowlands,' the question of deputing an officer to examine these areas was considered by the Government of India who thought it inadvisable to proceed any further with the idea.

Apart from the major problems outlined above. other questions have also been causing concern to the Indian community in the colony. The most important of these are (i) the Ordinance to control and regulate the marketing of native Produce and (ii)the Transport Control Ordinance. The former Bill sought to regulate the selling and buying of native produce by such methods as limiting the number of licences and confining sales to specified localities so as to ensure control over quality. As a number of Indian traders were affected, representations were made to His Majesty's Government by the Government of India and the Bill was revised in certain respects and became law in 1935. It was brought into force from the 1st January, 1936.

The Kenya Transport Control Bill which was passed last year was intended to give effect to the recommendations of the Kenya Transport Coordination Committee which was appointed in 1935 to investigate and consider the desirability of co-ordinating and regulating all forms of transport in the colony. The Indian transport in the colony. The Indian members of the Kenya Legislative Council objected to the principle of the Bill as in the attempt to prevent wasteful competition between the railways and other forms of transport in Kenya, they felt that the considerable interests of Indians in the transport industry would be affected adversely. The other main objections were directed against the composition of the Transport Licensing Board and the provision relating to the grant of exclusive licences. The Bill has now become law and an Indian has been appointed to the Transport Licensing Board.

(1) the Immigration of Jewish refugees, (2) the Kenya Immigration Restriction Ordinance and 1908 will continue. In the area demarcated as (3) the representation of the Indian community the European area not by law, not by any-on the Kenya Inimigration Board. All these thing in the Order-in-Council, but as a matter of three questions were connected with one another three questions were connected with one another in some form. His Majesty's Government had under consideration a scheme for the settlement of a small number of Jews in the Kenya Highlands. The main objection of the Indian community was that it would accord to foreign subjects within a British Colony privileges which are denied to British Indian subjects. As His Majesty's Government were committed to a policy of settling Jewish refugees from Central Europe, it was not possible to meet the objections of the Indian community in the matter. To prevent an influx of destitute and undesirable foreigners into the Colony as a result of the international situation in Europe, an Immigration Advisory Board was established in October, 1938. The Board was to advise the Commissioner of Police on such matters as may be has caused profound disappointment to all referred to it in connection with immigration sections of Indian opinion both in Kenya and into Kenya but it was not intended that it should consider or advise upon any aspect of Indian immigration. Nevertheless it was felt that the Indian community which is vitally

interested in the composition of the population and the economic development of the Colony should be represented on the Board. Representations were made to His Majesty's Government in the matter and the result of the representations is awaited. The objections to the Kenya Immigration Restriction Bill centred round two provisions of the Bill:—(i) the provision authorising the Immigration Officer to require any intending immigrant, who is without any visible means of support or is likely to become a pauper, to give security by bond to an amount not exceeding £500; and (ii) the provision altering the period of 12 months, within which an intending immigrant has to prove that he is not a prohibited immigrant, to any period the Immigration Officer may fix in his discretion. Though these clauses were intended to apply only to immigrants from Europe, the Indian community thought that they might at any time be applied to Indians also. These objections are receiving the attention of the Government of the Colony and His Majesty's Government.

Tanganyika.—In the adjoining mandated territory of Tanganyika, the Indian community were deeply concerned at the rumoured transfer of the territory to Germany. Their views in regard to this subject were communicated by the Government of India to His Majesty's Government.

Natal.—Out of a total population of about 38,000 indian immigrants in Natal in 1937, approximately 27,000 or 71 per cent. are (according to the 1937 report of the Protector of Immigrants in Natal, just published) in employment in the Provinces, and many, in addition, are farming on their own account and carrying on other trades. There is, however, considerable uncomployment in and around Durban.

Of those in employment, the largest number, about 6,000, are in the suzar industry. The next largest number are in the corporate bodies, which provide employment for over 2,100. Miscellaneous industries and employment as domestic servants account for 5,650, and tea, coal and railways employ roughly 1,750.

The average rate of wages paid on the estate is 42s. 6d. per month, with food, accommodation, medical attention and medicine free of charge.

The total number of Indians employed in coal-mines in Natal during the year was 1,885, of whom 557 were men, 345 women and the rest children.

The wages on the lines remained about the same as before, namely, 1s.6d. or 2s. 6d. per shift, with food, medicine, medical attention and quarters free.

The number of Indians in Natal on 31st December 1937 was approximately 171,000, own whom 38,000 were Males, 28,000 females and the rest children. Of the 171,000 about 28,600 represent the original immigrants and 144,000 are Natal born.

There were 274 more births and 108 less deaths during 1937 than in the previous year, bringing the birth rate to 48.79 per mille and death rate to 14.15 per mille. The corresponding figures of 1936 were 48.84 and 15.31, respectively.

The death rate in 1937 is the lowest for the last six years. There were no arrivals during the year, emigration to Natal having been stopped by the Indian Act of 1911. The total number of Indian immigrants who returned to India during the year was 232, of which 110 were sent to India from different parts of the Union under the Assisted Emigration Scheme. The number of Indian children attending the schools, both Government and aided, is about 22,500 out of a total children population of 104,500, thus bringing the percentage to 21.

(3) Fiji and British Guiana.—Emigration to Fiji was stopped in 1917, under Rule 16 (B) of the Defence of India (Consolidated) Rules in pursuance of the general policy of stopping recruitment under the indentured system of emigration. With a view to secure, if possible, a renewal of emigration to the Colony, an unofficial mission composed of the Bishop of Polynesia and Mr. Rankine, Receiver-General to the Fiji Government, arrived in India in December 1919, and submitted a scheme of colonisation, which was referred to a committee of the Imperial Legislative Council on 4th February, 1920. To secure a favourable reception for the mission the Fiji Government cancelled all out-standing indentures of East Indian labourers from 2nd January, 1920, and also announced their intention to take early measures to provide for the representation of the Indian community on the Legislative Council on an elective basis by two members. In accordance with the recommendations made by the Committee the Government of India informed the mission in March, 1920, that they would be willing to send a Committee to Fiji provided that the Government of Fiji and the Secretary of State for the Colonies would guarantee that "the position of the emigrants in their new home will in all respects be equal to that of any other class of His Majesty's subjects resident in Fiji." In July, 1920, the Government of Fiji informed the Secretary of State for the Colonies of their Secretary of State for the Colonies of their willingness to give the pledge, subject to his approval. Arrangements with regard to the contemplated deputation, however, were post-poned until January 1921, owing to the announcement of Lord Milner's policy in regard to Indians in Kenya, and the desirability of consulting the new Legislature in India. After consultation with the Fill Government as to the terms of reference and personnel of the deputation, an announcement was made on the 27th June, 1921. But owing to the inability of the two Indian members Messrs. Srinivasa Sastri and Hirdaynath Kunzru, who had been nominated to join the Committee which as finally constituted consisted of Messra. Vonkatapati Raju, G. L. Corbett, Govind Sahat Sharma, and Lieutenant S. Hissam-ud-din Khan did not reach Fiji until the end of January 1922.

The labour troubles in Fiji in the years 1920-21 had produced an unexpected result in India. The Government of Fiji cancelled the indentures of indian labourers, as from January 1920, while arrangements were made for the early repatriation of such of them as desired to return to their own country. In consequence, large numbers left Fiji. Many arrived in India comparatively destitute; while others, who were colonial born or whose long residence in the colonies had rendered them unfit for the old

social conditions, found themselves utterly out of place-indeed foreigners-in their own country. Returned emigrants from other colonies also, being in difficulties owing to the unfavourable economic situation in India, strongly desired to return to the territories from which they had come. During the early part of 1921, from all parts of India there was a steady drift of destitute and distressed labourers in the direction of Calcutta where they hoped to find ships to take them back to the colonies in which they were certain of work and livelihood. At the earnest representation of the Fiji Government, and after full consultation with representative public men, arrangements were made to relax the emigration restriction in favour of those Indians who were born and had property in any colony, as well as of such near relations as they desired to take with them. Admirable work was done among these distressed persons by the Emigrants. Friendly Service Committee which had been formed primarily to deal with the applications of repatriated Indians desirous of returning to The Government of India gave discretion Fiji. Fig. The Government of India gave discretion to this Committee to permit persons who could prove that they had been in Figi to return there if they so desired. The local labour conditions stimulated the return of these unfortunate people by giving them assisted passages. Legislative Assembly had made a grant of £1,000 for the maintenance of these labourers, until such time as they were able to find work and such time as they were able to find work and settle down in India. The deputation from India left Fiji on the 3rd April, 1922, and submitted its report to the Government of India. It has not been published.

In February, 1929, Letters Patent under which the constitution of the Fiji Legislative Council was revised were issued. Provision was made, inter alia, for the election of three Indian members on a communal basis. On the 5th November, 1929, one of the Indian members moved a resolution recommending the adoption of a communal one. The resolution was supported by the three Indian members and opposed by the rest of the Council including the elected European and nominated Fijian members. As a protest against this vote, all three Indian members resigned their seats and, no Indian having subsequently offered himself for election, the seats remained unfilled throughout the life of the Council. A fresh election was held during 1932 and as a result two Indian constituencies returned their representatives to the Council, but no candidate offered himself for election from the third constituency.

In 1935, the elected Indian members of the Legislative Council advocated a system of nominaton in place of the system of election and the proposal was opposed by the local Indian Association. European opinion was divided. The Government of India supported the principle of election and made representations to His Majesty's Government. The decision of His Majesty's Government is contained in the depatch, dated the 20th July 1936, addressed by the Becretary of State for the Colonies to the Government of Fiji. The main points of the decision were:

(a) the Fijian representatives should be selected as heretofore, viz., by the Governor from a

panel submitted by the Great Council of Native Chiefs;

- (b) some of the European and Indian members should be elected and the others nominated;
- (c) the circumstances were such as to make it impossible to arrange for representation of the three sections of the population by means of a general franchise. The Legislative Council should consist of the Governor, 16 official members, 5 European members (3 to be elected on a communal franchise and 2 to be nominated), 5 Fijian members (all to be selected as at present) and 5 Indian members (3 to be elected on a communal franchise and 2 to be nominated).

The Legislative Council as newly constituted met in September 1937.

Another important matter which is attracting attention is that of land tenure. Indians experience a number of practical difficulties connected with the leases of land and the administration of the land law and they have been brought to the notice of His Majesty's Government by the Government of India. In September 1938, the Council of Chiefs of Fiji agreed that all lands (including leases) not required for the maintenance of the Fijian owners should be opened for settlement; that to further this end a Committee should be appointed to inquire into and to determine the amount of land needed for proper development by the Native owners; and that all land (including leased) not so required should be handed over to the Government to lease on behalf of the Fijians. The Fiji Government has not so far appointed the Committee asked for by the Council of Chiefs and the position in regard to Indian land tenure is unchanged.

British Guiana.—The Indian population in this colony belong almost entirely to the labouring classes and their grievances are mainly economic. Towards the end of 1919, a deputation consisting of the Hon'ble Dr. J. J. Nunan, Attorney-General, and Mr. J. A. Luckhoo, a prominent Indian who was a member of the combined court, visited India to put forward a scheme for the colonisation of British Guiana by means of emigration from India. This was examined by a Committee of the Indian Legislature, which advised that a deputation be sent from India to investigate conditions on the spot. Owing to certain unforessen circumstances it was not found possible to proceed with the proposal until 1992, when a deputation consisting of Messrs. Pillai, Keatings and Tivary visited British Guiana. Mr. Keatings was a former member of the Indian Civil Service who had retired from the post of Director of Agriculture, Bombay: Diwan Bahadur P. Kesava Pillai was an elected member of the Madras Legislative Council of which he was also Vice-President; and Mr. Tivary was a member of the Servants of India Society who had done considerable-amount of Social Welfare Work among the Depressed Classes in the United Provinces. The two reports of the deputation were published on the 21st of January 1924. Towards the end of the month a deputation from the Colony of British Guiana, consisting of Sir Joseph Numan, Et., and the Hon. Mr. J. C. Luckhoo, K.C., arrived in India for further discussions. The Standing

Emigration Committee of the Indian Legislature eventually reported that while they would be inclined to view with favour the colonization scheme put forward by the deputation, they would, before making any definite recommendation, like the Government of India to depute an officer to British Guiana to report on certain matter. Kunwar Maharaj Singh, M.A., C.I.E., Bar-at-Law, was deputed for this purpose. He proceeded to that Colony in September 1925. His report was received on February 1st, 1926, and published. He made certain criticisms and suggestions and the whole matter was thus satisfactorily settled. The colonisation scheme has not yet come into operation as the Colonial Government are not in a position at present to afford the cost which it involves.

In March 1928, following special inquiries by the Colonial Office, reports appeared in the press that a bill had been introduced in the House of Commons empowering His Majesty's Government to alter the constitution of British Guians by Order in Council. The changes eventually introduced by the British Guians (Constitution), Order in Council 1928, did not involve any differentiation against Indians and did not in any way infrings the provisions of the special declaratory Ordinance which was passed by the Colonial Government in 1923 and which confers equality of status on all persons of East Indian race resident in the Colony.

Nothing important about the Indian community in that colony was heard till September-October 1935, when there were labour disturbances on certain sugar estates. A Commission was appointed by the Governor to enquire into was appointed by the Governor to enquire more and report on (a) the causes which led up to the disturbances and (b), inter alia, the condition of labour on sugar estates; and to advise on the measures necessary to obviate the recurrence of similar disputes. From the report of the Committee of t mission, which was published in December 1930, it would appear that the disturbances were primarily of an economic character and were inspired by grievances and disabilities which the Commission found to be genuine and which were common to both African and Indian labourers. whether resident or non-resident. There is resson to suspect that the position of the Indian labourer has somewhat deteriorated in the last few years. The abolition of the indentured system was no doubt most desirable and constitutes a theoretical advance, but as things are at present the Indian labourer no longer enjoys the measure of security provided by the Immigration Ordinance in regard to pay, hours of work and other benefits and the supervision of the Immigration officers in his relation with the plantation authorities. In order to remedy this state of affairs, the Commission has recommended:

(i) the creation by Government of some authority with such powers as are considered necessary for the efficient safeguarding of the interests of both employed and employer; and

(ii) the revision of the provision of the Employers and Servants Ordinance in the light of more modern conceptions of the relations between employer and employed. As a result, the British Guiana Government has appointed a Commissioner of Labour and the

other recommendations are, it is understood, still under consideration.

West Indies Royal Commission.—The decision of His Majesty's Government to appoint a Boyal Commission to conduct a comprehensive survey of the social and economic problems affecting the group of the West Indian Colonies was announced by the Secretary of State for the Colonies in the House of Commons on the 14th June, 1938, in the course of the debate on the Colonial Office vote during which discussion largely contred around conditions in the Yest Indies. The actual terms of the Commission (which were announced in the House of Commons on the 28th July) were the following:—

"To investigate social and economic conditions in the Barbados, British Guians, British Honduras, Jamaica, Leeward Islands, Trinidad and Tobago, and Windward Islands and matters connected therewith and to make recommendations."

In view of the large number of Indians in Jamaica, Trinidad and British Guiana and the importance of the Indian case in these territories being properly presented before the Royal Commission, the question of safeguarding the interests of Indians engaged the attention of the Government of India. As a result of representations made by them, they were able to secure the approval of His Majesty's Government to the deputation of an officer to represent their views before the Commission and to assist Indians in the West Indies in the presentation of their case. Mr. J. D. Tyson, C.B.E., I.C.S., who was secretary to the Rt. Hon'ble V. S. Srinivasa Sastri, P.C., C.H., when the latter went as the first Agent in the Union of South Africa, and subsequently represented the Government of India before the Joint Select Committee in South Africa on the Transvaal Asiatics Land Tenure Amendment Bill in 1930, was the officer chosen in this connection.

2, Mr. Tyson sailed from Bombay on the 3rd December, 1938, and arrived in Jamaica on the 5th January, 1939. The Commission had finished taking evidence in Jamaica early in December and so he was mainly concerned with collecting data for presenting necessary supplementary evidence to make the Indian case more complete and comprehensive. In British Guiana and Trinidad, he was able to accompany Indian delegations when they appeared before the Commission and helped in elucidating their viewpoint where necessary. He also gave evidence before the Royal Commission on behalf of the Government of India regarding Indians in Jamaica, British Guiana and Trinidad. The Commission concluded taking evidence towards the end of March, 1939, and their Report has not yet been published.

(4) OTHER PARTS OF THE EMPIRE.

Ceylon and Malaya.—The Government of India maintain their own agents in Ceylon and Malaya.

The question of the fixation of a standard minimum wage for India estate labourers in Ceyton and Malaya has been the subject of negotiations between the Government of India and the Colonial Governments ever since the emigration of Indian labour to the Colonies for the purpose of unskilled work was declared lawful in 1923 under the provisions of the Indian Emigration Act, 1923.

Ceylon .- A satisfactory settlement regarding the standard wage and other outstanding questions affecting the interests of labourers was arrived at in 1927 and the legislation to give effect to it was passed by the Ceylon Legislative Council in December, 1927, as the 'Indian Labour Ordinance No.27 of 1927.' The standard rates of wages agreed upon were introduced with effect from the 1st January, 1920. In view of the considerable fall in the cost of living and the precarious condition of the rubber and tea industries during the slump, the rates of wages in mid and low country estates were reduced early in 1932, those in up-country being left intact. A further reduction in wages took place in 1933 in view of the deterioration in the position of the rubber and tea industries. While agreeing to these proposals, the Government of India stipulated that the reductions should be treated as strictly temporary and emergent and revision of rates on the upward grade should be considered as soon as the industries revived.

As soon as there was a revival of these industries towards the middle of 1933, the Government of India pressed for the restoration of wage cuts and the rates in force prior to the reductions of 1933 were restored with effect from the 1st June. 1934.

Since Septembor, 1935, there has been little or no recruitment of Indian labour owing to the depression in the toa and rubber industries. In September, 1937, with an increase of prosperity in these two industries, the demand from the planters for extra labour became insistent. Their requirements were estimated at 20,000 labourers, but the Ceylon Government decided to permit the recruitment of only 5,000 as they were anxious to absorb suitable labour available for employment. The flovernment of India did not feel justified in permitting recruitment unless some revision of wages was promised and Indian estate labourers were accorded the village Committee franchise. The position in regard to the village Committee franchise is explained in a later paragraph and the question of the revision of wages was receiving the attention of the Wage Boards towards the end of 1938, Meanwhile there was no recruitment of Indian labour for the Ceylon estates.

In 1936, as a result of a resolution passed in the State Council, the Ceylon Government appointed an Immigration Commission to consider and report upon the problem of non-Ceylonese workers in Ceylon, particularly with a view to the restriction and effective control of immigration into Ceylon of workers from other countries, including assisted estate labourers. Indians form the majority of the immigrants in Ceylon and they presented a memorandum to the Immigration Commissioner. The report of the Commissioner was published in April, 1938. The Commissioner came to the conclusion that, although in the absence of statistics it was not possible to estimate the extent of Indian immigration, the immigrant came to share the work when it was available and when it was not, he returned to his home; that the immigrant advance which could not have taken place without them; that Indians did not undercut

wages; that the existing means of control of immigration were sufficient and that the restriction of Indian immigration for the protection of Ceylonese employment was not practicable. The report is under the examination of the Ceylon Government.

Another piece of legislation affecting Indians in Ceylon was the Village Communities (Amendment) Ordinance. The amendment sought to enfranchise all persons of either sex other than Indian estate labourers thereby giving the vote to Europeans and Burghers who were previously This discrimination against Indians excluded. roused protest both in India and in Ceylon. With the object of removing the charge of obvious racial discrimination, the Standing Committee of the State Council made an amendment to the proposed Bill which had the effect of extending the franchise to those members of classes, i.e., (Europeans, Indians and Burghers), who pay land tax, and possess a specified area of land (5 acres). The practical effect of this would be to enfranchise the great majority of Europeans and Burghers and leave practically the entire Indian estate labour population without the vote. A further protest was made to the Ceylon Government by the Government India, decided who to stop recruitment of labour for Cevlon until this question was satisfactorily settled. The Bill was passed by the State Council but was reserved by His Excellency the Governor of Ceylon for the signification of His Majesty's pleasure.

With a view to meeting the charge of racial was amended so as to exclude all labourers resident on estates, whether Ceylonese or Indian, from the village committee franchise. The Original Bill and this amendment became law on 1st January, 1939 and it is felt that though de jure discrimination against indians has been removed, de facto discrimination remains as a very large body of Indian estate labourers till in practice be excluded from the village franchise while the effect upon the Ceylonese will be negligible.

Malaya.—In Malaya, standard wago rates which were considered suitable by both the Indian and Malayan Governments were introduced in certain 'Key' areas in 1928. The rates fixed, however, were reduced by 20 per cent. with effect from the 5th October, 1930, owing to the acute depression in the rubber industry. The Government of India accepted the proposals for the reduction in the wages but they represented to the Malayan Governments that all Indian labourers who wished to be repatriated, either because they were unwilling to work on wages lower than the standard rates, should be repatriated free of cost. As a result of this suggestion, nearly 73,000 Indians obtained free repatriation between August and December, 1930. All recruitment of labour from India to Malaya as had left their families there. The depression in the rubber industry continued throughout 1931 and 1932, but towards the end of 1933 there was an upwartend in rubber prices. The figures of repatriation showed a steady decrease and it was felt that there might be a shortage of labour if prices

continued to rise. The Malayan Governments Government of India. The Malayan Delegacontinued to life. The manyan coveriments divermient of india. The manyan before accordingly requested the Government of India to ton, after stating certain objections to these permit the reopening of voluntary assisted emiproposals, agreed to place them before the gration from South India to Malaya which was Malayan Governments for examination on their stopped in 1930. Assisted emigration was resumed in May, 1934 and was regulated by a "quota" system subject to certain safeguards. This system was continued in 1934 and 1935 and was stopped from 1936 when voluntary assisted emigration was allowed without a quota. In 1936 the Government of India sent a deputation consisting of the Rt. Hon. V. S. Srinivasa Sastri, P.C., C.H., with Mr. G. S. Bozman, I.C.S., as his adviser, to Malaya to examine the condition of Indian labourers in Malaya with special reference to the rates of wages. During the visit of the Deputation, the Malayan Governments decided to restore half the cut which had been imposed in 1930 in so far as labour employed by them was concerned. The estates immediately followed suit and the standard rates in force on the estates were fixed at 45 cents for men and 36 for women. There was widespread labour unrest towards the end of 1936. The Chinese labour on estates and mines struck work and as a result secured revision of wage rates. Over 12,000 Indian labourers employed by the Singapore Municipality also struck work in November, 1936, and the Municipality decided to give a minimum basic wage of 52 cents a day to unskilled labourers, with free quarters and corresponding increases in the higher rates of wages of all labourers with effect from the 1st March, 1937. The Deputation returned to India in January, 1937, and recommended the immediate restoration of the wages of Indian labourers to the 1928 level. As a result of the correspondence between the Government of India and the Malayan Governments the latter restored the rates of 50 cents for men and 40 cents for women with effect from the 1st April 1937.

This restoration of wages was however shortlived. The condition of the rubber industry deteriorated and the Malayan Government reduced the wages of the Indian labourers by 10 per cent. with effect from the 1st May, 1938 and contemplated a further reduction of 10 per cent. from the 1st August, 1938. The Government of India asked for a statement of the reasons for the first reduction and requested that, in the meantime, the reduction of wages should be postponed. The second reduction was not brought into force and the Government of India prohibited, with effect from 15th June, 1938, all assisted emigration to Malaya for the purpose of unskilled work.

With a view to settling the differences that had arisen as a result of the stoppage of emigra-tion to Malaya and in order to discuss other outstanding questions, the Government of India accepted the suggestion of the Malayan Governments that a delegation from Malaya should visit India. This delegation came to India in January, 1939, and discussed the various points of interest with the Government of India. The Members of the Standing Emigration Committee also met the members of the Malayan delegation and heard their views. The main question discussed was that of the rates of wages of Indian labourers in Malaya. Certain proposals for a recalculation of standard wages. artly on a fresh basis and partly on account of the changed circumstances, were made by the

return to Malaya. The Malayan delegates also agreed to have the suggestion of the Indian representatives on certain other points, e.g., the status of Indians in the Malayan States, the provision of adequate educational facilities for Indians of all classes, etc., examined by their Government. Future negotiations were to be continued by correspondence and the Government of India have addressed the Malayan Government on all the points raised.

Burma.—With the separation of Burma the position of Indians in that country had to be watched with special care and attention. Between July and September, 1938, Indians in Burma passed through very anxious times. Anti-Indian riots of an alarming character broke out in Rangoon on the 26th July and continued till the 1st August. As the news spread to the districts and villages, rioting took place in various districts towards the end of July and the beginning of August. In a few places rioting continued till September. Though the first outbreak of riots was brought under control, there was acute tension between the Burmese and the local Indian communities which manifested itself in a second outbreak in Rangoon early in September. Indian life and property became insecure during this period and about 11,000 Indian refugees were repatriated to India by the Shipping companies, by private relief committees and at the expense of the Government of Burma. The total number of Indians killed and injured during the riots is estimated at 164 and 711 respectively. The loss of Indian property on account of the riots is estimated between 18 and 54 lakhs.

The serious situation in Burma hastened the decision of the Government of India to send out their Agent whose appointment was already under contemplation. Mr. C. A. Henderson, C.S.I., I.C.S., a senior I.C.S. officer from Madras, was temporarily appointed as Agent and he took over charge of his duties towards the end of September 1938.

The Government of Burma app nted on the 22nd September a Committee to enquire into the riots and the personnel and the terms of reference are given below:

Personnel.—(1) The Hon'ble Mr. Justice H. B. L. Braund, M.A., Bar-at-Law (Chairman); (2) U. Po Han, B.A., (Bar-at-Law), member of the Public Services Commission, Burma; (3) Senator A. Rahim of Maymyo; (4) U Khim Maung Dwe, Pleader, Mandalay; and (5) Dr. M. A. Rauf, B.A., B.C.L., LL.D. (Bar-at-Law)—Members. F. S. V. Domison, I.C.S.—Secretary. Terms of reference .-

(1) to inquire into and report on

- (a) the causes of the recent riots in Burms:
- (b) the measures and actions taken by the police and civil officers during the riots; and
- (c) the loss of life and property and the desecration and destruction religious edifices and buildings during the riots.

In view of the importance and urgency of removing the underlying causes of the riots the Committee submitted an Interim Report which was published in January, 1939. According to the Interim Report, though the immediate cause or the occasion of the outbreak of the riots was the publication, or rather the discovery, of Maung Shwe Hpl's book which is alleged to have insulted the Buddhist religion, the real causes were political, economic and social and lay deeper. The unsatisfactory conditions of land tenure and the resultant agrarian discon-tent: the feeling of uneasiness which exists in the mind of the average Burman as to the future course of Indian immigration into Burma and of its effect upon the economics and social life of the Burmeso; marriages of Burmese women with Indian moslems and the activities of the organisations which have for their motto 'Burma for the Burmese' were, according to the Committee, some of the more important causes of the riots of 1938. The Final Report of the Inquiry Committee was published during April, 1939, and the Recommendations made in these two reports are receiving the attention of the Government of India. The questions under active consideration are (i) compensation for loss of Indian life and property and (ii) Indian immigration into Burma.

Zanzibar.—The small Protectorate of Zanzibar, consisting of the two islands of Zanzibar and Pemba, has an Indian community of nearly 15,000 out of a total population of 235,000. These Indians are mostly traders, and the trade in cloves—of which Zanzibar furnishes more than 80 per cent. of the world's supply—is largely in their hands. No problems of any magnitude faced this community until July 1934, when a group of Decrees regulating the trade in cloves and prohibiting the free alienation of land by Africans and Arabs to others was passed by the Legislative Council of Zanzibar and received the assent of H.H. the Sultan.

- 2. So great was the apprehension of the Indian community in regard to these measures that, after an unsuccessful attempt to have their operation postponed, the Government of India deputed Mr. K. P. S. Menon, I.C.S., to visit Zanzibar and examine the effect of the Decrees on Indian interests. Mr. Menon expressed the opinion that (i) the clove legislation, i.e., the Clove Growers' Association Decree and Clove Exporters' Decree, and (ii) the Land Alienation Decree, were objectionable from the point of view of the Indian community. In regard to (i) he stated in his Report, which was published in January 1935, that its effect would be to drive from the market most exporters of cloves and also middlemen in the internal market, who as already explained were almost entirely Indians.
- 3. After consideration of Mr. Menon's recommendations and the comments of the late Resident of Zanzibar thereon, detailed comments on the Decrees were communicated to His effective boyont of imports of Zanzibar cloves Majesty's Government by the Government of India. Eventually, as a result of their representations, His Majesty's Government deputed doves exported from Zanzibar normally come Mr. B. H. Binder, a Chartered Accountant, to Zanzibar in April 1936 to review the position of sole market for cloves of the best quality.

to make recommendations for the preven-tion of similar communal or religious currence of His Majesty's Government the disturbances.

Government of India deputed Mr. G. S. Bozman, I.C.S., to act as an observer in connection with the enquiry.

4. Mr. Binder's Report was published in November 1986 and he made the following recommendation for the control of the clove trade with the object of securing a fair price to the producer and preventing wide fluctuations of prices.

(i) Internal marketing.—The purchase of cloves should be restricted to licensed buyers, a sole licence to buy and receive deposits of cloves being in the first instance granted to the Clove Growers' Association. The Association should fix purchase prices according to quality from time ax purenase prices according to quanty from time to time, if possible for each season, and in so doing should take into account the profit or loss on each year's working. The Association should have the power to appoint district representatives and local agents for purchasing cloves from the growers, to be selected from existing local dealers and shopkeepers irrespective nationality.

(ii) Export trade.-No sales should made by the Association except for export and to ilcensed exporters. The Association should not export direct unless overses buyers desire to buy direct or other circumstances arise which necessitate this course. The right to limit the number of licensed exporters should remain but the licence fee should be reduced to a sum which would be within the means of the small exporter and the levy on the export of cloves should be abolished.

(iii) Advisory Committee.—Mr. Binder recommended the establishment of an Advisory Committee, to consist of two representatives of growers, one for Zanzibar and one for Pemba, two representatives of exporters and one of the C.G.A. to confer from time to time with the Board of the Association and to discuss the purchase and sale prices to be fixed.

5. Mr. Binder's recommendations were opposed both by the Indian community in Zanzibar and public opinion in India. Legislation which substantially gave effect to these recom-mendations was, however, passed in the shape of the Clove (Purchase and Exportation) Decree, and came into force on the 1st August 1987. As a result of representations by the Government of India, safeguards were provided in the form of (f) an assurance that all Indians previously engaged in the internal trade who applied for them would be given buying agent's licensee and
(ii) Indian representation on the Board of
Management of the C.G.A. to the extent of a total membership of seven, and on the Advisory Committee to the extent of two members out of six. These modifications, however, modifications, however, did not satisfy the Zanzibar Indian community, who refused to nominate their representatives, and organised an almost complete boycott of the clove trade, both in the internal market and on the export side. Their sympathisers in India also organised an equally

- 6. The whole question of the clove trade was As regards the internal market, produce now re-examined by the new Resident in the light of the boycott and, following representation on tions by the Government of India, the Government so much of their stocks as will set off the instances. ment of Zanzibar, with the approval of the Secretary of State for the Colonies, prepared a modified scheme for the control of the clove trade. Details of this scheme were explained in a memorandum which was published simultaneously in Zanzibar and India on the 3rd March, 1938. The main feature of the scheme was the withdrawal of the monopoly of the Clove Growers' Association in the internal market. Any licensed dealer was to be free to purchase cloves, either from producers or from other licensed dealers, at prices to be arranged between themselves and to store cloves as long as they wished. Producers indebted to Government under the Land Protection (Debt Settlement) Decree (explained in paras 10 and 11 below) were to sell only to the Clove Growers' Association, but other producers were to be free to sell their cloves to the Association or to any licensed dealer. All cloves were to pass through the Association, before ultimate export, but the Association itself was not to sell to principal overseas markets as long as the normal flow of exports was maintained.
- The Government of India were of opinion that the proposals were not free from certain features held to be objectionable by local Indians and suggested that the possibility of evolving a satisfactory formula acceptable to them should be explored by means of a conference at which alternate proposals and matters of detail could be discussed. The Government of India also offered to depute an officer to render all assistance in effecting a settlement, if the proposal found favour with the Zanzibar Government. This was readily acceded to by them and the Government of India selected for this purpose Mr. G. S. Bozman, I.C.S. (who had been deputed to Zanzibar in 1936 in connection with Mr. Binder's enquiry)—a choice which was welcomed by the Zanzibar Indian National Association.
- Mr. Bozman reached Zanzibar in the middle of April, 1938. Though the outlook for an amicable settlement seemed rather gloomy at various times during the negotiations, it became possible to announce an agreement on the 5th May, thanks to the co-operation of the local Indian community and the accommodating spirit of the Zanzibar Government.
- The main objections of the Indian community to the original proposals were (i) that participation in the export trade was very much restricted, (ii) that freedom of purchase in the internal market was permitted only with producers not indebted to Government, and (iii) that the proposed transport scheme for the conveyance of cloves from producers was liable to be used as an inducement to attract all sale of cloves to the Clove Growers' Association.

 According to the compromise arrived at, exporters are free to purchase up to 50 per cent. of the quantity to be exported from other than the Association's stocks, so that half the export trade is not subject to control. In the view of the Zanzibar Government this measure of the property in such manner as it control could not be dispensed with if export proper, unrestricted by the rules contain prices are to be maintained at a stable level. Bill which govern the actual valuation.

- ment due to Government under the debt redemt tion scheme. Under the modified transpor scheme, cloves will be brought to market centre where dealers and the Glove Growers' Associa tion will have an equal chance with the produce: The agreement has been given effect to by th Clove Decree, 1938, and so far has been working smoothly.
- 9. Closely allied with the control of the clove trade were the problems of indebtedness and the restrictions on the alienation of land. land alienation Decree passed in 1934, beside restricting the passing of land out of the hands or the Arab and African plantation owners into those of Indians, established, for one year in the first instance, a moratorium on debts secured or land mortgage. This moratorium was later extended from time to time, pending a settlement of the whole problem of indebtedness. Mr. Menon's inquiries in regard to these questions also discussed a position unsatisfactory from the Indian point of view. After consideration of his recommendations the Government of India suggested to the Government of Zanzibar that the position was such as to require review. The latter agreed to make a fuller investigation of the indebtedness question, and appointed a Commission for the purpose. This Commission. which included one Indian member (Mr. Tayaball Rajaball), produced a report which on the whole supported the position taken up by the Indian community in this respect. The Government of Zanzibar, however, found themselves unable to accept the report as it stood and formulated alternative proposals.
- 10. Representations were made by the Government of India and after considerable discussion. a Bill drafted by the Attorney General of Zan-zibar in consultation with Sir Ernest Dowson was passed into law as the Land Protection (Debt Settlement) Decree, which came into force on the 1st December 1937. The principal features of the scheme embodied in the Billare :-
- (a) Adjudication of the debt with a view to ascertaining the actual amount lent (or value of goods delivered on credit) and allowing a fair rate of interest thereon.
- (b) Valuation, by an officer appointed by Government for the purpose, of both mortgaged lands and lands sought to be attached by unsecured creditors.
- (c) The Government to pay off the creditor to the extent of the value of the land threatened. and to assume the position of mortgagee, in respect of the amount paid.
- (d) Where the value of the land as estimated by the officer appointed to value it is insufficient to satisfy the debt, the creditor will be free to challenge the valuation either by instituting a suit for foreclosure or sale or by applying for an order for sale or attachment.
- (e) On any such proceeding being taken, the Court will in the first instance proceed to value the property in such manner as it considers proper, unrestricted by the rules contained in the

- instalments having due regard to the necessity instantiation in the legacity to the accessity of leaving means at his disposal to provide for the proper husbandry of the land and for the livelihood of himself and hisfamily.

The moratorium imposed by the Land Alienation Decree of 1934 was lifted at the same time. The new scheme has, on the whole, met with a favourable reception from all communities in the Protectorate.

Mauritius.- In April 1924, the Government of Mauritius requested that emigration to the Colony might be continued for a period of one year, but the Government of India in consultation with the Standing Committee on Emigration decided that consideration of the request should await the results of a local request should swall use results of a local investigation. The Government of Mauritius agreed to receive an Officer for the purpose and to give him all facilities; and in Decem-ber, 1924, an Indian Officer of Government, Kunwar (now Sir) Maharai Singh, left India to conduct the necessary inquiry.

Sir Maharaj Singh's report was published by the Government of India in August 1925. The various recommendations made the report were commended to the consideration of the Colonial Government.

In February, 1926, the Government of India received a reply from the Colonial Government stating that they accepted the main conclusion formulated by Kunwar Maharaj Singh in regard to the renewal of emigration to Mauritius, viz., that no more unskilled Indian labour should be sent to Mauritius either in the immediate or near future. With regard to Kunwar Maharaj Singh's suggestions relating to other matters of interest to the Indian population resident in the Island, the Colonial Government expressed their willingness to give effect to several of them.

The condition of Indians in this Colony continued to remain satisfactory till 1937 when there were labour disturbances on certain sugar estates employing Indian labour. The Colonial Government appointed a Commis-sion to enquire into and report on the disturbances. The commission reported during 1938 and the most important recommendations of the Commission related to the necessity for the formation of a Department of Labour and the enactment of suitable labour legislation in place of the Labour Ordinance of 1922 which mainly dealt with indentured labour. Both recommendations have been given effect to and the Indian community in Australia which was the Labour Ordinance of 1938 which closely remediable by the Federal Government.

(f) The Court's valuation must not be less follows the Malayan Labour Code should prove than the official valuation. If it is greater the Government must give effect to it, unless the a large number of whom are employed on sugar debtor himself prefers that the proceedings against his land which have commenced shall take their ordinary course.

(g) Repayment by the debtor of the amount advanced by the Government on his behalf ton. This Ordinance, it will be observed, and interest thereon to be effected by suitable instalments having due regard to the necessity. labourers.

> Canada and Australia.—The present position of Indians in the Dominions is that under the Canadian Dominion Election Act, Indians domiciled in Canada enjoy the federal franchise in eight out of the nine provinces. In the province of British Columbia, Indiana do not enjoy the provincial or the Dominion franchise and efforts so far made to remove In August 1907 So far insue to remove this disability have not been successful. In New Zealand, Indians enjoy the franchise on the same footing as all other British subjects. In Australia, sub-section (5) of section 39 of the Commonwealth Ejectoral Act, 1918-24. was amended in 1925, by adding after the word "Asia" the words, "except British India." This measure gives the Commonwealth franchise to subjects of British India at present domiciled in Australia and is the fruition of the hopes held out by the Commonwealth Government to Mr. Sastri on the occasion of his visit to Australia in 1922. As a result of the representations made in London in 1930 informally by the late Sir Muhammad Shafi at the instance of the Government of India to the Prime Minister of Australia, the electoral law of Queensland has also been revised to enfranchise the British Indians resident in that State. It was, therefore, in Western Australia alone that Indians did not enjoy the suffrage in respect of election for the Lower House. This disability was also removed at the end of 1934. By Acts which have recently been passed by the Commonwealth Parliament, British indians in Australia have been admitted to the benefits of Invalid and Old Age Pensions and Maternity allowances from which they were hitherto excluded as Asiatics. Old Age Pension is payable to men above 65 years of age, or above 60 years, provided such persons are of good character and have resided continuously good character and have related to the control of the cast 20 years. An Invalid Pension is obtainable by persons, who, being above 16 years of age and not in receipt of an Old Age Pension, have whilst in Australia, become permanently incapacitated for work by reason of an accident or by reason of being an invalid or blind, provided they have resided continuously in Australia for at least five years.

> Maternity allowance to the amount of £5 is given to a woman of every child to which she gives birth in Australia, provided the child is born alive and the woman is an inhabitant on the Commonwealth or intends to settle there. This Legislation removes the last grievance of

Indians in Great Britain.

Some seventy years have gone by since the Parsee community, in the persons of the late Dadabhai Naoroji and other members of the late vaulted library and reception rooms, and the firm of Cama & Co., led the way in the sojourn of Indians in England for business purposes. This lead it has since maintained, though there occasions. are both Hindu and Mahomedan business men firmly established there. Nor are the professions unpresented, for there are in London and elsewhere practising barristers, solicitors and medical men of Indian birth. The number of the latter, especially Parsees, is considerable. Three Indians (all belonging to the Parsee community) have sat in the House of Commons. Since 1910 six Indians the late Mr. Ameer Ali, the first Lord Sinha, the late Sir Binode Mitter, Sir Dinsha Mulla, Sir Shadi Lal and Mr. M. R. Jayakar—have served on the Judicial Committee of the Privy Council. Three Indians are Advisers to the Secretary of State for India. In 1919, the late Lord Sinha was the first Indian to be raised to the peerage and to be appointed a member of the Home Government.

India House.

High Commissioner for India.—This post was first established in 1920 and its various permanent incumbents have been:—

Sir Wm. Meyer, 1.0.8. (Retd.), 1920-22. Sir Dadiba Merwanjee Dalal, 1923-24. Sir Atul Chandra Chatterjee, 1925-31. Sir Bhupendra Natdra Mitra, 1931-36. Sir Firozkhan Noon, 1930.

In March, 1930, the office of the High Com-missioner for India was transferred from the missioner for India was transferred from the inadequate premises in Grosvenor Gardens to the new India House in Aldwych, erected and furnished at a cost of £324,000. The design of this noble building, which has a frontage of about 130 ft. opposite the Waldorf Hotel, was the work of Sir Herbert Baker, A.R.A., with Dr. Oscar Faber as consulting engineer. Although expression of the Indian character of the building is mainly found in the interior, the architect has given to the details of the external elevation, by means of carving, heraldry, and symbolism an individuality that proclaims external elevation, by means of carving, heracity, and symbolism an individuality that proclaims it the London house of India. Including basement and mezzanine floors, there are twelve floors in all, the available space for clerical work alone being between 50,000 and 60,000 ft. The total height from the lower level in the courtyard on the Strand side to the roof is about 100 ft.

On the ground floor there is a great hall for exhibits of the products and art wares of India. This hall is carried up two floors, the upper medical students, there are fully 2,000 young floor being represented by a wide gallery, and Indians (some five per cent. of them women) in on either side of the exhibition hall there are Icndon, Edinburgh, Cambridge, Oxford, on either side of the exhibition hall there are London. Edinburgh, Cambridge, Oxford, recesses after the style of an Indian bazaar Glasgow, Manchester, Birmingham, Leeds, for special exhibits. From the octagonal Sheffield, Liverpool and a few other centers. entrance hall a great public staircase leads to a London absorbs about half the total.

The staircase, exhibition hall, octagonal hall and library markedly express the Indian character of the building. The walls of the staircase and the halls are of red stone similar in appearance to the Agra and Delhi sandstone, carved and plerced in the geometrical patterns of the jali in Indian architecture. Such of the of the 3d1 in Indian architecture, Such of the carving as could be completely separated from the structure was actually worked at New Delhi by Indian workmen from Makara marble. The use throughout of Indian hardwoods, chiefly gurgan, for flooring obviates the need for any floor covering. From basement to roof scarcely any wood of non-Indian origin was employed. For panelling and decorative purposes in all parts of the great building silver gray, koko, saurel and the beautiful dark red padouk have been used. The domes and vaults of the building have been embellished by mural paintings, the work of specially selected Indian paintings, the work of specially selected Indian artists. The water supply is entirely independent of municipal service, being obtained from two artesian wells sunk some 460 ft. below the basement, where the central heating apparatus is installed.

The Indian Trade Commissioner and his staff are at India House, with all other departments of the Office of the High Commissioner excepting the Stores Department which is at the depot off the Thames at Belvedere Road, Lambeth.

The Students.

Under normal conditions it is the student community which constitutes the greatly preponderating Indian element and creates a constant problem. Its numbers multiplied ten or twelve fold in the quarter of a century before the war. After a very considerable temporary check caused by the Great War the number rapidly expanded from 1919 in spite of pressure on college accommodation. In addition to the on college accommodation. In addition to the ordinary graduate or under-graduate student, there are some youths of good family, including heirs of Indian States, admitted into the public schools, such as Eton and Harrow. There are some 500 Indians at the Inns of Court. Since the war there has been a welcome increase in the number of technical and industrial student. Altogether including technical and medical students, there are fully 2,000 young

SOCIETIES AND INSTITUTIONS IN LONDON CONNECTED WITH INDIA

A WOLO. THOLAN ASSOCIATION. LONDON .- : Established in 1905 to promote the interests and welfare of the Anglo-Indian and Domiciled European communities wherever resident by such means as may be deemed by the Council to be desirable. Anglo-Indians and Europeans, whether domiciled in India or not, are eligible.

Hom. Scc. F. L. Sheldon, B.A., 23, Winchester Indian GYMKHANA CLUB LTD.—Thornbury Ave-Road, Oxford. BRITISH INDIAN

Union .- Founded in 1023. Promotes friendship and understanding between the two races. President: H. R. H. the Duke of Connaught. Hon. Joint Secretaries and Treasurer: Sir James McKenna and R. S. Nehra, 43, Chalkhill Road, Wembly,

Middlesex.

CENTRAL HINDU SOCIETY OF GREAT BRITAIN. Founded for the exposition of Hindu philosophy; to provide facilities for social intercourse between followers of different religions to create and strengthen better mutual understanding; to assist members in every reasonable way. President: R. S. Nehra. 43, Chalkhill Road, Wembly, Middlesex.

INDIAN COLONIAL ASSOCIATION, CENTRAL LONDON.—Established to represent the Colonial Indians' cause to the Colonial Office, India Office, and other proper authorities: to protect, strengthen and enhance the interests, political, social, commercial and religious, of Colonial Indians in all parts of the World; to provide a central platform and meeting place for Colonial Indians in London; to promote, encourage and strengthen friendship and amity between Colonial Indians and other races; to assist in the achievement of fair and equal treatment to Indians in the by all constitutional means. Colonies President: R. S. Nehra. Hon. Sec., N. D.

EAST INDIA ASSOCIATION.—Founded in 1866 by Dadabhai Naoroji and other public men. Its object is to promote, by all legitimate means, the welfare of the inhabitants of India generally. The methods are—(1) providing opportunities for the free public discussion, in a loyal and temperate spirit, of important questions affecting India; (2) by promoting friendly social contact between Indians and English men interested in India, though the medium of social gatherings and of private meetings of members to exchange views on current Indian questions; (3) by lectures and the publication of papers or leaflets correcting erroneous or misleading statements about India and its administration and (4) generally by the promulgation of sound and trustworthy information regarding the many weighty problems which confront the Administration in India, so that the public may be able to obtain in a cheap and popular form a correct knowledge of Indian affairs. Subscription, entitling a member to the free supply of the quarterly Asiatic Review £1-5-0 per annum. President: Lord Lamington, St. Majcoln, G.C.I.E., Chairman. Sir Majcoln, Seton, K.C.B. Hon. Secretary: Sir Frank Brown, Kt., C.I.E., 3, Victoria, Street, S.W.1.

INDIAN CHAMBER OF COMMERCE IN GREAT BRITAIN.—11A, Wormwood Street, London, E.C. 2.

INDIAN EMPIRE SOCIETY .- Reorganised since the passing of the India Act to collect and disseminate information as to events in India. Lord Middleton. Chairman of Committee: Field-Marshal Sir Claud Jacob. Hon. Secretary: Sir Louis Stuart, C.I.E., 48, Broadway, S.W. 1.

nue, Osterley, Middlesex. Object: To provide facilities for sports, games and social intercourse for Indians, particularly students, in Great Britain. The Club owns 16 acres of well-situated freehold sports ground with a recently erected fine Pavilion, at Osterley. Annual Subscription: £ 1-1-0. Ladies: 10/6d. Hon. Secretary: Mr. David S. Erulkar, "Africa House", 44/46, Leadenhall Street, London, E. C. 3.

Indian Social Service Group .- 36, Well Walk, Hampstead, N. W. 8.

THE INDIA SOCIETY (ART AND LETTERS). — Founded in 1910 to promote the study and appreciation of India art and literature, in India and also in those countries which have been influenced by it have influenced India especially Java, Siam, Indo-China, Afghanistan, Iran and the middle East. Lectures at which papers are read by leading British, Indian and Continental specialists have become a regular feature of the Society's activities. In order that the members resident abroad may be able to share in the benefit of these lectures, papers and proceedings are published bi-annually in "Indian Art and Letters" which is issued free to members. In addition members receive free in return for their annual subscription (£ 1-11-6) volumes, as issued, on some subject connected with Indian art or literature published by the Society. Visits to private collections of Oriental Art are arranged from time to time. Exhibitions of Indian art are another feature of the Society's activities. President: The Marquis of Zetland, G.O.S.L.) G.O.L.E. Chairman of Council: Sir Francis Younghusband, K.O.S.L., K.O.L.E. Vice-Chair-man: John de la Valette. Hon. Treasurer: Sir Frank Brown, O.I.E. Hon. Secretary: F. J. P. Richter, M.A., 3, Victoria Street, London, S.W.1.

INDIAN STUDENTS UNION AND HOSTEL.—112. Gower Street, W.C. 1. President: Sir Ewart Greaves, D.L.; Hon. Treasurer: Harold G. Judd, C.B.E.; Educational Secretary: S. Ormerod, B.A. (Oxon.); Hospitality Secretary: S. S. Singha, B.A.; Warden and General Secy. : T. D. Santwan, B.sc

THE INDIA LEAGUE—(Formerly The Commonwealth of India League) to support the claim of India for Swaraj (Self-Rule), Publishes Weekly Press Service, "Notes on India" (monthly); Indian Information Builetin (monthly). Sends speakers. Address.—165. Strand, W. C. 2. Chairman: Bertrand Busell. Secretaries: James Marley and V. K. sell, Secretaries: James Marley and V. K. Krishna Menon.

TDIAN CONCILIATION GROUP.—(Meeting at Friends House, Euston Road, N. W. 1). Chairman: Carl Heath. Hon. Secretary: Agaths Harrison. 2, Cranbourne Court, Albert Bridge Road, S. W. 11.

INDIAN VILLAGE WELFARE ASSOCIATION .-Its objects are :- (1) the collection and dissemination of information on rural activities in India; (2) the furtherance of schemes and experiments to promote rural welfare which are approved at a meeting of the Executive Committee; (3) the holding of Schools and other educational activities to arouse interest in the needs of rural India. Chairman: Sir Francis Younghusband, K.O.S.I., K.O.I.E.; Hon. Secretary: Sir Gilbert Jackson, 7, Gainsborough Gardens, N.U. 3.

MUSLIM SOCIETY IN GREAT BRITAIN.—Formed to safeguard and to maintain the interests of Islam and Islamic institutions. President: Madame Khalida Buchanan-Hamilton. Secretary : M. A. Rashid. Treasurer : Saiyed M. H. Tirmizey. 18, Eccleston Sq., S.W. 1.

NATIONAL INDIAN ASSOCIATION in aid of social Progress and Education in India—Founded by Miss Mary Carpenter in 1870. Objects of the Association:—To extend a knowledge of India, in England, and an interest in the people of that country; to co-operate with all efforts made for advancing education and social reform in India; to promote friendly intercourse between British people and the people of India. President: Lord Lamington. Chairman of the Committee: Sir Schwyn H. Fremantle: Hon. Secy.: C. P. W. Lloyd, c/o East India Association, 3, Victoria St., 8.W. 1.

NEW BURMA CLUB.—101, Great Russell Street, W. C. 1.

NORTHBROOK SOCIETY .- Makes grants to deserving Indian students. Hon. Secretary: Pe Chichgar, Imperial Institute, S. Kensington.

THE OXFORD MAJLIS,-Formerly known as the Navaratman Club, and later as the Oxford United Club. The Oriental Club was incorporated with it in 1913. Its attitude towards Indian problems has been progressively Left. Full membership is restricted to Indians. Meets on Sundays during term. Officers elected each term. Address: President, The Oxford Majlis, c/o Union Society, Oxford.

PARSEE ASSOCIATION OF EUROPE INCORPORATED —Zoroastrian House, 11, Russell Road, Kensington, London, W. 14. Tel. Western, 1657.

ROYAL ASIATIC SOCIETY .- Established 1823, obtained Boyal Charter 1824, "for the investigation of subjects connected with and for the encouragement of Science, Literature, and the Arts in relation to Asia". Secretary : Col. D. M. F. Hoysted, C.B.E., D.S.O., 74, Grosvenor Street, London, W. 1.

ROYAL CENTRAL ASIAN SOCIETY.—President: The Rt. Hon. Lord Lloyd, P.O., G.O.S.I. G.O.LE., D.S.O. Chairman: Field-Marshal Sir Philip Chetwode, Bt., G.O.B., O.M. Hon. Secretaries: Brig.-General Sir Percy Sykes, K.C.I.E., C.B., C.M.G. E. M. Gull, Esq., and Major E. Ainger, 8, Clarges Street, London, W. 1.

ROTAL OYAL EMPIRE SOCIETY.—Formerly Royal Colonial Institute. Northumberland Avenue, W.C. 2. Secretary : Archer Cust ; Honorary W.C. 2. Secretary: Archer Cust; Honorary Corresponding Secretaries in India: C. T. Allen, C.I.E., Cawnpore; Lt.-Col. W. Bell, Dehrs Dun; C. T. Brett, C.I.E., Patna; P. E. Fledding, Bombay; Major J. W. Gordon, C.I.E., O.B.E., Jodhpur; Lt.-Col. K. A. Gosnell, I.A., Peshawar; Dr. R. A. Heatley, Ajmer; E. F. G. Hunter, Madras; R. B. Lagden, O.B.E., M.C.; F. C. Morgan, Karachi; R. H. T. Mackenzie, Bikaner; Capt. S. E. Tidy, Bangalore Bangalore.

ROYAL SOCIETY OF ARTS has an India section before which lectures are delivered on every phase of Indian life. 18, John Street, Adelphi, W.C. 2. Secretary: K.W. Luckhurst, M.A. Secretary: Indian Section: F. Lewis, M.A., D. Phil. P.R. Hist.g.

ROYAL INSTITUTE OF INTERNATIONAL AFFAIRS, Chatham House, 10, St. James's Square. S.W. 1. Secretary: Ivison S. Macadam, O.B.R., M.V.O.

clair Road, W. 14 (Addison Road). THEOSOPHICAL SOCIETY IN EM ENGLAND,--- 50, Gloucester Place, W. 1 (Baker Street).

Sport.

Epert, like everything else in India, continues effect of better organisations is beginning to be to progress and the year under review shows that the country continues to become more and more sports-minded. Everywhere organisation being tightened up and the standard of play generally at all games is improving with a rapidity which leads to the hope that the day is not far distant when India will be able to hold her own in International competition in other games besides hockey.

Indian sport suffered a great loss in the death of that fine sportsman, H.H. The Maharajah of Patials, the man who has done more for the game of cricket than any other man in India. Not only did he bring to the country the best English coaches but it was his interest and active participation in the organisation of the game which brought into being the present Board of Control for Cricket in India, which eventually secured for India Test Match status. Fortunately his son, the present ruler of Patiala, who is incidentally a player with Test honours, is as great an enthusiast for the game as his father, and will carry on his father's good work for the game.

Table Tennis received a filip by the visit and tour of Barna and Bellak, former world champion and wherever they played they did so before an enthusiastic crowd. This visit has resulted in the game possessing a governing body of its own and there are indications that most of the provinces will soon have a Table Tennis Association.

With regard to racing which is still the most important sport in the country, legislation has resulted in the country-bred horse being given greater opportunities. The Turi Clubs are allotting more money for stakes for races confined to the Indian horse and in Bombay the Western India Turf Club have devised a scheme whereby Indian boys are being apprentised as jockeys, and though it has not been in existence very long, holds out promise of uncerthing some good riders. This will mean that the periodical invasion by English and Australian jockeys will become smaller and smaller as the scheme matures. The outstanding owner this year was H.H. The Maharajah of Kashmir, though the Maharajah of Gwallor won the two big cup races, the King Emperor's and the Viceroy's cups with his Finalist, one of the finest animals ever to be imported into India.

Professional boxing is showing signs of a revival especially in Bombay which was once its strong-hold, but the lack of a suitable venue is retarding progress. In both Calcutta and Bombay tournaments were held and several overseas boxers were seen in action.

Hockey, of course, continues to be the principal

felt and there seems little prospect offindia losing the position she has occupied for the past twelve years or so in International hockey.

As far as cricket is concerned the opening of the Brabourne Stadium last year has led to a movement for the provision of similar stadia in other parts of the country. The Banji Trophy tournament, which is the chief competi-tion in the country, is still languishing in the doldrums but the authorities are making efforts to stimulate interest in it. Somehow or the other the public have not taken to this tourna-ment and it is invariably run at a loss in spite of the fact that the best players in the country participate. The Bombay Pentangular tournament is still considered the premier competition and this rather overshadows every other series. The presence of the Hindus in this years tournsment was most gratifying, their quarrel with the Cricket Club of India being satisfactorily settled.

Once again a visit was received from a foreign team of tennis players and the American players were given a right royal welcome where they played and though they were on the whole too good for the Indian players whom they met, the visit proved that India's standard was on the up grade and no doubt the lessons learned will be assimilated with advantage to Indian tennis generally.

A team of tennis players under Mr. Brooke-Edwards toured Europe and gave a good account of themselves undoubtedly garnering some very useful experience but the standard of the game generally is still below first class International grade.

The British Empire team of swimmers and divers paid a brief visit to Bombay and in a match against the best local talent in the Brabourne Stadium Pool proved much too good for anything India could put in the water against them but their visit did aquatics in Bossbay considerable good.

Football continues to a popular game in the Monsoon and the various organisations are at last beginning to get together so that the game is being placed on a better footing than at any time in the past,

Snags are being overcome gradually and with everyone working for the general improvement of the game the future of football in the country is bright. The soldier no longer holds sway The Indian can now hold his own with him with the result that the big tournaments are much more open and interesting than they were in the

The minor sports, polo, yachting, golf and badminton are finding their recruits and is safe to say that never has so many of India's teeming millions been so sports-minded as today. And team game of the country and the big competi-millions been so sports-minded as today. And tions attracted their usual huge crowds. The better still shousands more are playing the games.

Racing.

Consuls.—Immediately af Article

which includes Colonels,

Vice-Consuls .- Immediately after Article 59. which includes Majors. Consular officers de carriere will in their

respective grades take precedence of consular officers who are not de carriere.

Among themselves Consular Officers will take precedence in their respective grades according to the dates of the Government of India notifica-

fappointments. An officiating incumbent of a grade will rank as an officer of that grade immediately below its permanent incumbents except that when an officer below the substantive grade of Consul officiates as a Consul-General he will be ranked with Consuls and assigned a place immediately after permanent Consuls.

8. The following may be given, by courtesy precedence as shown below, provided that they

do not hold appointments in India:

Peers according to their precedence in England. Knights of the Garter, the Thistle and St. Patrick. Privy Councillors. Advisers to the Secretary of State for India. Immediately of the Governor-General's after Members Executive Council, Article 9.

Baronets of England, Scotland, Ireland and the United Kingdom according to date of Patents. Knights Grand Cross of the Bath. Knights Grand Commander of the Star of India. Knights Grand Cross of St. Michael and St. George, Knights Grand Commander of the Indian Empire, Knights Grand Cross of the Royal Victorian Order, Knights Grand Cross of the Order of the British Empire. Immediately after Puisne Judges of High Courts, Article 23.

Knights Commander of the Bath. Knights Commander of the Star of India. Knights Commander of St. Michael and St. George. Knights Commander of the Indian Empire, Knights Commander of the Royal Victorian Order. Knights Commander of the Order of the British Empire. Knights Bachelor. Immediately after tions announcing the recognition of their the Residents of the Second Class, Article 31.

There has been no subsequent revision of the "Warrant" but the Governor-General in exercise of powers conferred by His Majesty, has given courtesy rank to the following Officers :-

Chief concerned,

Indian Orders.

The Star of India.

The Order of the Star of India was instituted by Queen Victoria in 1861, and enlarged in 1866, lency the Governor-General of India, the Mar-1875, 1876, 1897, 1902, 1911, 1915, 1920, quess of Linlithgow, P.C., K.T., G.M.S.I., 1985 and 1987 and the dignity of Knight Grand G.M.I.E., O.B.E., D.L., T.D. Commander may be conferred on Princes or Chiefs of India, or upon British subjects for important and loyal service rendered to the Indian Empire; the second and third classes for services in the Indian Empire thirty years in the department of the Secretary of State for India. It consists of the Sovereign, a Grand Master (the Vicercy of India), the first class of forty-six Knights Grand Commanders (24 British and 22 Indian), the second class of one hundred and six Knights Commanders, and the third class of two hundred and thirty-seven Companions, exclusive of Extra and Honorary Members, as well as certain additional Knights and Companions.

The Insignia are (i) the Collar of gold, com-posed of the lotus of India, of palm branches tied together in satire, of the united red and White rose, and in the centre an Imperial Crown : all enamelled in their proper colours and linked together by gold chains. (ii) The Star of a Knight Grand Commander is composed of rays of gold issuing from a centre, having thereon a star of five points in diamonds resting upon a light blue enamelled circular riband, tied at the ends and inscribed with the motto of the Order, Heaven's Light our Guids, also in diamonds, that of a Knight Commander is somewhat different, and is described below. (iii) The Badge, an onyx cameo having Her Majesty Queen Victoria's Royal Effigy thereon, set in a perforated and ornamental oval, containing the motto of the Order surmounted by a star of five points, all in diamonds. (iv) The Mantie of light blue satin lined with white, and fastened Honorary with a cordon of white silk with bine and silver tassels. On the left side a representation of the Star of the Order.

The ribbon of the Order (four inches wide for Knights Grand Commanders) is sky-blue, baving a narrow white stripe towards either edge, and is worn from the right shoulder to the left side. A Knight Commander wears (a) around his neck a ribbon two inches in width of the same colours and pattern as a Knight Grand Commander, and, pendent therefrom a badge of a smaller size, (b) on his left breast a Star composed of rays of silver issuing from a gold centre, having thereon a silver star of five points resting upon a light blue enamelled circular ribbon, tied at the ends, inscribed with the motto of the Order in diamonds. A Companion wears around his neck a badge of the same form as appointed for a Knight Commander, but of a smaller size pendent to a like ribbon of the breadth of one and a half inches. All Insignis are returnable at death to the Central Chancery, or if the recipient was resident in India, to the Secretary of the Order at New Delhi or Simla.

Sovereign of the Order:—His Most and Berar, Gracious Majesty The King-Emperor of India, H. H. The Aga Khan

Grand Master of the Order :- His Excel

Officers of the Order:—Registras: Major Henry Hudson Fraser Stockley, C.V.O., O.B.E., B.M., Secretary of the Central Chancery of the Orders of Knighthood, St. James' Palace, London, S. W. 1.

Secretary: Mr. John Gilbert Laithwaite, C.S.I., C.I.E., Secretary to the Governor-General (Personal) and Private Secretary to His Excellency the Viceroy.

The Most Eminent Order of the Indian Empire.

This Order, instituted by H. M. Queen Victoria, Empress of India, Decomber 1877, and extended and enlarged in 1886, 1887, 1892, 1897, 1902, 1911, 1915, 1920, 1935 and 1937, is conferred for services rendered to the Indian Empire, and consists of the Sovereign, a Grand Master, forty-two Knights Grand Commanders (of whom the Grand Master is first and principal), one hundred and fifty Knights Commanders, and an indefinite number of Companions (not exceeding, without special statute, 54 nominations in any one year), also Extra and Honorary Mombers over and above the vacancies caused by promotion to a higher class of the Order, as well as certain Additional Knights and Companions appointed by special statute, Jan. 1st, 1909, commemorative of the 50th Anniversary of the assumption of Crown Government of India.

The Insignia are: (i) The COLLAR of gold formed of elephants, lotus flowers, peacocks in their pride, and Indian roses, in the centre the Imperial Crown, the whole linked together with chams; (ii) The STAR of the Knight Grand Commander, comprised of five rays of sliver, having a small ray of gold between each of them, the whole alternately plain and scaled, issuing from a gold centre, having thereon Her Majesty Queen Victoria's Royal Effigy, within a purple circle, edged and lettered gold, inscribed Imperatives Auspiciis, and surmounted by an Imperial Crown gold; (iii) The BADOE consisting of a rose, enamelled gules, barbed vert, and having in the centre Her Majesty Queen Victoria's Royal Effigy, within a purple circle, edged and lettered gold, inscribed Imperatives Auspiciis, surmounted by an Imperial Crown, also gold; (iv) The MANTLE is of Imperial purple satin, lined with and fastened by a cordon or white slik, with purple slik and gold tassels attached. On the left side a representation of the Star of the Order.

A Knight Commander wears: (a) around his neck a ribbon two inches in width, of the same colour (purple) and pattern as a Knight Grand Commander, pendent therefrom a badge of smaller size: (b) on his left breast a star, similar to that of the first class, but the rays of which are all of silver.

The above mentioned Insignia are returned at death to the Central Chancery, or if the Knight was resident in India to the Secretary of the Order.

A Companion wears around his neck a badge (not returnable at death) of the same form as appointed for a Knight Commander, but of smaller size, pendent to a like ribbon of the | H. H. Sir Gulam Muhammad Ali, Prince of breadth of one and a half inches.

Sovereign of the Order:—His Most Gracious Majesty The King, Emperor of

Grand Master of the Order:—H. E. the Governor-General of India, the Marquess of Linlithgow, P.C., K.T., G.M.S.I., G.M.I.E., O.B.E., D.L., T.D., from April 18th, 1936.

Officers of the Order: —The same as for the Order of the Star of India.

The Imperial Order of the Crown of India.

This Order was instituted on Jan. 1, 15:8 and for a like purpose with the simultaneously created Order of the Indian Empire. It consists of the Queen, the Queen Mother with some Royal Princesses, and the female relatives of Indian Princes or of persons who have held conspicuous offices in connection with India, Badge, the Royal Cypher in jewels within an oval surmounted by an Heraldic Crown and attached to a bow of light blue watered ribbon, edged white. Designation, the letters C. I.

Sovereign of the Order. THE KING-EMPEROR OF INDIA. Ludies of the Order (C. I.)

Ladies of the Order (C. I.)

Her Majesty The Queen.

Her Majesty Queen Mary.

H. R. H. the Princess Royal.

H. R. H. The Duchess of Gloucestor.

H. R. H. The Duchess of Kent.

H. R. H. the Princess Louce Duchess of Argyll.

H. R. H. the Princess Ecatrice.

H. H. Princess Helona Victoria.

H. H. Princess Marie Louise.

H. M. The Queen Marie of Roumania.

Mary, Baroness Kinloss.

H. H. Maharani Sahib Chimna Bai Gackwar.

Lady George Hamilton.

Margaret, Dowager Baroness Ampthill.
Mary Caroline, Dowager Countess of Minto.
Lady Victoria Patricia Helena Ramsay.

Margaret Etrenne Hannah, Marchioness of Crewe.

Frances Charlotte, Viscountess Chelmsford.

Marie Adelaide, Marchioness of Willingdon. Dorothy Evelyn Augusta, Viscountess Halifax. Pamela, Countess of Lytton.

H. H. Sri Padmanabha Sevini Vanchi Dharma Vardhini Raja Rajeswari Maharani Setu Lakshmi Bai, Maharani Regent of Travancore.

Margaret Evelyn, Viscountess Goschen. Jeannette Hope, Baroness Birdwood. Lady All Shah.

H. H. the Maharani Bhatlanji Sri Ajab Kanwarji Sabeb, of Bikaner.

Lady Beatrix Taylor Stanley. Doreen Maud, Marchioness of Linlithgow. Doreen Geraldine, Baroness Brabourne.

Indian Titles: Badges .-- An announcement was made at the Coronation Durbar in 1911, that a distinctive badge should be granted to present holders and future recipients of the titles of 'Diwan Bahadur', 'Sardar Bahadur', 'Khan Bahadur', 'Rai Bahadur', 'Khan Bahadur', 'Rai Bahadur', 'Khan Bahadur', 'Rai Bahabur', 'Rai Bahabur', 'Rai Bahabur', 'Rai Bahabur', 'Rai Bahabur', 'Rai Bahabur', 'Khan Sahib', 'Ana 'Rao Sahib', Subsequently the following regulations in respect of these decorations were issued:-(1) The decoration to be worn by the holders of the titles above mentioned shall be a badge or medallion bearing the King's effigy crowned and the name of the title, both to be executed on a plaque or shield surrounded by a five-pointed star surmounted by the Imperial frown, the plaque or shield being of silver gilt for the titles of Diwan, Sardar, Khan, Rai and Rao Bahadur, and of silver for the titles of Khan, Rai, and Rao Sahib. (2) The badge shall be worn suspended round the neck by a ribbon of one inch and a half in width, which for the titles of Diwan and Sardar Bahadur shall be light blue with a dark blue border, for the titles of Khan, Rai and Rao Bahadur light red with a dark red border, and for the titles of Khan, Rai and Bao Sahib dark blue with light blue border.

A Press Note issued in November, 1914, states: - The Government of India have recently had under consideration the question of the position in which miniatures of Indian titles should be worn, and have decided that they should be worn on the left breast fastened by a brooch, and not suspended round the neck by a ribbon as prescribed in the case of the badge itself. When the miniatures are worn in conjunction with other decorations, they should be placed immediately after the Kaisar-1-Hind

Indian Distinguished Service Medal.—This medal was instituted on June 28th, 1907, by an Army Order published in Simia as a reward for both commissioned and non-commissioned officers of the regular and other forces in India. It bears on the obverse the bust of King Edward VII, and on the reverse a laurel wreath enciroling the words For Distinguished Service. medal, 12 inches in diameter, is ordered to be worn immediately to the right of all war medals suspended by a red ribbon 12 in. wide, with blue edges 2 in. wide. This medal may be conferred by the Viceroy of India.

It is divided into three classes and is awarded to native officers and men for distinguished conduct in the field. On the advancement from one class to another the star is surrendered to the Government, and the superior class substituted, but in the event of the death of the recipient his relatives retain the decoration. The order carries with it an increase of one-third in the pay of the recipient, and in the event of his death the allowance is continued to his widow for three years. The First Class con-sists of a star of eight pointe, 13 in. in diameter, sists of a star of eight points, 1§ in. in diameter, having in the centre a ground of dark-blue enamel bearing crossed swords in gold, within a gold circle, and the inscription Reward of Valour, the whole being surmounted by two wreaths of laurel in gold. The Second Classtar is of sliver, with the wreaths of laurel in gold; and the Third Class entirely of silver. The decoration is suspended from a simple loop and bar from a dark-blue ribbon 1½ in. in width with red edges, bearing a gold or silver buckle according to class.

Order of British India. - This order was instituted at the same time as the Order of Merit, to reward native commissioned officers for long and faithful service in the Indian Army. for long and rather service in the Indian Army. Since 1878, however, any person, European or native, holding a commission in a native regiment, became eligible for admission to the Order without reference to creed or colour. The First Class consists of a gold eight-pointed radiated star 14 in. in diameter. The centre is occupied by a lion statant gardant upon a ground of light-blue enamel, within a dark-blue band inscribed Order of British India, and anoircled by two laurel wreaths of gold. A gold loop and ring are attached to the crown for suspension from a broad ornamental band % in. in diameter, through which the ribbon, once blue, now red, is passed for suspension from the neck. The Second Class is 1% in. in diameter with dark-blue enamelled centre there is no crown on this class, and the suspender is formed of an ornamental gold loop. The reverse is plain in both classes. The First Class carries with it the title Sardar Bahadur, and an additional allowance of two rupees a day and the Second the title of Bahadur, and an extra allowance of one ruper per day.

Indian Meritorious Service Medal.-This was instituted on July 27th, 1888, and on receipt of the medal the order states "a non-com-missioned officer must surrender his Long Service and Good Conduct medal": but on being promoted to a commission he may retain the M. S. medal, but the annuity attached to it will cease. On the obverse is the diademed bust of Queen Victoria facing left, with a well falling over the crown behind, encircled by the legend Victoria Kaisar-i-Hind. On the reverse is a wreath of lotus leaves enclosing a wreath or paim tied at the base, having a star beneath, between the two wroaths is the inscription for meritorious service. Within the paim wreath blue edges † in. wide. This medal may be is the word India. The wide, I fin. in diameter, conferred by the Viceroy of India.

Indian Order of Merit.—This reward of ribbon I in. wide. The medal issued during valour was instituted by the H. E. I. Co. in the reigns of Queen Victoria's successors bear 1837, to reward personal bravery without any reference to length of service or good conduct.

THE KAISAR-I-HIND MEDAL.

This decoration was instituted in 1900, the preamble to the Royal Warrant—which was amended in 1901, 1912, 1933 and in 1933—being as follows:—"Whereas We, taking into Our Royal consideration that there do not exist adequate means whereby We can reward important and useful services rendered to Us in Our Indian Empire in the advancement of the public interests of Our said Empire, and taking also into consideration the expediency of distinguishing such services by some mark of Our Royal favour: Now tor the purpose of attaining an end so desirable as that of thus distinguishing such services aforesaid, We have instituted and created, and by these presents for Us, Our Heirs, and Successors, do institute and created, and by these presents for Tus, Our Heirs, and Successors, do institute and created, and by these presents for Public Service in India"; and consists of three classes. The Medal is an oval-shaped Badge or Decoration—in gold for the First Class, silverfor the se ond Class and in bronze for the Third Class—with the Royal Cypher on one side and on the reverse the words "Kaisar-i-Hind for Public Service in India"; it is suspended on the left breast by a dark blue ribbon.

Recipients of the 1st Class.

Alvar, Mrs. Parvati Ammal Chandra Sekhara

Abdus Samad Khan of Rampur

Advani, M. S.

LILAVATI, BAI SAHEB PATWARDHAN, SHRIMANT SAUBHAGYAVATI THE RANISAHEB of Jamkhandi is the noble consort of Shrimant Raja Shankarrao Parashuramrao alias Appasaheb Patwardhan, the Rajasaheb of

Jamkhandi, in the Deccan: She is the only daughter of Shrimant Madhavrao Moreshwar Pandit, Pant Amatya, the late Chief-saheb of Bavda. b. in 1910, m. the Rajasaheb in 1924 and has a son and a daughter. Educ.: Privately the Ranisaheb is endowed with all the qualities of head and heart that contribute to make domestic life happy. On more than one occasion she

has proved to be a befitting partner in life of a Ruler bearing the brunt of administration of a progressive State. She has been managing the Khasgi Department with rare skill and Excellency the Marquess of Linlithgow in 1911. success, thus helping to lighten the burden of the Rajasaheb in the management of the affairs of the State. During the Rajasahebs absence in England and the Continent she was in sole charge of the administration of the State as the Regent and made the fullest use of this opportunity to demonstrate her capacity for administration and her solicitude for the welfare of the people of the State. She has a religious turn of mind and with this her simplicity of habits and unassuming generosity of heart form a rare combination that makes her an object of reverence and affection both in and outside the palace.

LINDSAY, SIR DAROY, KT. (1925), C.B.F., 1919, Kaisar-i-Hind Gold Medal (1911); M.L.A., 1921-30 and 1933-36. b. Nov. 1865. Late Sccretary, Calcutta Branch, Royal Insurance Co. Address: 26, Dalhousie Square, Calcutta.

Select Committee on Indian Constitutional Reform Committee on Indian Constitutional Reform 1933; Recreations, 2014, shooting, Helr: 8. Earl of Hopetoun, q.v. Address: Viceroy's House, New Delhi, India; Hopetoun House, South Queensferry, Linlithgowshire, T.; South Queensferry 217. Clubs: Carlton, London New Edinburgh.

Her Excellency inherited her interest in all forms of charitable work for the welfare of the community from her father who spent many years of his life in helping those in distress. and who was affectionately known as the "Soldiers' Friend" owing to his efforts on behalf of disabled ex-Service men after the Great War 1914-1918. Her Ex-

cellency is particularly interested Tuberculosis and has been-and still is connected with the wonderful work done at the Papworth Village Settlement for Tubercular in England (founded by her father, Sir Frederick Milner). Her Excellency is a well-known and popular hostess in London during the season, but she prefers a country life and is never happier than when staying at her beautiful home, in Scotland, Hopetoun House, on the banks of the River Forth. Her Excellency has many interests and excels at most games. She is also a keen gardener and has a considerable knowledge of all forms of plant life, Kaisar-I-Hind Gold Medal, 1939.

Educ.: Queen Mary College, Lahore. m. in 1929 the late Raja Jagat Kumar of of Sahaspur Bilari Estate in the Moradabad Dist, who died of a motor car accident in 1933 leaving behind a daughter, Raj Kumar Indra Mohini. The Rani Sahiba is very much interested in the present day problems and contributes to the columns of the "Leader,"

the columns of the "Leader,"
"Landholders' Journal and "Feudatory
and Zamindari India." Her contributions
have generally been very thoughtful
and inspiring. There are few meetings
of the landholders in the Provinces
where she is not invited and where members
of her class do not look up to her for guidance
and help in organising public opinion. The
Court of Wards U. P. have recently appointed
her an Honorary Assistant Manager of her
own estate. Her manners are charming
and her heart sincero. The Rani Sahiba
takes great interest in the Girl Guide move-

ment and is a Lieutenant of the Nainital branch, Address: Sahaspur Palace, Dist. Moradabad.

A LWAR: HIS HIGH-NESS MAHARAJA SHRI SEWAI TEJ SINGHJI BAHADUR, the present Ruler of Alwar State, Rajputana.

Born: 19th March 1911 at Srichandpura in Alwar.

Educated: Privately.

The State was founded by Rao Pratap Singhji of Macheri who had descended through Naru from Raja Udaikaranji, Ruler of Jaipur in the fourteenth century. The Alwar Ruling family are Kachhwaha Rajputs of the Naruka sub-clan.

The following have been the rulers of Alwar State:-

- (1) Maharao Raja Shri Sewai Pratap Singhji, founder of the State, 1757-1791.
- (2) Maharao Raja Shri Sewai Bakhtawar Singhji, 1791-1815, entered into offensive and defensive alliance with the British Government in 1803.
- (3) Maharao Raja Shri Sewai Viney Singhji, 1815-1858, rendered valuable services to the British Government.
- (4) Maharao Raja Shri Sewai Shivdan Singhji, 1858-1875.
- (5) Lt.-Col. His Highness Maharaja Shri Sewai Mangal Singhji, G.C.I.E., 1875-1892. The title of Maharaja as a hereditary distinction was conferred upon him.
- (6) Col. His Highness Maharaja Shri Sewai Jey Singhji, G.C.S.I., G.C.I.E., 1892-1937, rendered valuable services to the British Government in the China War, Great War and the Afghan War. He was invited to attend the Round Table Conferences on Indian Constitutional Reforms and visited Europe several times. A personal salute of 17 guns and a permanent local salute of 17 guns were granted to His Highness.
- (7) His Highness Maharaja Shri Sewai Tej Singhji Bahadur ascended the Gaddi in 1937. His Highness takes a keen interest in the administration of the State and in the welfare of his subjects.

The area of the State is 3,158 square miles, and the population according to the 1931 Census is 749,751. The revenue of the State is about 40 lacs.

AHAWALPUR: MAJOR DR. HIS HIGHNESS RUKN-UD-DAULA, NUS-RAT-I-JANG-SAIF-UD-DAULA, HAFIZUL MULK, MUKHLIS-UD-DAULA WA MUIN-UD-DAULA AL-HAJ NAWAB SIR SADIQ MOHAMMAD KHAN SAHIB BAHADUR ABBASI V., L.L.D., G.C.I.E., K.C.S.I., K.C.V.O., Nawab Ruler of Bahawalpur.

Born: in 1904. Succeeded in 1907. Educated: in Aitchison Chiefs College, Lahore. Married: in 1921. Invested with full Ruling powers in 1924. A member of the Standing Committee of the Indian Princes Chamber. A.D.C. to Prince of Wales during his Indian tour, 1921. Hon. Major in the 21st K.G.O. Central India Horse,

Visited Europe and England 1913-14, 1924, 1931, 1932, 1933 and 1935. Was honoured in May, 1937, by an invitation to be present in Westminster Abbey on the occasion of the Coronation of H.M. the King Emperor. Received by King Emperor on each occasion.

Largest Mohammadan State in the Punjab. Direct descendant of Abbaside Kaliphs of Baghdad and Cairo. Heir: Sahibzada Mohammad Abbas Khan Sahib Bahadur.

Area: 22,000 square miles. Population: 1,000,000. Revenue: Rs. 85 lakhs.

Salute: 17 guns.

CABINET.

Prime Minister:

IZZAT NISHAN IMADUL-MULK, RAISUL-WUZRA KHAN BAHADUR NABI BAKHSH MOHAMMAD HUSAIN, M.A., LL.B., C.I.E., Bo.-C.S.

P. W. & Revenue Minister:

Mr. C. A. H. Townsend, C.I.E.

Minister for Law & Justice:

RAFIUSHAN IFRUKHARUL-MULK, LIEUT.-COLONEL KHAN BAHADUR MAQBOOL HASSAN KUREISHY, M.A., LL.B.

Home Minister:

Umdat-ul-Umara Amine-ul-Mulk Sardar Haji Mohammad Amir Khan.

Minister for Commerce:

MEHTA UDHO DAS, B.A., LL.B.

Minister for Education:
MAJOR SHAMSUD DIN MOHAMAD. B.A.

PALASINOR: HIS HIGHNESS
NAWAB SAHEB BABI
SHRI JAMIATKHANJI,
BAHADUR, the present Ruler of
Balasinor State, in the Gujarat
Agency.

Born: 10th November 1894.

Ascended the Gadi on 31st
December 1015.

Educated: At the Raj Kumar College, Rajkot, where he achieved the Diploma. Afterwards His Highness joined the Imperial Cadet Corps, Dehra Dun and returned with success. He is allowed to wear the Imperial Cadet Corps uniform. His Highness is a ruler of literary taste and can compose poetry in Urdu and Gujarathi. He is also endowed with the

natural gift of writing drama and plays which are greatly admired

in the province of Gujarat.

Married: First with H.H. Begum Saheba Shri Subhan Bakhte Saheba, daughter of the Heir-apparent of Junagadh State, but she died. At present His Highness the Nawab Saheb has three Begum Sahebas: (1) H.H. Shri Sardar Begum Saheba. (2) H.H. Shri Khurshed Begum Saheba. (3) H.H. Shri Zohra Begum Saheba. The senior Begum Saheba, Sardar-Begum Saheba, the daughter of the late Thakor Saheb of Kervada, gave birth to a son in 1920, who unfortunately died in infancy. The third Zohra-Begum Saheba has given birth to three daughters.

His Highness the Nawab Saheb comes of a very ancient and well-known Babi Sunni Pathan dynasty. The ancestors of His Highness were the descendants of Sher Khanji Babi, son of Bahadur Khanji Babi, a distinguished officer in the Imperial Service at Delhi, who enjoyed a very high position at the time of the Mughal Emperors. Even to-day the same magnificent position is fully maintained. The Rulers of this can have been famous not for their kingly pomp, dignity and splendour, but for their luxuriance of benevolence and exuberance of munificence throughout Gujarat and Kathiawar.

Military Force: 60 Cavalry, 177 Infantry and 10 guns.

Permanent Salute: 9 guns. The ruler has been granted a sanad of adoption. He is also a member of the Chamber of Princes in his own right.

Balasinor State is a second class State in the Bombay Presidency with high Civil and Criminal powers.

Area of the State: 189 square miles. Population: 52,525 in 1931.

BANGANAPALLE: NAWAB
MIR FAZLE ALI KHAN
BAHADUR, is the only
Muslim Ruler in South India.

Born: 9th November 1901.
Installed on the Masnad of his ancestors on 6th July 1922.
Education: St. George
Grammar School Hydershad

Grammar School, Hyderabad (Deccan); Newington Institution, Madras; Mayo College, Ajmer.

Marriages: (I) In 1924 his first cousin, Fakhr-un-nissa Begum Sahiba (died in 1928), the only daughter of his paternal uncle, the late Nawab Mir Asad Ali Khan Bahadur. Two children:

HEIR-APPARENT: NAWAB MIR GHULAM ALI KHAN BAHADUR, born 12th October 1925; and Sahebzadi Sultani Begum, born 31st August 1927.

(2) In 1930 the present Begum Sahiba, Ra'ees-un-nissa Begum from the family of Nawab Salar Jung Bahadur (Hyderabad).

Two daughters: Sahibzadi Nargis Khatoon (Sahibzadi Padsha), born 20th August 1936 and Sahibzadi Haji Pasha, born 18th August 1938.

Recreation: Tennis, Billiards and Shikar. The Nawab Saheb Bahadur has travelled widely throughout India, and has just returned from a tour of pilgrimage of the Holy Places in Iran, Iraq and Arabia.

The State pays no tribute to the Crown. "The Nawab Saheb Bahadur is a ruler of the constitutional type imbued with a single-minded devotion to duty and a strong sense of the obligations of his royal position. His people have seen in him not a remote Ruler, but a man who is personally acquainted with many of them and has often visited the places where they live." (Mr. Humayun Mirza, the Dewan, at the Darbar on the 6th December 1937.) The Nawab Saheb Bahadur is a member of the Chamber of Princes.

Salute: 9 guns. Area of the State: 275 square miles. Population: 41,840 (mostly Hindus). Annual Revenue: Rs. 3,51,760.

The State is rich in mineral resources: diamond deposits, also copper and calcite mines. "Labour is cheap, water supply plentiful and working conditions ideal", is the view expressed by geologists about the facilities afforded in regard to the working of the diamond mines. The State is also rich in slab deposits. The chief food grain is cholum. There is free medical aid and free education upto the Lower Secondary grade. Dews: Humayun Mirza, Esq.

JUDICIARY.

Chief Judge: P. N. Ramaswamy, Esq., I.C.S. Civil & Sessions Judge: Syed All Nague Sares. Magistrate: Kraja Naseer Hussain Sares. Munciff: Hyder Beig Sares.

PRINCIPAL OFFICERS.

Tabolidar: Syed Imam Sanen, B.A. Educational Officer: Mr. B. Narasyman.

ANSWARA: H I S HIGHNESS RAYAN RAI MAHARAJADHIRAJ MAHA-RAWALJI SAHIB SHRI SIR PIRTHI SINGHJI BAHADUR, K.C.I.E., (1933) of Banswara.

Born: 15th July 1888, succeeded: 8th January 1914. Invested with full ruling powers in March 1914. Descended from the eldest branch of the premier clan of Shishodia Rajputs now ruling in Mewar, and is twenty-first in descent from Maharawal Jagmal Singhji, who founded Banswara in 1527 A. D.

Educated at the Mayo College,

Ajmer. Married.

Hereditary Salute: 15 guns. His Highness is a member of the Chamber of Princes. His Highness has proved himself

to be a wise and efficient Ruler, and his practical knowledge of the work of each Department in the State has been an important factor in its progress, which has been manifested by the increase of the State revenue and the general well-being of the people. On the outbreak of the Great War (1914-1919), His Highness offered his personal services and placed the resources of the State at the disposal of Government.

The year 1937-38 has been a period of all round progress: The Legislative Council which has been enlarged to consist of 34 members with non-official majority, a reorganised Municipality with non-official elected majority, the Primary School improved with additional staff, buildings and equipment, a large High School building under construction, new Municipal park, electric lights, modern Hospital, road extension, Telephone system at Police Stations, an excellent Club for Officers and Jagirdars, and the formation of a Chamber of Merchants. Recreations: Riding, Shooting, Outdoor games, etc.

Moir-Apparent : Maharaj Raj Kumar Sahib Shri Chandraveer Singhji, both in 1909. Second Son: Maharaj Kumar Sahib Shri

NARPAT SINGHJI, born in May 1921.

Area of State: 1,946 square miles.

Revenue: Rs. 7 lacs.

Population: 260,670. Infantry: Prithwi Rifles.

Banswara, the Southernmost State in Rajputana, has been described as the most beautiful portion of Rajputana, especially just after the rains. The State is believed to be rich in minerals, and has been twice surveyed and settled. Another revision of the Settlement is going on. The State has many archæological relics and considerable fertile soil. Capital: Banswara 65 miles from Dohad on B. B. & C. I. Ry.

Regular Motor Service between Dohad and Banswara.

Administration of the State is conducted by His Highness with the

assistance of a Diwan.

Diwan: Dr. Mohan Sinha Mehta, Ph. D., M.A., LLB., Bar-at-Law.

Private Secretary to His Highness: Mr. Fauj Mal Kothari.

PARIA: LIEUT.-COLONEL HIS
HIGHNESS MAHARAOL
SHREE SIR RANJITSINHJI,
K.C.S.I.. Ruler of Baria.

Born: 10th July 1886.

Educated: At Rajkumar College, Rajkot; Imperial Cadet Corps College, Dehra Dun, and in England.

Married: In 1905 Shrimant Taktakunverba Saheb, daughter of His late Highness the Maharaja of Rajpipla.

In 1918 Shrimant Dilharkunverba Saheb, a niece of His late Highness the Maharaja Saheb of Rajpipla.

Succeeded to the Gadi: 20th February 1908. Assumed full Ruling Powers in May 1908.

Served in France and Flanders during the Great European War

(1914-18) and also during the Third Afghan War (1919).

Son: MAHARAJ KUMAR SHREE HEERASINHJI.

Grandsons: Maharaj Kumar Jayadeepsinhji. and Maharaj Kumar Pradeep Sinhii.

Family: Chohan Rajputs lineal descendants of the renowned Pava-paties, Rulers of Gujrat with their capital at Champaner.

The State pays no tribute either to the British Government or any other State, and receives Chouth of Dohad, Kalol and Halol Talukas of the Panch Mahals from the British Government.

Area of State: 813 square miles. Population: 159,429.

Salute: Permanent 9; Personal II.

Recreation: Pig-sticking, Polo, Tiger-hunting, etc.

ADMINISTRATION.

Dewan: RAO BAHADUR MOTILAL L. PAREKH, M.A., LL.B. Officer Commanding State Forces: Lt.-Col. Maharaj Naharsineji, C.I.E.

Raj-Kharch Officer : CAPTAIN SARADAR KALLIANSINH.

Sar Nyayadhisha and First Class Magistrate: U. J. Shah, Esq., B.A., LL.B.

Nyayadhisha and First Class Magistrate! M. V. SHETH, Esq.

B. A. GAEKWAD, B.A., LL.B., Bar-at-Law, Accountant-General (Ex-Officio).

BARWANI: His High-NESS DEVISINGHJI, RANA SAHEB of Barwani (Minor), Central India.

Born: On 19th July 1922.

Ascended the gadi on 21st April 1930.

Sisodia Rajput and a descendant of the Udaipur Ruling House. None of the rulers of Barwani was

ever a tributary of any of the Malwa Chiefs.

Being educated at Daly College, Indore.

Area of State: 1,178 square miles.

Population: 141,110.

Revenue: About Rs. 12 lacs.

Salute: II guns.

State Council appointed by Government to carry on Minority Administration.

Dewan and President:

SIR HARILAL N. GOSALIA, Kt., M.A., LL.B.

Revenue Member:

KHAN BAHADUR MEHERJIBHOY HORMUSJI.

Judicial Member:

RAI SAMEB M. S. DUTT CHOWDHARY, B.A., LL.B.

BHAVNAGAR: Lt. His HIGHNESS MAHARAJA RAOL SHREE SIR KRISH-NA-KUMAR SINHJI, K.C.S.I., MAHARAJA Of Bhavnagar.

Born: 19th May 1912. His Highness is a Gohel Rajput and a direct descendant of Sajakji who is said to have settled in the country about 1260.

Educated: Harrow, England.

Married: In 1931 to Vijiaba Saheba, the 3rd daughter of Yuvaraj Maharaj Kumar Shri Bhojrajji of Gondal. Has two sons.

Succeeded to the Gadi: On the death of his father, Maharaja Sir Bhavsinhji, K.C.S.I., on 17th July 1919. Invested with full

Sir Bhavsinhji, K.C.S.I., on 17th ruling powers on 18th April 1931.

Heir-Apparent: Yuvaraj Shri Veerbhadrasinhji.

Second Son: Kumar Shri Shivabhadrasinhji.

Area of the State: 2,961 square miles.

Average Annual Revenue: Rs. 1,59,98,695 including Railway.

Population (1931): 500,274.

Chief Products: Grain, Cotton, Sugar-cane and Salt.

The Bhavnagar State Railway is 307 miles in length. The Port of Bhavnagar has a good and safe harbour for shipping.

The noteworthy features in the administration of the State are the entire separation of judicial from executive functions and the decentralisation of authority. The authority and powers of all the heads of Departments are clearly defined and each within his own sphere is independent of the others being directly responsible to the Darbar.

PRINCIPAL OFFICERS.

Mukhya Dewan: Mr. Anantrai P. Pattani, M.A. (Cantab.)

Naib Dewan: Mr. NATAVARLAL M. SURATI, B.A., LL.B.

Judicial Assistant: Mr. Bhaskarrao V. Mehta, M.A., LL.B., Advocate (O.S.).

HOPAL: LT.-Col. HIGHNESS SIKANDER SAULAT IFTIKHAR-UL-MULK NAWAB SIR MUHAMMAD HAMIDULLA KHAN, BAHADUR, G.C.S.I., G.C.I.E., C.V.O., B.A., the present Ruler of Bhopal. succeeded his mother, the late Her Highness Nawab Sultan Jehan Begum, in May 1026. when weighed down by age and cares of state, she abdicated in his favour. Previous to his accession, His Highness had actively participated in the administration for nearly years as Chief Secretary and afterwards as Member for Finance and Law and Justice. His Highness was also the Chancellor Chamber of Princes during 1931-32, and

attended the various sessions of the Round Table Conference in London to advise and participate in the deliberations of that body and its

committees on the subject of political reform in India.

In the game of polo His Highness is well-known as one of the greatest players of the generation and enjoys international fame. No less conspicuous are his achievements in administration, which works directly under his personal and active supervision.

The administration is assisted by a Legislative Council, which represents traders, cultivators, Jagirdars, and general urban interests

elected through popular constituencies.

Bhopal is notable as a principal Islamic State of India, second only to the State of Hyderabad. It is rich in its deposits of iron, bauxite, mica, and other valuable minerals and is rapidly growing in industry.

Salute: 19 guns. (21 guns within the State).

Area: 7,000 square miles.

Population: 700,000.

Heiress-Apparent: The most Noble and Honourable Princess

Gauhar-i-Taj Šurayya Jah Nawabzadi Abida Sultan, Bahadur.

Other daughters of His Highness the Ruler of Bhopal: Princess Mihr Taj Nawabzadi Sajida Sultan and Princess Oamar Taj Nawabzadi Rabi'a Sultan.

EXECUTIVE COUNCIL.

President: A. M. Mu'tamad-us-Sultan, Rai Bahadur, Raja Oudh Narain Bisarya, Bahadur, Member, Revenue Department. Members: A. M. Mu'tamad-ul-Mulk, Zia-ul-Ulum, Mufti Md. Anwarul-Haq, M.A. (Finance); A. M. Mushir-al-Mulk Ali Qadr Qazi Ali Haider Abbasi (Political); A. M. Mr. Shuaib Qureshi, M.A. (Oxon.), LL.B., Bar-at-Law (Education and Robkarikhas); and A. M. Aminul-Mulk Walaqadr Mr. Salamuddin Khan, B.A., LL.B. (Law and Instice, P.W.D., and Publicity Bureau).

RIKANER: GENERAL HIS HIGHNESS MAHA-RAJADHIRAJ RAT RATESHWAR NARENDRA SHIROMANI MAHARATAH SRI GANGA SINGHII BAHADUR G.C.S.I., G.C.I.E., G.C.V.O., G.B.E., K.C.B., A.D.C., LL.D., the present Ruler of Bikaner, was adopted by his brother the late Maharaja Sri Dungar Singhji Bahadur. A fine type of Rathore Raiput. he affords an admirable example of what modern training can do for an Indian Prince.

He is the twenty-first Ruler of Bikaner since its foundation by Rao Bikaji in 1465 A.D., and is worthily upholding the traditions of his illustrious house for gallantry and loyalty. The figure twenty-one is regarded by Indians as a very lucky number and it has proved to be so for the Bikaner State, because the Maharaja has not only brought it to a pitch of efficiency and prosperity but in his time Bikaner has ranked among the foremost States of India and proved to the world what pillars of strength the Princes can be to the Empire. The services rendered by His Highness' Government form one of the brightest chapters in the history of British connection with India.

Born: On 13th October 1880.

Succeeded to the Gadi on 31st August 1887, and assumed full ruling powers in 1898.

Educated: In 1889 he entered the Mayo College at Ajmer, studied there till 1894. His Highness' career at the College, where he won seven medals and many other prizes, was exceptionally brilliant.

The Rathore clan of Rajputs has always been a race of warriors. It was by means of the sword that His Highness'

ancestors conquered and maintained, sometimes against overwhelming odds, the territory that has now come down to His Highness. The warlike spirit of the race has remained intact and on more than one occasion the Maharaja has proved himself a worthy scion of the distinguished race of warriors to which he belongs.

The establishment of the Walter Nobles School and the Dungar Memorial College are outstanding monaments of His Highness' zeal for education. Education, in all its stages and to all classes of people, is imparted tree in the State; and liberal scholarships are awarded to boys for higher education outside the State. The enactment of free compulsory primary education, the opening of a large number of Girls' Schools, the progress of the Boy Scout Movement, the opening of Libraries and adult night schools in the towns and villages of the State, are among other features of the progress made by the State in education.

The State possesses in the Capital two large and thoroughly well-equipped General Hospitals, one for men and one for women, costing over 15 lakhs. These Hospitals are under the charge of doctors of eminence and are recognised as two of the leading institutions in India. There are common to both the Hospitals:

an X-Ray and Radium Institute,

Pathological Department,

Ophthalmic Department, and

Dental Department,

all under highly qualified specialists.

The State also maintains an efficient Medical Department which through the agency of 46 hospitals and dispensaries provides adequate medical relief throughout the territories of His Highness.

It is not possible, in the space at our disposal, to detail all the measures of reform carried out by His Highness as the record has been one of phenomenal progress and development. Great improvements have been made in every branch of the administration and continuous attention is being paid to measures for securing the happiness and good government of the people. While the revenue has showed a marked increase, the expenditure on the nation-building activities has kept pace with the increased revenue.

No Indian Prince is better known or more honoured in the Empire than His Highness Maharaja Ganga Singhii who has to his credit a brilliant record of service to the British Crown which is neither surpassed nor equalled by any other Ruler of India. It is said that the path of duty is the path of glory, but in these days of scientific progress the discharge of duty alone without the power of brain, industry and sacrifices cannot help a leader in the position of the Maharaja of Bikaner, to rise to his fullest power. He has attained his unique position not only by a strict application to duty but by marvellous driving power that has been the surprise of those who came in contact with him. His Highness won the affection of his people during the long period of his brilliant and honourable rule by his constant industry. strenuous labour and sacrifices for their best interest. have been times in his remarkable career when the strain of work has impaired his robust health but he has refused to quit his post, A Prince who can conceive and execute a gigantic scheme costing several crores of rupees for fertilizing the barren and thirsty soil of Bikaner desert, whose income, not very many years ago, was only 20 lakhs of rupees, cannot but be a great genius; but his remarkable achievement does not stand alone; another sum of nearly three crores of rupees has been spent on railways, and to-day there is a network of railway in the State, the total open mileage being 883 miles. When to those are added the large sums of money spent for public welfare, modern educational institutions and well-equipped modern hospitals, one obtains an idea of the enormous stride of progress in Bikaner and the benefits which the people have derived from the benevolent rule of one of the greatest Rulers that Rajputana or any other part of India has produced. Compare the State as it is now with what it was twenty years ago, and the rapidity of the extent of progress it has made becomes still more obvious. The achievements of Maharaja Ganga Singhii will form enduring monuments of his services to the State.

His Highness was one of the first Ruling Princes in India to introduce a civil list for the governance of his personal expenditure, which he revised with the idea of increasing the benefits to his subjects. For some time he held the finance portfolio in his own

hands and managed with the greatest magnanimity and with the one object to make his subjects the better able to meet the strain which the irrigation works had placed upon them. The brilliant results of his loving labour for his beloved subjects during the best years of His Highness' life are patent in the great schemes which have been brought into existence, and for all the money laid out a substantial return is assured apart from the increased prosperity which the irrigation brings to the public

That a Ruler possessed of such rare distinction and rarer sense of duty, who has served his State in a spirit of whole-hearted devotion, worked for the promotion of its economic interest day in and day out and who has served the Empire with distinction on many historical occasions should also be a valuable asset to his own Order is natural and not at all surprising. He has been unsparing in his efforts to maintain the rights, the privileges and the dignity of the members of his own Order, and as a distinguished Chancellor has served the Chamber of Indian Princes with a spirit of devotion and ability that has left a permanent mark in the history of that Chamber.

His Highness the Maharaja of Bikaner has shown how the reform giving his people an active share and interest in the management of their country, may be introduced without belittling the dignity and rightful position of their reigning Prince, but rather with the effect of enlarging his happiness by giving him the supreme pleasure of watching his subjects grow in prosperity and contentment and of knowing in his innermost heart that his care and labour have made that possible and brought it about. By such exalted service all India is helped upon her way. For his devotion to India His Highness is entitled to the grateful acknowledgment of all who love India as their Motherland.

His Highness completed the 50th year of his reign in 1937.

 $\it Recreation: Motoring, Big game shooting, Riding, Tennis, Reading.$

Area: 26,397 square miles.

Population: 3,523,070.

Revenue: Two and half crores.

Capital: Gwalior.

Addresses: Jai Vilas, Gwalior, Madhav Vilas, Shivpuri.

On November 2, 1936, His Highness assumed full ruling powers. The Government of the State is carried on by a Council of Ministers under direct control of His Highness who is the fountain head of all authority in the State. The Council of Ministers is composed of eight

Ministers. The new constitution came into force since March 1937, when the work among the various Ministers was revised and redistributed. The special feature of the administration is the separation of judicial from executive functions and the decentralisation of authority. The State has a Legislative Assembly called Majlis-i-Am, to which members are both elected and nominated, but there is a majority of elected members. The State maintains an efficient Army consisting of Cavalry, Infantry and Artillery units. It has its own Postal system and a Light Railway. Besides possessing a number of schools the State has two Colleges for boys and one for girls. A Public School is run on European lines to impart education to the children of nobles and well-to-do persons.

Since the present Ruler assumed powers, vigorous impetus has been given to all-round moral and material progress. The construction of the Harsi Reservoir costing about 1½ crores, a proposal to construct an up-to-date Female Hospital and the sanction of one crore of rupees for Rural Reconstruction are the landmarks in the history of Gwalior. The network of roads has been utilised by the motor service run by Gwalior & Northern Indian Transport Company, and those places which were unconnected are now being joined with important highways. To bring Gwalior closer to the outer World His Highness has recently sanctioned the construction of a Seaplane Base, which will serve as a halting Station on the Imperial Air Line at Madhav Sagar and an Aerodrome at Maharajpur.

PERSONAL STAFF.

Salute: 21 guns.

Revenue: Actuals for 1938: 896.67 lakhs. Estimated for 1939: 905.11 lakhs.

The State has a Legislative Council of twenty members, eight of whom are elected and an Executive Council of six officials with a President. It maintains its own paper currency and coinage, postal system, railways and army. It has a University with six Arts Colleges including one for women and Colleges for Engineering, Medicine, Law and Teaching. It has also an Honours College affiliated to Madras University, a College for Jagirdars and a College of Physical Education. There are also a Central Cottage Industries Institute, a Central Technical College and an Observatory. The State is of great historical and archæological interest, as within its limits, are situated many old capitals of ancient and medieval Deccan Kingdoms, famous forts, temples, mosques and shrines and the wonderful Buddhist sculptures and paintings of Ellora and Ajanta.

Capital: Hyderabad—Population 466,894. It is the fourth largest city in the Indian Empire. The city is beautifully situated on the banks of the river Musi, with fine public buildings, broad cemented roads, good electricity and water supply and an efficient bus service run by the State Railway. Among interesting places are the Char Minar, the Mecca Masjid, the fort and tombs of Golconda and the large artificial reservoirs—the Osman Sagar and the Himayat Sagar.

EXECUTIVE COUNCIL.

President :

HIS EXCELLENCY THE RIGHT HONOURABLE SIR AKBAR HYDARI (Nawab Hydar Nawaz Jung Bahadur) P.C., Kt., B.A., LL.D., D.C.L., (with Railway, Mines, Political and Constitutional Affairs Portfolios).

Army and Medical Member:
NAWAB SIR AQUEEL JUNG BAHADUR.
Education and Finance Member:
NAWAB MAHDI YAR JUNG BAHADUR, M.A.
(OXOL.)

Revenue and Police Member:
Sir Theodre J. Tasker, Kt., C.I.E., O.B.E.,
I.C.S.

Public Works Member:
Raja Shamraj Rajwant Bahadur.

Finance Member:
Nawab Fakhr Yar Jung Bahadur.
(On leave)

Judicial Member: Nawab Mirza Yar Jung Bahadur. DAR: HIS HIGHNESS MAHARAJA
DHIRAJ SHREE HIMMAT SINGHJI OF
—The Idar House was founded
zoo years ago by two brothers of the
Maharaja of Jodhpur. His Highness
Maharaja Shree Himmat Singhji is the
roth of this illustrious line, and the
grandson of the well-known soldier and
statesman, His Highness Maharaja Major
General Sir Pratap Singhji Sahib of
Jodhpur fame. Maharaja Himmat Singh
succeeded to the Gadi on the sudden
death of His Highness Maharaja Sir
Dowlat Singh on the 14th April 1931.

Born: On 2nd September 1899.

Married: In the year 1908 Shree Jawahar Kunwar Sahiba, the eldest daughter of Raja of Khandela in the Jalpur State.

His Highness received his education at the Mayo College, Ajmer, where he

remained for 5½ years, leaving it after a brilliant career in 1916. He attained his diploma standing first in the list of candidates from all the Chiefs' Colleges in India and was awarded His Excellency the Viceroy's medal. He won every class prize from the fifth to the diploma, five prizes for English and eleven others for various subjects. He won prizes in each division in succession for riding, and represented the College against the Altchison College for 3 years at tent pegging, and also at tennis. For several years he was captain of one or other of the junior football or cricket elevens, and he was one of the best and keenest polo players in the college.

As will be seen, he upheld his family tradition as a horseman. From boyhood he was keen on hunting and pigsticking and before he had joined the College at the age of 10, he had accounted for many a panther and bear to his own rifle. His Highness now keeps a racing stable and has had many successes. These active sports are not his only recreation for he has a good ear for music and is interested in painting and photography.

On leaving the college, His Highness Maharaja Shree Himmat Singhji took an active part in the State administration being appointed to His late Highness' Council, and later for several years was in charge of the administration under His late Highness' personal directions. He gained further practical experience from an extensive tour throughout India in 1929-30. He was therefore well qualified to take up his responsibilities as Ruler of His State when he ascended the Gadi of Idar. Since his accession in 1931, many schemes of improvement have been inaugurated which concern the social welfare of his subjects, their education, industries and agriculture. His Highness has embarked on an ambitious programme of reform and advancement which it is expected his experience and keen personal interest will enable him to carry through successfully.

His Highness has got two sons, Maharaja Kumars Shree Daljit Singhji and Amar Singhji, the eldest Maharaja Kumar Shree Daljit Singhji, the heir apparent, was born in 1917.

Salute: 15 Guns. Area: 1,669 sq. miles. Revenue: Rs. 21 Lakhs.

Area of the State: 5,684 sq. miles. Population: Salute: 10 Guns.

Revenue: 51.70 lakhs.

Family History: The Ruling family belongs to the Hara sect of Chauhan Rajputs and is an offshoot of the Bundi family. The Kotah State came into existence about 1625 during the reign of Madho-Singhji, second son of Rao Ratan of Bundi. During the reign of the present Ruler the State has made considerable progress. Means of communication have been vastly improved, almost all departments reorganised and a revised land settlement introduced.

There is an efficient judiciary and justice is administered according

to the spirit of the law in force in British India.

There are 133 schools, 33 dispensaries and 420 Co-operative

Societies in the State.

The chief event of the present Maharao Sahib Bahadur's reign is the restoration of a major portion of the territory transferred under political exigencies of the time to form the Jhalawar State. The Nagda Muttra Section of the B. B. & C. I. and a portion of the Bina-Baran Railway runs through the State—a length of 28 miles over the latter being owned by the State.

Capital: Kotah on the B. B. & C. I. Railway. Other trading centres

-Baran and Ramganj Mandi.

Administration is carried on with the assistance of two ministers, Major-General Ap Onkar Singhji, C.I.E., a first class Jagirdar of the State and Rai Bahadur Sardar Kahn Chandji, a retired P.C.S. of the Punjab.

KUTCH: HIS HIGHNESS MAHARAJA DHIRAJ MIRZA MAHARAO Shri Khengarji Savai BAHADUR, G.C.S.I., G.C.I.E.. Maharao Kutch.

Educated at the Daly College, Indore.

The firstRani Saheba Shrimati Jadeji (married 1915) who died in 1930 was a daughter of His Highness Thakore Shrib of Dhrol in Kathiawar. The present Senior Rani Sahiba (married

1920), mother of the heir-apparent, is a daughter of Maharaj Shri Chhatar Singhji of Semlia, brother of the late Raja Sahib of Sailana State in Central India. The Junior Rani Sahiba is a daughter of Thakur Sahib Harishchander Singhji, a scion of the Royal family of Nepal.

The Ruler has two sons and two daughters, the elder Rajkumarisaheba has been married to the Rajasahib of Diara (U.P.).

Heir-Apparent: YUBRAJ GOVIND SINGHJI is being educated at the Mayo College, Ajmer.

Capital: Maihar, (G.I.P. Railway).

Area of the State: 407 square miles.

Population: 68,991. Annual Revenue-Nearly 5 lacs.

Lime and its derivatives form the chief industry of the State and a company has just been floated for the manufacture of Cement and its bye-products.

The agricultural and horticultural produce of the State include

food grains, oil seeds, sugarcane, fruit, etc., etc.

The presence in the State of inexhaustible deposits of the finest Limestone almost on the surface—with the railway passing through its heart from end to end is a promising factor for a wide industrial development—while there still remain very good prospects for industries like the manufacture of oil, soap, sugar, alcohol, dry ice and the like.

A thorough overhauling of the State machinery and remodelling it on up-to-date British Indian lines, Council consisting of officials and majority of non-officials Presided over by the Ruler established in 1928, to run the administration of the State and the construction and remodelling of the town, administrative buildings—Palace, Guest Houses, roads, electricity, irrigation canals, schools for free education and charitable hospitals are some of the conspicuous improvements that mark the progressive and prosperous regime of the present Ruler.

ANDI: CAPTAIN HIS HIGHNESS RAJA SIR IOGINDER SEN BAHADUR. K.C.S.I., the present Ruler of Mandi is a Rajput of Chanderbansi clan and it is traditionally asserted that the progenitors of the dvnastv ruled Inderprastha (Delhi) for over a thousand years.

Hon. Captain: 3/17 Dogra Regiment.

Born: 20th August 1904. Ascended the Gadi: 1913.

Invested with full ruling powers: 1925.

Educated: Queen Mary's College and Aitchison College, Lahore.

Received Administrative and Judicial Training in Lahore 1923-24. Married Twice. First the only daughter of His Highness the Maharaja of Kapurthala in 1923 and then the daughter of Kanwar Prithiraj Singh of Rajpipla in 1930.

Visited important countries in Europe in 1924 and 1932—Egypt, Palestine, Syria, Greece, Turkey, Balkans, etc. in 1927. Attended the Coronation of His Majesty King George VI and also visited France, Germany, Ozechoslovakia, Austria and Hungary in 1937.

Recreations: Shooting, Tennis and Cricket.

LALA DINA NATH, B.A., LL.B. (Elected member of the Legislative Council).

MIAN LACHHMAN SINGH. đo. Address: Mandi State, Punjab, India. Telegraph Address: "Paharpadsha" Mandi.

MAYURBHANJ: MAHARAJA SIR PRATAP CHANDRA BHANJ DEO, K. C. I. E., Maharaja of Mayurbhanj.

Born: February 1901.

Succeeded to the Gadi on the 23rd April 1928 on the demise of his elder brother Lieutenant Maharaja Purna Chandra Bhanj Deo.

The Maharaja is a member of the Chamber of Princes by his own right.

Educated: At the Mayo College, Ajmer, and Muir Central College, Allahabad.

Married: On the 25th November 1925, the daughter of Maharaj-Kumar Sirdar Singhji and grand-daughter of the late Rajadhiraj Sir Nahar Singhji, of Shahpura in Rajputana

Heir-apparent: Tivait Pradeep Chandra Bhanj Deo.

Area of State: 4,243 square miles. Population: 889,603. Revenue: Rs. 33,00,000. Salute: Permanent salute of 9 guns.

Mayurbhanj ranks first in point of population among the States of the Eastern States Agency, numbering forty-two, twenty-six of which were till recently known as the Orissa States, fourteen as the Central Provinces States, and two as the Bengal States. The history of its Ruling family goes back into hoary antiquity and numerous copper plate grants and archæological finds testify to its powerful sway, and to the vast domains that constituted the territory of the Bhanja Kings, for hundreds of years. Its geographical and strategic position constituted it an important buffer State at the time when the East India Company and the Mahrathas were engaged in a struggle for supremacy in Eastern India and Mayurbhanj assisted the British cause. During the Mutiny of 1857, the Ruler of Mayurbhanj again distinguished himself as a loyal ally of the East India Company. The State is administered very much on British Indian lines, judicial independence, which has been secured under a full-powered High Court, being a special feature of its administration. The State is rich in mineral and forest resources and supplies the bulk of the iron ore needed for the Tata Iron and Steel Works of Jamshedpur. The activities of the Geological Department, recently organised by the State, are likely to lead to valuable results. The present administration is making every effort to promote the industrial interests of the State. The Maharaja is keen on aviation, and the State owns three aeroplanes and maintains a well-equipped aerodrome at Baripada, the capital of the State.

MAHARAJA SHREE LUKHDHIRJI BAHADUR, K.C.S.I., Maharaja of Morvi.

Born: 1876.

Ascended the Gadi: 1922. Educated: Privately in India and England.

Heir: YUVARAJ SHREE MAHENDRASINHII.

Second Son: Maharaj Kumar Shree Kalikakumar.

Area of State: 822 square miles. Morvi State has a district in Cutch also with an area of about 50 square miles. Population: 113,024 in 1931. (Increase during 1921-1931, 17 per cent.)

Average Revenue: Rs. 50,00,000. Salute: II guns.

Chief Port in the State: Navlakhi. Regular periodical service of ocean-going steamers from Europe, Japan, Java as well as Indian Ports.

Morvi Railway, solely the property of the State, 133 miles. Morvi Tramway, 63 miles.

State Postal Service, post offices in over 60 per cent. of the State villages; letter-boxes in a further 20 per cent. of them.

State Telephone, over 40 per cent. of the villages directly connected with the capital city.

Industries in the State: Cotton Pressing and Ginning Factories, Parshuram Pottery Works, Ltd., Morvi Salt Works, Railway Workshop, Electric Power House, the Morvi Cotton Spinning & Weaving Mills, Shree Mahendrasinhji Glass Works, Mayur Metal Works and the Bone Factory.

Free primary and secondary education.

Married: The Princess of H.H.
THE MAHARANA OF DHARAMPUR
STATE (Surat Dist.) in May 1932.
A Maharajkumari was born in
March 1933. A son and heir was
born on 7th March 1936.

Another Maharaj Kumari was born in February 1939.

The first younger sister of the RAJA SAHIB was married to H.H.

the Maharaja of Sirmoor State on the 15th April 1936.

The Rulers of Nagod are Parihar Rajputs, one of the four Agnikula clans, whose traditional home is on Mount Abu. The history of their migration into Bundelkhand and Baghelkhand is of considerable interest, but exceedingly difficult to unravel. The Ruler of Nagod received a Sanad from the Government in 1809.

Nagod is a Sanad State in Central India.

Area: About 501.4 square miles.

Population: 74,589 according to the census of the year 1931. Geologically, Nagod presents several features of interest. Limestone of a superior quality known commercially as Nagod Limestone, is found in the form of low hills close to the chief town, and is the most valuable course of lime yest known in India.

source of lime yet known in India.

For purposes of administration, a Legislative Assembly of 25 members, 15 elected by the public and 10 nominated by the Darbar has been established and the State is divided into 4 Tehsils. Elementary and secondary education has all along been given free in the State. Liberal scholarships are also granted for secondary and higher education. The State has also provided for free medical aid to all irrespective of caste and creed.

His Highness is a Yusufzai Lohani Pathan.

H. H. is the 29th Ruler of the House.

Palanpur is a very ancient Muslim State in India.

His Highness went as a Delegate to the 9th Assembly of the League of Nations held at Geneva in the month of September 1928.

His Highness the Nawab Saheb Bahadur was invited by His Imperial Majesty the King-Emperor to England in the year 1937 as His Majesty's Honorary A.D.C. on the auspicious, occasion of His Majesty's Coronation.

Heir: NAWABZADA SHRI IQBAL MUHOMMED KHAN BAHADUR.

Area of State: 1,774.64 square miles.

Population: 265,424.

Revenue: Rs. 11,64,987.

Salute: 13 guns.

A considerable trade in Cloth, Grain, Sugar and Rice is carried on. The capital is Palanpur situated on the B. B. & C. I. Railway. It is a very old Settlement of which mention was made in the 8th century.

Wasir: S. K. NAYAMPALLI, ESQUIRE, B.A., LL.B. Judicial Advisor: Dewan Bahadur K. M. Jhaveri, M.A., LL.B., J.P.

Customs & Education Minister: D. V. PATWARI, ESQUIRE, B.A., LL.B.

Revenue Minister! K. S. DESAI, ESQUIRE, B.A.

PARTABGARH STATE:
HIS HIGHNESS MAHARAWAT SIR RAM SINGHJI
BAHADUR, K.C.S.I., of
Partabgarh.

Born: In 1908.

Succeeded to the Gadi: In 1929.

Hereditary Salute: 15 guns.

Partabgarh State, also called the Kanthal, was founded in the sixteenth century by a descendant of Rana Mokal of Mewar.

The town of Partabgarh was founded in 1698 by Partabsingh. In the time of Jaswant Singh (1775-1844) the country was overrun by the Marathas, and the Maharawat only saved his State by agreeing to pay Holkar

a tribute of Salim Shahi Rs. 72,700 (which then being coined in the State Mint was legal tender throughout the surrounding Native States), in lieu of Rs. 15,000 formerly paid to Delhi. The first connection of the State with the British Government was formed in 1804; but the treaty then entered into was subsequently cancelled by Lord Cornwallis and a fresh treaty was made in 1818. The tribute used to be paid to Holkar, is being paid to the British Government under the terms of the treaty of Mandsaur and was, in 1904, converted to Rs. 36,350 British Currency. As the amount of tribute was excessive, it has now been reduced to Rs. 27,500 from the year 1937-38. The State enjoys plenary jurisdiction. The highest administrative and executive office is termed "Mahakma Khas" where sit His Highness and the Dewan of the State. There is a duly graded judiciary under a High Court. Revenue about 5\frac{1}{2} lakhs.

PRINCIPAL OFFICERS.

Offg. Dewan: SHAH MANAKLAL, B.A., LL.B.

Kamdar Khasgi: SHAH MANNALAL.

Private Secretary to His Highness: Mr. Pheerozeshaw Fardoonji.

Revenue Officer: MAHARAJ BALWANT SINGH.

Civil and Criminal Judge: BABU MOHANLAL AGRAWAL, B.A., LL.B. Superintendent, Customs and Excise: BAPU BAKHTAWAR SINGH.

Medical Officer: DR. JIWANLAL P. PAREKH, L.M.& S.

Educational Officer: Mr. W. G. KALE, B.A.
Superintendent of Police: PUROHIT JAGDISH LAL.

PATIALA: His Highness FARZAND-I-KHAS DAULAT-I-INGLISHIA MANSUR-UL-ZAMAN AMIR-UL-UMRA MAHARAJA DHIRAJ RAJ RAJESHWAR SHRI MAHARAJA-I-RAJGAN SHRI YADAVINDRA SINGHJI MOHINDER BAHADUR YADU VANSHAVATANS BHATTI KUL BHUSHAN, the present Ruler of Patiala, which is the largest of the Phulkian States and the Premier State in the Puniab.

Born: 7th January 1913. Succeeded: 23rd March 1938 on the demise of his father Maharaja Sir Bhupindra Singhji Mohinder Bahadur. His Highness and his successors are exempt from presenting Nazar to the Viceroy in Darbar in perpetuity.

His Highness is an all round sportsman—a first class shot, a great angler, a crack tennis player and a superb cricketer. It is, however, in cricket that his prowess is so well known. He was awarded the All-India Colours in 1933 when he played against the Australian team in the last match at Bombay.

Since his accession to the Gadi His Highness has introduced many reforms of far reaching character. The creation of a Public Health Department, the improvement of Medical services in the State through the introduction of touring dispensaries, the abolition of many "Birs" and reserved areas in the plains, the remission of arrears in land revenue, the passing of Small Towns Act, the building of an Olympic Stadium at Patiala and the establishment of the Bhupindra Cement Works; are but a few instances of His Highness' great initiative in promoting the welfare and prosperity of his people.

The State is rich in antiquities, especially at Pinjour, Sirhind, Bhatinda, Narnaul, etc. It possesses valuable forests. 138 miles of broad-gauge Railway line have been constructed by the State at its own cost.

The State maintains a first grade College at the Capital. Primary education is free throughout the State. The Darbar sanctioned a scheme of compulsory education in 1928.

His Highness maintains a Contingent of two Regiments of Cavalry and four Battalions of Infantry, also one Battery of Horse Artillery. Since the State entered into alliance with the British Government in 1804 and 1809, it has rendered help on all critical occasions. Its proud record of service during the Great War is unsurpassed.

Area of the State ! 5,932 square miles. Population ! 1,625,230, Gross Annual Income ! Rs. 1,57,00,000. Salude—17 guns.

PATNA: MAHARAJA RAJENDRA
NARAYAN SINGH DEO, the
present Ruler of Patna
State, E. S. Agency.

Born: 1912.

Ascended the Gadi: 1933.

Educated: At the Mayo College, Ajmer, where he passed the Chiefs College Diploma Examination at the head of successful candidates and at St. Columbia's College, Hazaribagh, where he passed the Intermediate Arts Examination of the Patna Univercity, topping the list of successful candidates of that institution.

Married: In 1932 the daughter of His Highness the Maharaja-dhiraj of Patiala. History: Maharaja-raja Ramai Deo, a direct descendant of Prithwi Raj Chauhan,

the last Hindu Emperor of India, founded the State of Patna about 1159 A.D. The Maharajas of Patna have enjoyed the hereditary title of Maharaja from the very beginning. Patna State is identical with the ancient "Dakshina Koshala" which was the kingdom of Kusha, the second son of Rama. Its various architectural ruins bear testimony to the ancient culture and civilization which flourished there in the olden times. The State was taken under British protection in 1803 and it has remained ever since extremely loyal and is well known for its uniform devotion to the British Government. Patna is a well governed and progressive State and all its valuable resources are spent on works of public utility. It possesses very good educational and industrial institutions. Primary education is compulsory for all its subjects. It has a fully equipped Hospital at the Capital, with many outlying Dispensaries and a Child Welfare Centre. There are telephone and telegraph connections in the important towns of the State. It has beautiful valleys having enchanting scenery and an abundance of Shikar of all kinds of birds and beasts, particularly tigers.

Rewa is the largest and the easternmost State in the Central India Agency. The State is bounded on the North by the Banda, Allahabad and Mirzapur Districts of the U.P., on the East by the Mirzapur District and the Feudatory State of Chhota Nagpur, on the South by the Central Provinces, and on the West by the States of Maihar, Nagod, Sohawal and Kothi. The State has a number of 'Waterfalls,' some of which, Chachai and Keoti are famous for their height and grandeur. The State is very rich in mineral resources.

The Administration of the State is carried on in the name and under the direct control of His Highness the Maharaja who is the fountain head of all authority in the State. On the executive side His Highness is assisted by a State Council of 7 members of which His Highness himself is the President. On the Judicial side there is a Chief Court consisting of Judges. A Raj Parishad consisting of 41 members with the number of officials and non-officials almost equal, has also been established to advise on such matters of public interest as are referred to it. His Highness takes very great interest in the Administration of the State and in the development of trade and industries for which purpose he has instituted a State Bank with branches all over the State.

SACHIN: HIS HIGHNESS
MUBA - RIZ-UD - DAULAH,
MUZZAFFER - UL - MULK,

Educated: At home and later at the Rajkumar College, Rajkot.

Sachin is the Senior Habshi State in India. The Rulers of Sachin are Habshi Mohommedans, and are the lineal descendants of Nawab Bahadur Sidi Abdul Karim Mohommed Yakut Khan I. Over a family dispute for the Throne of Janjira Sidi Abdul Karim Mohommed Yakut Khan I left Janjira and joined forces with the Peshwa. In 1791 a triple treaty was concluded between Sidi Abdul Karim Mohommed Yakut Khan I, the Peshwa, and the East India Company, on the basis of an offensive and a defensive alliance. By this Triple Alliance Sidi Abdul Karim Mohommed Yakut Khan I took the State of Sachin. The Ruler of Sachin is a Member of the Narendra Mandal (Chamber of Princes) in his own right and is internally fully Sovereign. The State pays no tribute either to the British Government or to any other State.

Sachin: The Capital of the State and a pretty town on the B. B. & C. I. Railway.

Married: The daughter of H. H. the Maharawat of Partapgarh in 1909 and after her demise, the daughter of the

Rawatji Sahib of Meja.

Heir-Apparent : Maharai Kumar Digvijaya Singh Ji, born on the 15th October 1918, passed the B. A. Examination from the Mayo College, Ajmer.

Second Son: Rajkumar Lax-man Singh Ji. born on the 21st

February 1921.

His Highness is a descendant of the Rathor Raiput clan

of the Jodhpur House and is the eleventh Ruler of Sailana, a mediatized independent State in Central India. The Judicial Powers of His Highness are plenary. The Rajputs of the surrounding non-

Rajput States consider His Highness as their head.

The Rajputs of India in general consider His Highness as one of the foremost leaders and a distinguished member of the community. His Highness has held various offices in the All-India Kshatriya Mahasabha ever since he joined it in 1919, till 1933, when he ceased to take an active part, owing to reasons of health, but still continues as a member and his advice and guidance are always eagerly sought. The Head Office of the Mahasabha remained at Sailana from 1919-1920, 1923-1925 and 1926-1933, when His Highness held the office of the General Secretary. His Highness is a patron of the Mahasabha and has presided over its annual sessions and celebrations at Puri in 1920, Benares in 1921, Delhi in 1926, Indore in 1928. Hoshangabad in 1929 and Darbhanga in 1930, is President of Kurukshetra Restoration Society, Thaneshwar, and Council of Bharat Dharma Mahamandal, Benares; Member General Council of the Mayo College, Ajmer, Daly College, Indore, and Princes' Chamber, Delhi.

During the reign of His Highness the local vernacular school was made a High School and a new school building and a Boarding House were constructed. Education is compulsory and almost free, and Medical Aid is free throughout the State. A new Hospital has been built with facilities for indoor patients and an up-to-date Maternity Ward. He has granted a democratic constitution to the local Municipality and established an Industrial free Mandi at Dileepnagar and an Agricultural Farm in the Capital. Diwan: Khan Bahadur Munchi

Enavat Husain.

Area of the State 1 297 square miles; Population: 35,223; Revenue; Rs. 3.00.000; Salute: 11 guns. Address: Sailana State, (Central India).

SIRMOOR: His Highness Lieutenant Maharaja Rajendra Prakash Bahadur, the present Ruler of Sirmoor.

The ruling family is a branch of the Bhati Rajput house of Jaisalmer in Rajputana, and has been in possession of the State since A.D. 1095. The State has recently been transferred from the Punjab States Agency to the Punjab Hill States Agency.

Area of the State: 1,141 square miles.

Annual revenue: Rs.12,00,000. Population: 148,568.

Salute : 11 guns.

His Highness was born on the 10th January, 1913. He was carefully educated during the

lifetime of his father who took special interest in giving his son the all-round training required for shouldering the heavy responsibilities of a ruler. When his father Lieut...Col. His Highness Maharaja Sir Amar Prakash Bahadur, K.C.I.E., was absent in Europe, the administration of the State was placed in the hands of a council and the present Ruler was also put in it to gain practical training and knowledge of the administrative intricacies. The young Prince, a good scholar and intelligent far beyond his years, took full advantage of this arrangement and picked up the details of administration very quickly. In recognition of his exceptional administrative abilities he was installed to his ancestral gadi, much before the due time, in November, 1933, when he was only 21 years old.

The young Maharaja is a keen all-round sportsman. The breadth of his outlook and keenness of his intellect is manifest in all his administrative achievements. He has given strong proofs of these by introducing various remarkable progressive changes in his State within the short space of about five years and a half. When he took over the reins of government of the State, the administration was carried on by the Ruler with the assistance of four Secretaries and a separate High Court, of which the Ruler himself was the Chief Justice. Under the new constitution introduced by the present Ruler, a Council of four Ministers has been established to carry on the administration. A retired District and Sessions Judge from the U.P. Government has been appointed Chief Justice who administers Justice with the assistance of another qualified lawyer appointed as a puisne Judge. All the departments have been thoroughly overhauled and highly qualified and experienced officers have been appointed to run them.

With a view to ameliorate the economic conditions of the poor, a Rural Uplift Committee has been appointed to suggest, after thorough enquiry into local circumstances, ways and means of improving the lot of the poor peasants, and redeeming their old debts. A Co-operative Department has been created and 80 societies have already been established. An annual Agricultural and Industrial Exhibition is regularly run and great pains are taken to give various useful agricultural and industrial demonstrations before the cultivators. Experts are always invited to teach the ignorant cultivators the elementary laws of maternity and child welfare. People are also being taught by magic lanterns and lectures to take preventive measures against dangerous diseases.

An agricultural expert was engaged in 1937 to make an agricultural survey of the whole State and to submit his report recommending measures for introducing better methods of cattle breeding and cottage industry in the State. The Rural Uplift Committee appointed in 1937 has also concluded its labours and submitted its report to the Darbar. Important legislative and administrative measures are expected as a result of this report.

The education and training of the future generation has not been neglected by His High-

ness, who has made generous grants to educational institutions boys. He has started a Kannya Mahavidalaya also, and is contemplating a scheme of introducing Primary education throughout the State.

and Miners, commanded by an

istan and offered aid in Egypt. They served in Mesopotamia also but were unfortunately shut up with General Townshend's forces in Kut, and only a small

corps, which was employed at the base at Basra, escaped capture.

The State Crest & Coat of Arms.

The Maharaja takes great interest in the training and progress of the Sirmoor Sappers

The Maharaja is a staunch believer in Federation and thinks that the only way out of the present political difficulties lies in a true federal combination of provinces and the states under the British Crown.

COUNCIL:

H.H. THE MAHARAJA SAHIB BAHADUR.

MR. N. N. ROY, M.A., LL.B., Foreign and Political Minister.

MR. G. P. SAKENA, B.A., (P.C.S. Retired), Minister for Law and Iustics.

MR. R. G. ABBHI, Esq., B.A., (N.U.), Revenue Minister.

P. BHAGWANT SWAROOP, B.A., LL.B., Council Secretary.

ANT: MAHARANA SHRI JORAWARSINHJI, the present Ruler, born on 24th March 1881 and Gadi installed on the in Formally invested with full powers on 10th May 1902. Educated in the Rajkumar College, Rajkot, and was associated with the administration of the State for more than a year preparatory to his being invested with full powers. He is an intelligent Prince who keenly supervises the administration of the State. During his regime many improvements have been made and the State is making good progress: The revenue of the State increased-Its lands have been surveyed and regular settlement introduced-Provision for English education made for the first time and Primary and Secondary education made free throughout the State-Election system sanctioned for Municipality-

Free medical relief extended by opening new dispensaries in the district. Many other improvements have been introduced during his regime such as founding of a permanent Relief Fund and granting of liberal tagavi loans to the agriculturists during the time of scarcity. Money is also advanced to the local merchants by way of encouragement at cheap rate of interest. Other improvements of utility such as installation of electricity in the towns of Sant and Rampur, clock tower, public gardens, metalled roads in parts have also been made. The regime of Maharana Shri Jorawarsinhji has been anything but a bed of roses. Famine and lean years had made the inancial condition of the State far from satisfactory; but wise management has been instrumental to keeping its head up.

The Rajaji exercises full powers and enjoys a dynastic salute of 9 guns. Primogeniture is the rule of succession to the Gadi and the Darbar's right of adoption has been recognised and confirmed by Government.

During the Great War the services of the Rajaji Saheb were appreciated by Government. The Government were also pleased to recognise the right of the Rajaji to be a member of the Chamber of Princes.

The Ruling Family in the Sant State belong to the Puar or Parmar caste of Rajputs and are believed to have descended from the celebrated family of Vikramaditya and Raja Bhoj of Ujiain. They first came down from Dhar and settled at Jhalod and finally about the rath Century at Sant. The founder of the family was Rana Sant who with his brother Limdev was forced to leave Jhalod and established himself at Sant.

Ares: 394 square miles.

Population: 83,531 (1931).

Revenue: Rs. 3,96,464.

Hole-apparent: Maharaj Kumar Shri Pravinsinnji born on ist December 1907.

Educated in the Rajkumar College, Rajkot.

Married Maharaj Rajkumari, daughter of Maharaj Kumar Shri Vijayarajji, Heisapparent, Cutch State, on 15th May 1928, at Bhuj.

With effect from the 1st April 1933, all the Bombay States were brought into Political relation with the Government of India through the Agent to the Governor General for the Gojrat States and Resident at Baroda with head-quarters at Baroda. Since then the Sant State has been in direct political relation with the Government of India.

The supervision and management of the Vaccination Department of the State has been transferred to the State from 1st December 1933, by Government and the Chief Medical Officer of the State has been appointed as the head of the department.

Unrestricted control and management of the State schools was transferred to the State by Government from 1st May 1933.

ONK: HIS HIGHNESS SAID-UD-DAULAH WAZIR-UL-MULK NAWAB HARIZ SIR MOHAMMED SAADAT ALL KHAN BAHADUR SOWLAT-I-JUNG, G.C.I.E., Nawab of Tonk State (Rajputana), is an Afghan of the Buner tribe known as Salarzie.

Born: 1879.

Ascended the Gadi on 23rd June 1930 on the death of his father H.H. Sir Mohammed Ibrahim Ali Khan Bahadur, G.C.S.I., G.C.I.E.

Educated: Privately and is an Arabic and Persian Scholar.

Area of State: 2,553 square miles.

Population: 317,360 according to census of 1931.

Revenue: Rs. 21,76,283. Salute: 17 guns.

The administration of the State is carried on by His Highness with the help of a State Council, which has also recently been reorganised and put on a firmer constitutional basis by the passing of the State Council Act. The personnel of the State Council is as follows :--

ADMINISTRATION.

President: HIS HIGHNESS THE NAWAB SAHIB BAHADUR.

Vice-President and Finance Member: LT.-Col. G. W. Ander-SON. C.I.E.

Home Member: Khan Bahadur Sz. Mohd. Abdul Tawwan KHAN.

Judicial Member: Khan Bahadur Shamsul Hasan.

Revenue Member: M. SYED NASIR UDDIN HYDER.

Development Member: MAULVIE MOHD. MAULA BAKSH, M.A.

Secretary: M. HAMID HUBAIN. B.A.

RAVANCO RE: His HIGHNESS SRI PADMANA-BHA DASA VANCHI PALA SIR BALA RAMA VARMA KULASEKHARA KIRITAPATI MANNEY SULTAN MAHARATA RATA RAMARATA BAHADUR SHAMSHER IANG G.C.I.E.. D.LITT. (Andhra). Maharaja of Travancore.

Born: 7th November 1912.
Ascended the Musnad on 1st
September 1924. Invested
with Ruling Powers on 6th
November, 1931.

Educated: Privately.

His Highness is Colonel-in-Chief
of the Travancore State Forces.

Travancore is one of the most populous and important of Indian States and occupies the south-west corner of the Indian Peninsula. It is bounded on the North by the State of Cochin and the District of Coimbatore, on the East by the Districts of Madura, Ramnad and Tinnevelly and on the South and West by the Indian Ocean and the Arabian Sea. It is a very picturesque portion of Southern India, containing an extensive hill region, numerous rivers, and a succession of backwaters and vast forests.

The State now stands in the forefront of educated India. According to the Census of 1931, the number of literates per 100 of the population excluding children under 5 years of age is 28.9. For males the figures are 40.8 per 100, and for females 16.8.

Although the Ruler of Travancore is legally the source of all authority, judicial, administrative and legislative, yet for more than half a century the Maharajas have acted as constitutional monarchs, without, however, failing to maintain effective personal contact with the administration of the State. His Highness the present Maharaja, has not only sedulously adhered to these great traditions of his House, but has readily responded to all the legitimate aspirations of his subjects. In November 1936, His Highness promulgated the epoch-making Proclamation throwing open all the temples under his control and that of his Government to all classes of Hindus,

including those hitherto regarded as untouchables, a reform which evoked universal satisfaction and thankfulness all over the world. By another Proclamation

November 1937, a University designed specially to promote technological studies and research has been established. The Government of His Highness have taken in hand the first instalment of a scheme of nationalising the transport system of the State and have established The Travancore Credit Bank for granting long-term loans to the agriculturists and small industrialists of the State. To reduce unemployment and to exploit the immense natural re-SOUTCES o f the State, the Govern-

H.H. Maharani Setu Parvati Bayi, Mother of His Highness.

ment have embarked upon a programme of industrialisation.

The Government of the State is conducted in the name and under the control of His Highness the

Maharaja. There is a Legislature consting of an Upper and a Lower House, with a majority of elected members and possessing large legislative and financial powers and powers of interpellation.

Trivandrum, the capital of Travancore, is a terminus of the South Indian Railway. whole State covered by a network of roads and canals with a well regulated system of road and water transport. There exists also a weekly mail air service between Bombay and Trivandrum.

This has been extended to Trichinopoly which is on the Madras-Colombo Air Mail Route.

Area of the State: 7,625 square miles. Population: 5,095,973 as per census of 1931. Revenue: Rs. 261 Lakhs. Salute: 19 guns, local 21 guns.

Heir-Apparent: His Highness Martanda Varma Elaya Raja. Heir-Presumptive: His Highness Prince Avittam Thirunal.

The Andhra University has conferred the title of D.Litt. on His Highness the Maharaja and Her Highness the Maharani. The Benares University has conferred the title of D.Litt. on Her Highness the Maharani.

Dewan: Sachivottama Sir C. P. Ramaswamy Aiyar, K.C.I.E.

DAIPUR: His
HIGHNESS MAHARAJAHDHIRAJ
MAHARANA SHREE SIR
BHUPAL SINGHJI
BAHADUR, G.C.S.I., Ruler
of Udaipur, the Premier
State in Rajputana.

Recreation: Shooting, riding, tennis, motoring and racing.

Clubs: Vice-Patron of the Cricket Club of India; Western India Turf Club and Western India Automobile Association.

Marriage in 1934 with Princess Kamala Devi of Gwalior who unfortunately expired in 1934.

Area of State: 498 Square miles.

Population: 92,605, according to the census of 1931.

Income: Rs. 7,58,000.
Capital: Akalkot.

Judicial: Independent High Court of Judicature.

The present Ruler is extremely popular among his subjects whose welfare and prosperity are his constant aim in life. Shrimant Raja Saheb is alive to the rapid progress going on in the civilised world, and as such has declared on the occasion of his 22nd Birthday free primary education in all village schools. Primary and secondary education is imparted free to girls of all castes and creeds. Scholarships and free education in secondary and higher educational institutions are given to poor and deserving students. Separate High School for girls has been newly opened. There is a fully equipped hospital at the Capital with a branch at Karjagi. A new branch at Piliv Petha is shortly to be opened. There are many places of interest in the State, chief of which are: the Water Works at Sangwi, costing about eleven lacs and the Armoury Hall in the Old Palace. There is a Municipality at Akalkot and Taluka Local Board. The scheme of opening a Central Bank at Akalkot is under consideration. Town Planning and removal of congestion in the town is going on rapidly. A development Scheme of town-extension is in progress and all possible facilities are · being given for the same to the public.

Dewan: RAO SAHEB V. B. PARULEKAR, B.A.

AMRA: RAIA BHANU GANGA TRIBHUBAN DEB. Ruler of Bamra State in the Eastern States Agency, belongs to the Gangabanshi Rajputs. The emblem of the State is a Sankh and a Chakra.

Raja Satchidananda Tribhuban Deb died on the 11th March 1916 and was succeeded by his eldest son. Tikayet Dibyasankar Deb, under the name and title of Raia D. Sudhal Deb, who was granted a C.B.E. on the 1st January 1010 for services in connection with the War. Raja D. Sudhal Deb died on the 1st January 1920 and was succeeded by the present Ruler. The administration

of the State is maintained on efficient lines and much has been done towards opening out the State by the construction of good surface roads, and all round improvements in agriculture and Dairy Farming. A model dairy has been recently started and also

Palace Superintendent: BABU B. N. SAMANT SINGHAR.

HADARWA: SHRIMANT (NAMDAR) THAKORE SAHEE SHREE NATVERSINHJI RANJITSINHJI, Ruler of Bhadarwa.

Born: 19th November 1903. Succeeded to the Gadi: 26th April 1935 and formally invested with powers on 7th October 1935.

Educated: At Rajkumar

College, Rajkot.

Family descent: The Ruling family belong to the Vaghela clan of Rajputs and trace their descent from the famous Karan Vaghela, the last Rajput King of Gujarat. In the middle of the Fifteenth Century, they migrated and established themselves at Jaspur, the old capital of the State. During the period

of the Mahommedan and Maratha invasions the State preserved its complete independence.

Capital: Bhadarwa is situated on the banks of the River Mahi with its ancient temples and ramparts.

Area: 27 Square Miles. There are several Wantas in the Baroda State. Population: 11,048 Souls. Revenue: Rs. 1,14,000.

Marriage Relations: The Ruler married on 14th December 1930, Shree Jijirajkunvarbasaheb of Rajpar (Kathiawar). The State is connected by marriage ties with Dhrangadhra, Sayla, Dhrol, Alirajpur, etc.

Powers: The State enjoys full Civil powers and in Criminal matters up to 7 years R. I. and fine up to Rs. 10,000. The Ruler is a Representative Member in the Chamber of Princes.

Progress and reforms: The State is loyal to the British Government and is very progressive. Survey settlement has been introduced and the farmers are given rights over the lands. Education is free throughout the S ate. There is one middle school up to five standards, in the capital. The capital is supplied with electricity and has water-works. The State maintains an adequate and efficient staff.

Karbhari: Mr. Gaurishanker M. Bhatt, B.A., LL.B., Advocate.

Nyayadhish: Mr. J. M. Vachharajani, High Court Pleader.

Medical Officer: Mr. B. B. Patel, M.B.B.S.

Address: Bhadarwa (Gujarat States Agency).

JAMBUGHODA: RANA
SHRI RANJITSINHJI GAMBHIRSINHJI is the present
Ruler of Jambughod State, in
the Gujerat States Agency.

Born: On 4th January 1892. Succeeded his father on 27th September 1917 and was installed on the Gadi on 2nd February 1918. Educ: At the Rajkumar College. Rajkot.

The Rulers of the State belong to the Clan of Parmar Rajputs who once ruled over Malwa.

The State first came into relations with the British Government in 1826 A.D., and by a subsequent Treaty executed in the year 1839 A.D. the State came to be ranked as a "protected State" under the aegis of the British Government. At

present the State is in direct political relations with the Government of India through the Gujerat States Agency. The present Ruler is the fountain-head of all authority, judicial, executive and legislative. He enjoys plenary powers in civil and criminal matters and has powers of life and death over his subjects, except that sentences of death require the confirmation of the Resident for the Gujerat States.

The Rana Saheb was the founder of the Mahikantha Rewa Kantha Chiefs' Association, and in that capacity he presented the case of 104 smaller States of these Agencies before the Indian States Enquiry Committee (Financial) at Bombay in February 1932. He is a patron member of the All-India Kshttriya Mahasabha and the Cutch, Kathiawar and Gujerat Rajput Samaj, and also a member of the Willingdon

Sports Club, Bombay and Agency Gymkhana, Godhra.

The Rana Saheb is extremely popular among his subjects whose welfare and prosperity are his constant aims in life. During his regime he has effected several improvements in education, medical relief, agriculture, communications, etc., with the result that the State is making good progress in all directions. A thorough overhauling of the administrative machinery of the State, and the separation of the judiciary and executive as well as the construction of buildings for Hospitals, Schools, Library, Telephone lines, Guest Houses, and irrigation wells, tanks, etc., mark his progressive rule. The Rana Sahebis a keen sportsman and has bagged 62 panthers and two tigers. He is also a keen social reformer. The Ruler's loyalty, devotion and helpfulness to the British Government are well-known. During the Great War he sent several recruits and contributed liberally to the several War Funds.

Area: 143 square miles. Population: 11,385 Souls. Revenue: Rs. 1,42,000. Heir-apparent: Maharajkumar Shri Digvijaysınhji, born on 12th August 1922, is being educated at Panchgani in the

European Boys' High School.

JAMKHANDI: RAJA
SHRIMANT SHANKARRAO

The Rajasaheb has been a representative member of the Princes Chamber for Group IV for the last ten years. The State has pro-

vided for free Medical Aid.

Diwan: RAO BAHADUR R. K. BHAGWAT. He is also the ex-officio President of the Jamkhandi State Representative Assembly and Collector and District Magistrate.

Nyayamaniri: Rao Saheb B. B. Mahabal, B.A., LL.B. He is also the High Court Judge.

Private Secretary: MR. M. B. MAHAJAN, B.A., LL.B.

JASDAN: DARBAR SHREE ALA KHACHAR, the present Ruler of Jasdan.

Born: on 4th November 1905.

Educated: at the Rajkumar College, Rajkot, and has passed the Diploma examination.

Succeeded to the Gadi in June 1919, and assumed the reins of State administration on 1st December 1924.

Jasdan is the premier Kathi State and the Rulers are Saketiya Suryavanshi Kshatriyas, being descendants of Katha, the younger son of the Suryavanshi Maharaja Karan Shruta, of Ayodhya.

The Kathis have, since their advent to this Province, effected

a change in the name of the Province from Saurashtra to Kathiawad, and they are one of the most important and influential tribes on the westernmost coast of India.

Heir: YUVRAJ SHREE SHIVRAJKUMAR, born 9th October 1930.

Second Son: RAJKUMAR SHREE PRATAPKUMAR, born 28th November 1937.

Area of the State: 296 square miles including about 13 square miles of non-jurisdictional territory.

Population: 36,632 including non-jurisdictional territory.

Revenue: (gross) Rs. six lacs nearly.

All education is free throughout the State.

Medical relief at the Hospital, etc., is also supplied free.

Importation of liquor is prohibited.

Cultivators are granted permanent heritable tenure with rights of full ownership over their holdings and are protected against usury by special rules for settlement of money-lenders' claims.

Village Panchayats have now been introduced in every village of the State with a non-official president. Village Committees are also formed in the villages to settle petty disputes of the villages as well as to deal with general everyday affairs of the villages. Every adult resident of village has been given the right to vote at such elections.

STATE COUNCIL.

President:

RAJKUMAR SHREE AMRA KHACHAR.

Members:

MR. CHHELSHANKER LAKSHMISHANKER BAKSHI, B.A., LL.B.

MR. RAMRAO TRIMBAKRAO NIKTE, B.A.

JATH: LT. RAJA SHRIMANT VIJAYASINHRAO RAMRAO alias BABASAHEB DAFLE, R. I. N., Raja of Jath State.

Born on 21st July 1909.

Ascended the Gadi on 12th
January 1929.

Family History: Jath is one of the ancient Satara States. The Ruling family is a high class Maratha and claims descent from Satvajirao Chavan, Patil of Daflapur to whom a Deshmukhi Watan was granted by Ali Adilshah, King of Bijapur in 1670. The Jahagirs of Jath and Karajagi Paraganas were conferred upon him by King Adilshaha of Bijapur in the year 1680.

The Raja Saheb was educated for some time in the Decean College when he was suddenly called back owing to the serious illness of his father the late lamented Shrimant Ramrao Amritiao alias Abasaheb Dafle. The Ruler exercises full Civil and Criminal powers over his State. During the short period of his rule he has evinced keen interest in the welfare of his subjects by introducing various reforms such as an independent High Court, a Local Board, etc.

Married: Shrimant Lilavati Raje, the eldest daughter of the late Rajesaheb of Akalkot in 1929.

In 1932, he visited England to attend the Third Round Table Conference on the invitation of the Secretary of State for India. He is an all round sportsman and a good cricketer. He takes keen interest in Scouting.

Recently he was promoted Lieutenant in the Royal Indian Navy and has already undergone the requisite course of Naval Training.

December 1931.

Son: Second Rajkumar Shrimant Raje Ranjit Singh Ghorpade, born 16th February 1933. Daughter:

Princess Shrimant Raje Nirmala Devi Ghorpade, born 8th February 1034. Third Prince: Rajkumar Shrimant Raje Vijayasinh Ghorpade,

born 18th October 1937.

SANDUR is the only Mahratta State in South India. ancestors of the Ruler of Sandur distinguished themselves under Chatrapathi Shivaji Maharaj, the great Mahratta hero, and his family and for the useful services thus rendered to the House of Satara, the Jaghir of Gajendragad in the Bombay Presidency, with the title of "Hindurao," was conferred on them. Raja Siddoji Rao Ghorpade, the founder of this Dynasty conquered Sandur and Kudatini in the early eighteenth century. Raja Siddojirao Ghorpade was also receiving tribute from the Poligar of Harpanahalli. During the time of his son and successor, Raja Murar Rao Ghorpade, renowned in history as the famous "Chief of Gooty," Sandur reached the zenith of its territorial expansion and was a Power to be reckoned with among the various belligerents for political supremacy in South India. Speaking of the extent of the territory and sway held by Raja Murar Rao Ghorpade, Rao Saheb G. S. Sardesai the famous Historian of the Mahrattas, has observed thus: "Stray notices of the Ghorpades in Karnatak are discovered in old papers here and there, and refer to such places as Sondha, Bednur, Savanur, Shira, Shrirangpatnam, Chittaldrug, Gutti, Sondur, Guntakal, Kadappa, Trichinopoly and as far as Chennapatna (Madras) and Pondicherry on the east coast. The career of Murar Rao appears to claim all this region as his legitimate heritage, acquired by the heroism and often by the blood of the several members of the large Ghorpade Family. It was the great Shivaji who first traversed this large territory, and after him. it was the valour of the Ghorpades that prevented in it the extinction of the Maratha Power." Sir Philips Gibbs writing as recently as June 1938 has described the signal assistance rendered by Murar Rao to Lord Clive at the siege of Arcot thus: "It happened

that, on the flanks of Raja Saheb's Army, a tribe of wild Mahratta Horsemen, under a Chief named Murar Rao, was watching the progress of the siege, with increasing admiration. Clive sent out messengers to him, and his joy may be imagined when the Indian chieftain expressed his willingness to unsheath his sword in aid of so gallant a captain. All that night Clive and his men awaited a renewal of the assault, but when morning came, the enemy were no more to be seen, and the glittering array of the Mahratta tribesmen moved through the mist of dawn to do honour to the man who was to be famous henceforth as Sabat Jung." Orme, a contemporary British Historian describes the Sandur troops to be "the best soldiers of native Indians at this time in Indostan." In the Mysore Treaty V of 1782 the British have observed thus: "The Company will reserve to themselves the liberty of reinstating the Family of Murar Rao in the Country of Gooty," a promise which yet remains to be fulfilled. Ruler of Sandur for the first time came into political relations with the British in 1817, and Munro described the Ruler of Sandur to be "as much a Sovereign in his own valley as any Prince in India." The State has the status of a Treaty State by virtue of the Treaty of 1847 with the East India Company regarding Ramgad cantonment jurisdiction. The Ruler of Sandur is one of the 146 important Ruling Chiefs who received the Sanads of Adoption in 1862. The State possesses powers of life and death and is unfettered in the exercise of its sovereignty. The State pays no tribute to the Crown and is free from all pecuniary demands.

The State has rich mineral wealth particularly manganese, iron

and gold.

The Ruler is the fountain head of all authority, Judicial, Executive and Legislative. The Government of the State is conducted in the name of the Huzur through an Executive Council. A State Council has been constituted in 1931 with a predominant non-official majority. It has the right to initiate legislation, to move Resolutions and to ask An independent Chief Court has been constituted under the Sandur Chief Court Act, II of 1932 and arrangements have been made with the Madras Government to lend the services of the District and Sessions Judge, Bellary, for appointment as the Nyayadhish of the Sandur Chief Court. The Sandur Chief Court can state cases to the Federal Court. A further step in constitutional advance has been taken by the Ruler in reviving the ancient body known as the Darbar which is as old as the State itself, and which is now charged with the governance of the State as a second Chamber. By a Proclamation issued in 1933, the Ruler has thrown open all temples, religious institutions, wells, schools and all government institutions to the Hariians.

EXECUTIVE COUNCIL.

President:

SHRIMANT SARDAR B. Y. RAJE GHORPADE.

Members:

Mr. V. NARASIMHA RAO, M.A., (Political Secretary).

Mr. G. B. DESHMUKH, (Huzur Secretary).

Mr. A. B. Punde, (General Secretary to Government).

State Adviser:

RAJASEVASAKTA R. RANGARAO, B.A., B.L., Retired Chief Secretary to the Government of Mysore.

THANADEVLI: DARBAR SHREE AMRAWALA, the present ruler belongs to the Jaitani branch of Wala Kathis.

Born: 28th November, 1895. Educated: at the Rajkumar College, Rajkot. Succeeded to the Gadi on 12th May, 1922. Thanadevli is the premier State of Wala Kathis.

The Darbar Saheb exercises full civil and criminal jurisdiction over his subjects. The administration of the State is conducted under the personal supervision of the Darbar Sahib. He is easily accessible to all his subjects and gives a patient hearing to those who seek redress from him. Thus he has won the goodwill, respect and gratitude

of his subjects. His charities and hospitalities deserve admiration. The state has a Silver Jubilee Memorial Hospital with two free wards for indoor patients and a well-equipped operation theatre and Post & Telegraph Office. The State has got in all 15 Schools, one Middle School, two Composite, one Girl School, and 11 Vernacular Schools imparting free education throughout the State. One Pattani Scholarship is given to the highest deserving student in the Middle School.

A Resting House with two storeys has been newly built. There are also Ram Vilas for noteworthy guests and Laxman Nivas Palace. Municipal administration is carried on with the co-operation of the State subjects and there is a free Library. Cultivators are given occupancy rights and ownership over properties to other subjects as well. The State has got its own Gir Forest, abode of Gir Lions and Panthers. Club: Amar Vijaya Club.

Heir-Apparent: K. S. Ramwala, born on 8th of March, 1920, at present receiving practical training in the State Administration. Second Son: K. S. Harsurwala born on 6th October, 1931.

Area of the State: 117-32 square miles. Population: 16,005 as per 1931 census. Annual Revenue: Rs. 3,25,000.

CHIEF OFFICIALS.

Acting Chief Karbhari: MR. JIVABHAI D. Dewan.

Deputy Karbhari and Sar Nyayadhish: Mr. Mansukhlal D. Mehta, B.A., LL.B.

General Member: Merambhai D. Dhadhal.

Medical Officer: Mr. M. D. Lathigara, M.B B.S.

Nyayadhish: Mr. Trimbaklal C. Buch.

Superintendent of Police: Mr. Bhurabhai Rupsinhji.

ADAGAM: THAKOR
SHRI VAKHATSINHJI of
Vadagam (Sabar Kantha
Agency) belongs to the Rehevar
clan of Rajputs of the Indra
race. In the matter of succession the State follows the rule
of primogeniture.

Born on 17th November 1918.

Installed on the Gadi and invested with full powers on 29th August 1938.

Educated at the Scott College, Sadra, for 7 years and at the Rajkumar College at Rajkot for 3 years. After leaving the College, he was attached to

the office of the Political Agent, Sabar Kantha Agency for 9 months in order to receive experience in administrative and executive work. Thereafter he was invested with Magisterial powers in the Bawishi Thana. Thus he has all the experience which a ruler should possess. The Thakor Saheb takes keen interest in the affairs of the State.

Married on 12th May 1937 Kunvri Shri Manharkunverba, third daughter of Thakor Shri Bharatsinhji of Eral in the Panch Mahals District.

The Thakor Shri has two brothers Narvarsinhji and Narendrasinhji aged 10 and 9 years respectively.

Area of the State: 28 square miles. The State is comprised of 23 villages and is free from payment of any tribute.

Population: 3,937.

Revenue: Approximately Rs. 35,000.

The State has its capital at Vadagam situated on the Talod-Modasa road on the Ahmedabad Prantij Railway. It is at a distance of 15 miles from Talod Railway Station. There are two well furnished rest-houses one for Europeans and the other for Indians at Vadagam just on the Talod-Modasa road. There is a likelihood of having a trunk road from Ahmedabad to Delhi passing through Vadagam, and if this materialises the State may prosper to some extent.

Address: Vadagam.

ADIA: DARBAR SHEI SURAGWALA SAHEB, the present Chief of Vadia State, Western Kathiawar Agency, is aged 34. He belongs to the Virani Branch of Kathis. The Kathis once dominated the whole province of Kathiawar and the province since then, has been named Kathiawar.

Area: 92 square miles. Revenue: Rs. 3 lakhs.

The Darbar Saheb was married to A. S. Kunvarbaisaheb in 1921 and has two sons and two daughters. The rule of primogeniture governs the succession. The heir-apparent Kumar Shri Krashnakumar Saheb is aged 8 and is getting educational training at the hands of an experi-

enced and competent retired Educational Officer of W. I. S. Agency, Rao Saheb M. S. Dwivedi.

The Darbar Saheb has earned the reputation of a progressive and benevolent ruler and he takes personal and keen interest in the administration of the State. Reforms of far-reaching importance-medical, social, economic, educational and political—are inaugurated by him.

The Subjects of the State enjoy the benefits of free education, free medical relief, Child Marriage Restriction Act, the Farmers' Relief Act, the State Bank, prohibition and the electric power house.

The growth of industrial concerns are adding to the prosperity of trade and commerce. Match-factory, the oil mill and ginning factories are among other industrial concerns,

Born: 2nd April 1877. Ascended the gadi on the

9th May 1901.

Married to the daughters of the Thakor Sahebs of Nepad and Virpur and the sister of the Thakor Saheb of Kerwada.

Total annual revenue:

Rs. 1,53,541.

Area of holdings: 18,985 acres.

Member of Bombay Legislative Council for 9 years, first

elected in 1909 as a representative of the Talukdars and Sardars of Gujarat and was also elected by the Mahomedan community to the Legislative Assembly of Delhi for four years from 1931. He went on tour in Europe in 1933, visiting Italy, Switzerland, France, England and Scotland where he studied the problem of County Councils and Agriculture. He was presented to His Majesty the late King-Emperor of Indiain August 1933. Honorary 1st Class Magistrate for many years. President of the Broach District Local Board for some considerable time.

Recognized as a leader of the Muslim Community and was elected President of All-India Moslem Rajputs Conference held at Ambala in 1930, and at present standing President of that Body. Also elected President of the Anjuman Himayate Islam 41st Anniversary, Lahore, in 1927 which attracted a gathering of more than a lakh of people. He is also the President of the Gujarat Landholders' Association established in 1938.

In the order of precedence has the privilege of being the head of the Molesalam Garasias in Gujarat. Head among the Thakores in the district of Broach. Second among the Sirdars and Talukdars of Gujarat. Takes lively interest in the spread of education and Islamic philosophy. Has always stood for Hindu-Muslim Unity and sound liberal politics and social reform.

The distinguished title of "Nawab" was conferred in 1929 by His Majesty the late King-Emperor in appreciation of various public services. His steadfast loyalty to the Throne and deep reverence to His Majesty the King-Emperor and Empress are well-known. He was knighted in the New Year, 1938.

ELHA: NAWAB MIR MASUD ALAM KHAN BAHADUR, C.I.E., Nawab Saheb of Belha is the direct descendant of the last Ruling Nawab of Surat from the maternal side. The Nawab Saheb succeeded in 1915 his grand mother Muzamat Zia-ul-Nissa Ladli Begum Sahiba, who was grand daughter of the last Ruling Nawab of Surat, as the head of the Senior Branch of the Nawab's family, and as such, he is the recipient of a very substantial political and territorial pension. He also inherited the private property of the last Ruler of Surat.

He succeeded to the Gadi of Belha on 4th July 1921. He has effected many improvements in

the Estate and devotes most of his time in ameliorating the condition of his subjects. He takes keen interest in medical relief, and he has constructed a well equipped hospital on modern lines. He has built a beautiful Palace at Belha and restored the ancient Juma Masjid in order to help local labour. His zeal for educational advancement is notable.

As the head of the Senior Branch of the Nawab of Surat he takes a lively interest both in public and Government affairs. He is the Vice-President of the Sarvajanik Education Society, Surat. He is the Leader of the Muslim Group in the Surat Municipality and President of the Boy Scout Movement. Through his efforts the Muslim Orphanage has come into existence and at his request a former Governor of Bombay, His Excellency Sir Leslie Wilson, laid the foundation stone of the Orphanage Building. In recognition of his services both to the British Government and the public he has been awarded by the King Emperor the title of the Companion of the Most Eminent Order of the Indian Empire and also the Silver Jubilee and Coronation Medals. He is a first class Sardar of the Deccan and Gujarat and is exempted from personal appearance in Civil Courts.

The Nawab Saheb has one son and three daughters. Heir-apparent: Nawabzada Meer Sultan Alam Khan Saheb Bahadur, married to Princess Saidabanu, sister of His Highness the Ruler of Loharu State. Daughters: Princess Shahzadi Begum, married to Prince Mohmad Sadiq, son of His Highness the Ruler of Mangrol State. Princess Husseni Jehan Begum. Princess Ladli Begum is betrothed to the Heir Apparent of the Chief of Kamandhia.

BHINAI: RAJA KALYAN SINGH of Bhina Estate, Ajmer-Merwara, Rajputana.

Born: 20th October 1913.

Ascended: The Gadi on 6th October 1917 and is the 19th successor of Bhinai Raj.

Educated: At the Mayo College, Ajmer; passed the Diploma Examination in 1931; studied for Higher Diploma Examination for three years; received administrative and judicial training at Ajmer in 1034, and was invested with powers on 20th October 1934.

Married: The 3rd daughter of the late Rao Raja Bahadur

Shri Madho Singhji, K.C.I.E., of Sikar in 1932. Has two daughters.

Raja Saheb takes keen interest in the administration of the Estate; has improved the administration on modern lines; Field survey of the whole Estate has been completed this year. The Raja Saheb, as a measure of relief for his tenants, abolished last year about twenty cesses and remitted arrears of rupees 15,000; has also stopped the system of Agotri (collection of revenue in advance) and Begar (forced labour).

The Raja Saheb is the President of the Kshtriya Maha Sabha, Rajputana. He visited England in 1937, to attend the Coronation of Their Majesties and made a continental tour as well.

The rulers of this family are Rathor Rajputs descending from Rao Jodha, the founder of the city of Jodhpur (Marwar). Karamsen, the grandson of Rao Maldeo (1581), was the founder of this family. He came to Ajmer, and having by stratagem intoxicated Madlia, the Chief of a band of Bhils, who ravaged the country near Bhinai, slew him and dispersed his followers. For this service Bhinai and seven other Parganas were bestowed upon him in Jagir by Emperor Akbar. Subsequently, the title of Raja was bestowed on Bhinai House in 1783 by the then Ruler of Jodhpur, as a reward for military service. The head of this house is the premier Raja of the district.

Annual Revenue: Over Rupees 1,00,000.

Area: 122 square miles.

Recreation: Polo, Squash and Hockey.

BODOKHEMIDI: SRI
BEERA SRI BEERADHI
BEERABARA PRATAPA
SRI SRI SRI RAMACHENDRA
ANANGA BHIMA DEV,
KESARI GAJAPATHI, Zemindar of Bodokhemidi Estate,
belongs to the Ganga
Dynasty and is a descendant of the ancient Kings
of Orissa.

Born: 2nd December 1909. Educated: At the Raipur College.

Succession: He assumed charge of his estate in

December 1930.

The estate is one of the largest in Ganjam comprising some 850 sq. miles including the Hill, Maliahs. The Zemindar pays a yearly peshkash (Tribute) of Rs. 63,000 including cesses, etc., to the British Government. He has been a member of the District Board, Ganjam, for the past 4 years and was re-elected recently. He is also an elected member of the Orissa Legislative Assembly.

Sri Ramachendra Dev, the present Zemindar, has considerably improved the condition of his tenants since his assumption to the Estate and has liberally contributed to various Government projects and charities. He is an enthusiastic motorist and a good all round sportsman.

His father Krupamaya Ananga Bhima Kesari Gajapathi Dev who died in 1922 endowed a hostel to Khallikote College, Berhampore, founded the Utkal Ashram, Berhampore, George Middle School, Digapahandi and the Elementary

School, Digapahandi.

The young Zemindar is a most loyal supporter of the British Government and his chief ambition is to be a soldier. His keen devotion to duty and interest in the welfare of his tenants have won for him their love and affectionate regard.

Address: Ananda Bhawan, Bodokhemidi Bungalow, Berhampore (Ganjam).

ALMIA, SETH RAM-KRISHNA, born 1893; married 1910 Durgadevi; only child, a daughter Rama, married to Seth Shanti Prasad Jain.

Seth Dalmia is of simple, austere habits and uses only the barest necessities of life. A keen business instinct, a suave tongue, a virile brain and candid manners have put him in the forefront of Indian business politics. His unfailing judgment of men and matters, his penetration into intricate business problems and unerring insight into trend of events make him master of every situation.

He leads a deeply religious life and his private charities run into millions. He has made munificent donations to the Benares Hindu University and the Vishwabharati. The yearly income of a trust created by him is utilised in awarding scholarships to promising young men for scientific studies in foreign countries.

Seth Dalmia has to his credit a meteoric rise in the field of business. He entered business in 1904 as an apprentice in the firm of his uncle, Messrs. Chimanram Motilal, Bombay, and started independent work, while yet in teens. He soon made his mark as an astute and enterprising businessman and won a position for himself in the commercial circles of Calcutta and Bombay.

In 1929, he retired from busy life and settled down at Dinapore in Bihar. He devoted his time, energy and resources to philanthropic work and studied Hindu philosophy. He became interested in sugar industry in 1931 and started within a few weeks two huge sugar factories which rank among the largest of their kind in India. In 1934, he bought another 1200 ton sugar factory and in 1935 purchased the largest block of Bharat Insurance Co. Ltd. shares and acquired its management. He entered the cement industry in 1937 and erected factories in different parts of the country. To the sugar factory at Dalmianagar, he has added more units, a paper mill and a cement factory. His cement factories at Dalmianagar and Karachi are the largest in India.

Address: Dalmianagar (Bihar).

GEWARDA ESTATE (C.P.): NAWAB MOHD. ABDUL WAHID GAZI Of.

Born: 31st October 1907.

Succeeded: Father Mohd.
Zainuddin in 1912.

Married: Zubeda Begum on 31st March 1930.

Educated: Privately, Knows English, Urdu, Persian, Arabic, Hindi and Marathi.

The Nawab Saheb is one of the renowned Urdu poets of India and as such has presided over several socio-poetic meetings in the Central Provinces, the Bombay Presidency, the Punjab and Berar. He composes poems in Hindi and Persian also.

Publications: (1) Gulistane Marefat, (2) Mishale-Rah, (3) Husno-Shair, (4) Muzdo Khidmat, (5) Kamaldal, (6) Selected Poems of Nawab Gazi (an English translation by Mohd. Zahirul Haque, Advocate, Gorakhpur), (7) Soraji Ka Khawb.

Gewarda is the premier Muslim Estate in the C. P. The ancestors of the Nawab came to C. P. from Kashmir during the reign of Alamgir 11. Under Maratha rulers the Gewarda Chiefs were the hereditary representatives of their Government in the Wairagarh Pargana and by virtue of their office became lords of Gewarda Estate. The first treaty between the British Government and the Chiefs of Gewarda was drawn in 1230 Fasli. Captain Crawford and Bahadur Khan signed the said document on behalf of the Government and the Estate. Gewarda Chief agreed to render military services to the Government when necessary, and to help the Government in maintaining peace and tranquillity in the Wairagarh Pargana by keeping an adequate police force.

Area: 200 Square Miles.

Heir: Inamul Wahid.

Relatives maintained: Akhtar Ara (Sister-in-law), Samsamul Wahid (2nd son), Aujum Ara (daughter), Hafizbibi (Mother.)

Staff: MIR SHAWKAT ALI (Private Secretary); MIR HUSAIN ALAM (Manager).

Address: Gewarda House via Brahampuri, C.P.

OPAL SINGH, CAPTAIN
THE HON'BLE SARDAR,
O.B.E., of Bhagowal
(Punjab).

The Sardar traces his history to the days of Maharaja Ranjit Singh "The Lion of the Punjab."

During the Mutiny of 1857-8 Sardar Mihan Singh, great grandfather and General Gulab Singh, grandfather of Sardar Gopal Singh, helped the British in raising a Risala of the Sikhs and Dogras, under the supervision of Sir John Lawrence.

Sardar Gopal Singh's father, the late Sardar Richhpal Singh of Bhagowal, served as a Judicial Officer and died in December 1908.

Under the orders of the late Lord Roberts Sardar Gopal Singh was attached in October 1888 to the 7th Princess Royal Dragoon Guards, and was perhaps the first Indian who ever had the honour of being attached to a British Cavalry Regiment.

He spent over a year and half under Colonel Grant, when he served side by side with Major General Sir W. E. Peyton, commanding the British Force in the Rhine Districts.

Sardar Gopal Singh obtained his commission in the 11th Prince of Wales Own Lancers (now 11th K. E. O. Lancers) under Colonel Arthur Prinsep, and served in that Regiment until 1913, when he retired owing to severe illness.

On the declaration of the Great War, Sardar Gopal Singh placed all his property and his personal services at the disposal of the Government. His contributions to the Prince of Wales Relief, (now the National Relief,) The Indian Imperial Relief, and other War Funds continued from August 1914 until the day of the Armistice. During the War he rejoined his old Regiment, served under his friend Colonel (now General) Walter Norman, commanding the 11th K.E.O. Lancers.

He has the following record of active field service to his credit: Hazara Field Force, 1891; Chitral Relief Force, 1895; Tirah Expedition, 1897; The Waziristan Blockade, 1900-1; The Great War, 1916-17.

Sardar Gopal Singh was nominated a Member of the prereform Punjab Legislative Council by the Government and was renominated after reforms as well. Further in recognition of his conspicuous services during the War a Captaincy was conferred on him.

JAIJEE, BHAI (SARDAR) HARCHAND SINGH OF Patiala.

Born: 30th Poli 1948, Bikrami corresponding to 1802 A.D.

History: A scion of the well-known family called the "Jaijee" family, Bhai (Sardar) Harchand Singh Jaijee traces the history of this family to the time of Baba Alla Singh, the founder of the capital and state of Patiala.

While Baba Alla Singh was fighting his battles and consolidating his victories with a view to controlling effectively the territories conquered and prosecuting his life mission of founding a state, the ancestors of the laijee family were fighting

shoulder to shoulder with him. Baba Ladha Singh of this family and his son Ramditta Singh participated in many such battles. When Baba Alla Singh was besieged in Sunam Fort, both Baba Ladha Singh and Ramditta Singh risked their lives in the face of overwhelming hostile forces and rescued him from the grip of the enemy. Once they all combined and conquered the entire territory. In appreciation of such brave and heroic deeds, the Maharaja of Patiala conferred the distinctive title of Bhai on the Jaijee family- the descendants of Baba Ladha Singh. To this day this title is much valued, in fact more valued than the title, Sardar, which is an epithet common to all Sikhs. In the reigns of Maharajas Karam Singh and Narinder Singh, Sardar Bir Singh, the great grandfather of Bhai Harchand Singh Jaijee, was the Commander-in-Chief of Patiala forces. Later his son Sardar Kehar Singh was Chief Judicial Officer of Maharajas Narinder Singh and Mohinder Singh and Sardar Gulab Singh. Bhai Harchand Singh's father was the Excise Commissioner of Maharaja Rajinder Singh, grand-father of H. H. Maharajadhiraj Yadvinder Singh, the present ruler of Patiala, who is ninth in succession to the founder of the state, Baba Alla Singh.

Thus the two great families, the Ruling family of Patiala and the Jaijee family, are connected by ties of love, service and loyalty extending over a long time, and these exist to this very day. The recent marriage of H. H. Maharajadhiraj Yadvinder Singh of Patiala and the daughter of Bhai Harchand Singh Jaijee is in consequence hailed as the cementing seal on the history of these relations existing for generations.

A great and noble personality, Bhai (Sardar) Harchand Singh Jaijee has rendered invaluable services to the cause of the nation. The Sardar is held in high esteem by all, Sikhs and other communities alike, and his alliance with the Patiala State is looked upon by the public with great satisfaction and goodwill.

Address: P. O. Jakhal Mandi, N.W. Ry.

JEHANGIRABAD: RAJA SIR MOHAMMAD EJAZ RASUL KHAN, K.C.I.E., Kt., C.S.I., M.L.A., Taluqdar of Jehangirabad, Dt. Barabanki, India.

ARANJIA, MR. BEHRAM NAOROSJI, M.L.C.
(Upper House), J.P.,
F.C.I.S., is a leading businessman and Director of many
Joint Stock Companies in
Bombay, a prominent member of
the Municipal Corporation and
an Honorary Presidency Magistrate. Elected Mayor 1939.

Mr. Karanjia has worked for 23 years either as Chairman, Secretary or Treasurer of various relief funds. Secretary, War Loan & Food Control Committees, 1914-19; Our Day Fund & Peoples' Fair, 1921; when His Royal Highness the Prince of Wales visited Bombay; Governor's Sind Relief Fund, 1930-31; King George V. Silver Jubilee & Memorial Funds;

Quetta & Bihar Earthquake Relief Funds; Treasurer, Hospital Maintenance Committee; Vice-President, St. John Ambulance Association.

Mr. Karanjia is a great public worker. Chairman (nominated), Versowa Beach Committee, 1924-34; Trustee, Bombay Port Trust, Member, Standing Committee, etc., and Chairman, Works & Improvements Committees of Bombay Municipal Corporation, on whose behalf he is also on the Advisory Committee of the Jerbai Wadia Hospital for Children. During the communal riots he did his best to restore good relations between the various communities. Member, Bombay Board of Film Censors; Advisory Committee of the G. I. P. Ry. and also B. B. & C. I. Ry.; a Hon. visitor to Jail. Managing Committee of the Western India Automobile Association; Excise Advisory Committee; President, Indian Merchants' Chamber, 1932; Society of Honorary Presidency Magistrates, 1932 and Railway Passengers & Traffic Relief Association; Silk Merchants' Association.

Mr. Karanjia deals on a large scale in silk and general merchandise, and as a result of his first-hand knowledge, has exposed smuggling in silk and other dutiable goods going on through land-frontiers such as Siam-Burma, Baluchistan-Sind, etc., and thus helped Government to secure additional revenue. In regard to goods entering India through Kathiawar Ports he insisted on a cordon being formed at Viramgam as a result of his conference in 1927 with Sir Basil Blackett, the then Finance Member of the Government of India. He gave evidence before the Tariff Board's enquiries into the Cotton Textile, Gold Thread & Silk Industries, the Indian Railway Enquiry (Wedgwood Committee) and the Central & Provincial Banking Enquiry Committees. Assessor, Rent Control Committee, 1914-19.

Mr. Behram Naorosji Karanjia is a recipient of the Kaiser-i-Hind Medal, the Governor-General's Certificate of Merit, King George V Silver Jubilee Medal and King's Coronation Medal.

KERVADA: RANA SHREE MANSINHJI BHASAHEB, B.A., Barrister-at-Law, the present Thakor Saheb of Kervada, Born on 10-3-1904

Succeeded to the Gadi on 3-2-1938 on the sudden demise of his father Sardar Bhasaheb Rai-

singhji, on 25-8-1937.

Educated at Rajkumar College, Rajkot and later at Gujarat College, Ahmedabad, wherefrom he graduated in 1926 with first class marks in Moghul History and Shakespeare and also at the Agricultural College, Poona. While at College he was the Tennis and Pingpong Champion, Captain of Football, a good cricketer and an all-round athlete.

In 1926 he married Rani Saheba Rajrani who is the niece

of the Nawab of Surat and who has received advanced education from an English convent school.

In 1928 he proceeded to England and joined the Middle Temple in London: he studied Law for three years and took a course in College of Estate management there; from there he visited France, Belgium, Germany and Switzerland. He was called to the Bar in January 1932, from the Middle Temple and on return joined the High Court of Judicature at Bombay as Advocate (o.s.) where he practised for two years.

In 1934 he was called back to Kervada by the late Thakor Saheb to help him to manage the Estate and last year he again visited England to attend the Coronation and Paris International Exhibition and on his way back visited Italy, Greece, Turkey, Syria, Palestine and Egypt.

The Thakore Saheb takes interest in public affairs. He is President, of the Taluka Local Board, Wagra, Member, District Local Board, Broach, Chairman, A. V. Educational Fund, Wagra, Vice-President, Girasia Association, Life Member, Probation and Aftercare Association of Broach Sub-division, Chairman, Nurse Association, Wagra, Member, Executive and Finance Committee and Chairman, Games Committee of the Agricultural, Cattle and Industrial Exhibition, Broach, and Chairman of the Taluka Development Association, Wagra, and a Member, Broach Talukdars Jubilee Fund Committee.

Rana Shree Mansinhji Bhasaheb is 33 years of age and is the first among Thakors and Talukdars of Gujarat to be a graduate, Barrister-at-Law and to have visited so many foreign countries. This experience should stand him in good stead in taking up the cause of the Thakors and Talukdars of Gujarat, a subject so dear to the heart of his deceased father.

Address: Kervada, via Broach.

KISHUN PERSHAD—RAJA-1-RAJAYAN, MAHA-RAJA BAHADUR, YAMIN-US-SULTANAT, SIR, G.C.I.E., HEREDITARY PESH-KAR, Prime Minister from 1901 to 1912, and President of the Executive Council of Hyderabad State from 25th November 1926-1937.

Born: 28th January, 1864. Is a direct descendant of Maharaja Chandoolal, the first Hyderabad Statesman, to realise the importance of alliance between his sovereign, the Nizam, and the British Power and who laid down a tradition for charity and philanthropy in the family.

philanthropy in the family. Maharaja Sir Kishun Pershad lives up to these two ideals of the House. He was educated first at the Nizam's College and then privately in Persian and Arabic, particularly in the teachings of Sufism. Under the nom-de-plume Shad he loves to write verses both in Urdu and in Persian, mostly lyrics full of mystical thoughts. He has also written many works in prose but mainly in Urdu. Besides literature, his present hobby is sketching, particularly landscapes in water colours. Maharaja Chandoolal as a descendant of Todar Mal, the Minister of Akbar, culturally belonged to the School of Akbar. Maharaja Sir Kishun Pershad Bahadur also carried out the tradition of the house and treats Hindus and Mahomedans with equality and without prejudice.

Heir: Raja Bahadur Khaja Pershad also called Raja Bahadur Arjun Kumar.

Born: 17th May 1914.

Area of the Jagir: 490 square miles.

Population: 123,691.

The Jagir consists of 8 Taluqas with 196 villages and has Sessions powers as well as full powers in civil justice.

Revenue: Rs. 10,16,003.

MR. GUNDE RAO is the Estate Secretary and Sessions Judge.
MR. SYED ALUMBARDAR is the Special Officer and Private

Secretary.

RISHNAMACHARIAR. RAJA BAHADUR G., B.A., B.L., Dewan Bahadur (1918); Raja Bahadur (1925); Retired President of H. E. H. the Nizam's Judicial Committee, laghirdar and Advocate, Madras, and Hyderabad High Courts, and formerly Member, Legislative Assembly.

Enrolled as Vakil, Madras March High Court. practised as Vakil in Hyderabad and Secunderabad till 1913. Was appointed Government pleader and Public Prosecutor at the Residency in 1904. Was nominated non-official member of the Hyderabad Legislative Council for three successive

(6 years); appointed Advocate-General, then Secretary to Government, Legislative Department; Legal Adviser to H. E. H. the Nizam's Government and President, Judicial Committee, in 1913. Shortly after. he along with Nawab (now Sir) Nizamat Jung Bahadur reorganised the courts under the orders of His late Highness in the course of which the separation of the Judicial and Executive functions was strongly urged and eventually introduced. On his recommendation the Legislative Council was temporarily enlarged by the addition of elected non-official members from the mofussil but final orders were postponed pending consideration of an elaborate Report submitted by him and still pending decision. Was the joint author along with the late Hormusjee and Sir Ali Imain of the Constitution of Hyderabad under which the Government is at present working. Represented Hyderabad in the Sub-Committee of the Chamber of Princes, 1918. Was President of the Hyderabad Factory Commission. Retired in 1924. Entered the Legislative Assembly in 1930 and took a prominent part in the support of orthodox views; was the leader of the Centre Party; and was invited by the Government to join the Committees on Reserve Bank and the Statutory Railway Authority but could not for reasons of health and religion go to England. He took keen interest in Agricultural and Land Revenue questions and was unanimously elected President of the Rural group in the Assembly which he formed in 1934. Was recently elected fellow of the Royal Society of Arts, England. He is now the acknowledged leader of the entire orthodox community in India.

He recently acquired a valuable Jagir in South India reported to contain inexhaustible quantities of the purest Magnesite and other minerals. He is now actively engaged in developing the mines and owing to the paucity of information in India has sent his son to England to collect data to start a large scale industry. Arrangements are well under way and it is expected that the industry would be in full working order next Autumn. Address: Hyderabad House, Srirangam; Osmania Royal Avenue, Hyderabad, Deccan.

TUREISHY: IFTIKHARUL MULK, KHAN BAHADUR, LT.-COL., HAJI MAQBOOL HASSAN, M.A., LL.P., Minister for Law and Justice. Bahawalpur Government: belongs a respectable family of the Kureish of Arabia. Though hailing originally from the Meerut District. his ancestors had long settled in the State before he was born at Bahawalpur in 1900. He received his early education in the State. and, later on, joined the Muslim University, Aligarh, where he passed his M.A., LL.B. in 1925. From his earliest childhood he exhibited traits which gave promise of his future achievements.

His personal magnetism made itself felt in the sphere of his employment, where he won the golden opinions of his colleagues as well as the ruler under whom he served. He began his career in 1925, when he joined the personal staff of His Highness the Nawab Ruler Bahadur of Bahawalpur as an Aide-de-Camp. But, it did not take long to discover that the young incumbent had in him the makings of a capable administrator. Accordingly, in 1927 he was promoted to the rank of Assistant Military Secretary. But this was only a stepping stone, as in January 1930 he was given the combined office of Private and Military Secretary, with the additional charge of the portfolios of Education and Municipalities, and was, subsequently, raised to the status of Minister-in-Waiting. In 1932 he paid a visit to England and other Western countries in company with His Highness the Nawab Ruler Bahadur-a visit which he repeated again in 1935 and in 1936. The beautiful volume in which he has chronicled the impressions of his first itinerary is an eloquent testimony of his great powers of observation and expression. He has also been to the Near East and performed the holy pilgrimage. Recently, his services to the State were recognised by the Government by the grant of the title of Khan Bahadur, which is the first distinction of its kind to be conferred upon a purely Rivasti Vizier in the State. He is also the recipient of many decorations and distinctions from the State, and is a member of the Court of Muslim University, Aligarh and His Highness the Nawab Ruler Bahadur's representative in the Senate of the Punjab University.

During the 9 years of his incumbency he has introduced many useful administrative reforms in the departments under his control, particularly the Municipalities, and the Court of Wards which he has completely reorganised. It is due mainly to his efforts that the Chief Court of Bahawalpur has been raised to the Status of High Court. He is a very capable and efficient administrator, having won the highest praise of both the ruler and the ruled by his politeness, impartiality, and keen sympathy with the people of the State. He is immensely

popular with all classes of His Highness's subjects.

KUTWARA: RAJA
SYED SAJID HUSSAIN,
M.A. (Edin), M.L.A. of
Kutwara.

Born: 1910.

Educated: La Martiniere
College and Edinburgh
University.

Married: 1937, Princess Selma Sultan, grand-daughter of H. I. M. the Caliph, Sultan Murad V.

History: Kutwara Raj was established by Rajas—Gopal

Singh and Saroop Singh about 200 B.C. Deobunder and Anhalwara Patan (of Somnath fame and a centre of world trade) also remained capitals. This family once ruled India from Cambay to China. In 1488 Raja Mull embraced Islam. In 1680, Raja Baz Khan lost the kingdom to Aurangzebe, but some of the lands were restored to Raja Tarbiat Khan in 1779. The male line of the 84th. Raja Madar Buksh Khan (1827-57) became extinct. His daughter was married to Syed Nazar Hussain, a Prince of Yaman. Their son was the grand-father of the present Raja. Well-read and widely travelled, the present Raja of Kutwara is very popular. He is deeply interested in philosophy and fine arts and is himself a poet in Urdu.

Recreations: Motoring, Riding.

Private Secretary: L. S. Harooray, B.A.

Address: Kutwara Raj (Oudh) and Kaisarbagh, Lucknow.

IAQAT HYAT KHAN:
NAWAB, SIR, Kt., K.B.E.,
K.B., Prime Minister,
Patiala, is the eldest surviving
son of the late Hon'ble Nawab
Mohammad Hyat Khan, C.S.I.,
of Wah in the Attock District,
Punjab.

He entered the Puniab Government Service in 1908 as a Deputy Superintendent of Police and received unusually early promotion to the Imperial Police where he held several important appointments with conspicuous success. His services were recognized by the grant of the King's Police Medal and the titles of Khan Bahadur and K.B.E., as also a grant of land from Government. During the visit of His Royal

Highness the Prince of Wales to Lahore, he was put in charge of the special arrangements. His services in this connection received special commendation from His Royal Highness the Prince of Wales (now Duke of Windsor) and His Excellency the Viceroy.

In 1923 his services were lent to His Highness the Maharaja of Patiala as Home Secretary but His Highness soon raised his status to that of Home Minister and placed under his control some of the most important departments of the State. It was as Home Minister that Sir Liagast distinguished himself as an officer of high administrative

Sir Liaqat distinguished himself as an officer of high administrative capabilities. He gave effect to a considerable number of measures which have already had, or are likely to have in future, far-reaching results in improving the condition of agriculture and industry in the State. In 1928 his services were recognised by the Government by the grant of the high title of "Nawab" which is now a rare distinction.

During the Dalhousie Enquiry, it was Nawab Sir Liaqat Hyat who was responsible for the conduct of the Patiala State case and the very meritorious services rendered by him in that connection were gratefully recognised by His late Highness. Besides other rewards of a personal character Sir Liaqat was elevated to the position of Prime Minister and given the status of the premier Jagirds in the State,

In all the work connected with the Round Table Conferences and Federal discussions Sir Liaqat had been very intimately associated. He represented the state twice at the Round Table Conference and again as a delegate to the Parliamentary Joint Select Committee.

He was Knighted in 1933 and in 1934 His late Highness conferred upon him the Honorary Rank of General.

Sir Liagat has been closely connected with the work of the Chamber of Princes during the last few years.

His politeness, impartiality and keen sympathy with the people of the State, have made him immensely popular with all classes of His Highness' subjects.

AHMUDABAD ESTATE:
MUHAMMAD AMIR AHMAD
KHAN, RAJA OF MAHMUDABAD (OUDH), is the scion of a
very noble family, distinguished
in all periods of Indian History
for piety, position and power,
since his ancestor Qazi Nasrullah
Qazi-ul-quzat, Grand Qazi of
Baghdad came to India in the
reign of Emperor Shahbuddin
Ghori. He traces his descent
direct to Mohammad son of
Qasim of Sindh, son of Mohammad, son of Caliph Abu Baker.

Mahmudabad is a premier Muslim Estate in British India. Emperor Jehangir confirmed it and bestowed a jewelled sword of Honour, Khalat and several pieces of jewellery which form heirlooms.

Estate: The estate comprises of over 300 villages in Sitapur, Bara Banki. Kheri and Lucknow districts.

M. C. A.; Honorary Presidency Magistrate and Non-official Visitor to the Madras Penitentiary, Lawly Institute, Ootacamund.

Appointed Sheriff of Madras for 1939.

Address: 12, Graemes Road, Cathedral Post, Madras and 2/53, Bunder Street, Madras.

ANPARA ESTATE: RATA SYED MOHAMMAD SAADAT ALI KHAN, the present Raja of. Born in the year 1904. Educated at the Colvin Taluqdars' College, Lucknow. His Raja father Mohammad Ashfaq Ali Khan was a poet of great repute and author of many books. His late mother Rani Mohammad Sarfraz Begam of the Mohamdi estate. district Lakhimpur Kheri, Oudh. was well-known for her efficient management of the Estate. and acts of benevolence.

During the Great War, Rani Mohammad Sarfraz Begam helped the British Government with men and money. The Lucknow University owes her its gratitude for a substantial donation as

well as the King George's Medical College and the Prince of Wales' Zoological Gardens at Lucknow.

Raja Syed Mohammad Saadat Ali Khan possesses in him the literary qualities of his learned father and the managing capacity and generosity of his benevolent mother, to which he has added the vast experience of a traveller having visited many times the continent of Europe and the Near East.

There are many Muslim organisations which are indebted to Raja Syed Mohammad Saadat Ali Khan for his financial help and guidance.

Raja Syed Mohammad Saadat Ali Khan is a sportsman in the real sense of the word. He is fond of shikar and is a good shot. He plays tennis, polo and swims. He is a member of all the leading clubs such as Bagatella Polo Club in Paris, Royal Automobile Club and Indian Gymkhana Club in London and Willingdon Sports Club in Bombay and Imperial Gymkhana and Chelmsford Clubs in New Delhi. He is also a member of the U. P. Legislative Assembly and President of the U. P. Cricket Association and a patron of the U. P. Aero Club.

Raja Syed Mohammad Saadat Ali Khan succeeded to the Nanpara Estate in the year 1911—thus bringing both the Estates of Nanpara and Mohamdi under his sway. Hence he is generally known as the Raja of Nanpara—a premier estate in the province of Oudh. The estate of Nanpara has a special reference to its history in the Gazetteer of the Bahraich district. Raja Sir Jang Bahadur Khan, K.C.S.I., maternal grandfather of the present Raja can well be styled a most generous and towering personality. The title of Raja to the House was conferred in 1763 by Nawab Shuja-ud-Daula, King of Oudh, and recognised by the Government as hereditary.

Revenue: 3 lakhs.

AWAB GANJ ALIABAD ESTATE: SARDAR NAWAZISH ALI KHAN QIZILBASH of: belongs to a noble family of the Punjab distinguished for religious, military and administrative services.

Born: 1901.

Educ.: At Central Model School and Forman Christian College, Lahore. Took his B. A. Hons. Degree of the Punjab University in 1923. While at College he was a good Cricket player and a debater.

Brother: Sahabzada Mohammad Hussain Khan Qizilbash.

Succeeded his uncle Khan Bahadur Nawab Mohammad Ali Khan, C.S.I. on the 2nd February 1935.

Married in 1936 the daughter

of Mirza Bahadur Mirza Mohammad Sadiq Ali Khan, a premier Chief of Oudh and has one daughter.

He is an Hony. Bench Magistrate at Bahraich, a non-official visitor of Jails, Director of the Central Exchange Bank Ltd., of Lahore, Trustee of Maharaj Singh High School of Bahraich. He is in charge of Muharram Dul-Dul Procession of Lahore and other ecclesiastical activities and is an Hony. General Secretary of Madrasatul Waizeen of Lucknow, the biggest and only central institution of the Immamia sect in India.

Hobbies: Gardening and Reading. Recreation: Tennis and Shooting.

History: The Sardar is a grandson of the late Nawab Sir Nawazish Ali Khan and Nawab Sir Fateh Ali Khan and traces the history of the family to the days of Nadir Shah when one of his ancestors was Governor of Kandahar. In 1839 Nawab Ali Raza Khan became a friend of the British and fought on their side at Mudki, Feroze Shah and Sobraon and raised a troop of cavalry which was later on embodied in the well-known Hodson's Horse, for which he was awarded the estate known as Nawab Ganj Aliabad Estate, Oudh, comprising 147 villages. A pension was also granted to him which was later replaced by a grant of property known as Rakh Khamba.

Address: Nawabganj Aliabad, Bahraich, Oudh and 97, Mayo Road Lahore.

AWAB MUHAMMAD MOIN-UD-DIN KHAN. NAWAB MOIN-UD-Dowla, Bahadur, the only son of the late Nawab Sir Asman Jah Bahadur, one of the three great Paigah Nobles of the Hyderabad was born State. Hyderabad (Deccan) in the year 1891. Nawab Moinud-Dowla's Paigah or feudal state covers an area of 1,821 square miles and has a population of 276,533, while its annual revenue amounts to Rs. 22 lakhs. He carries on the adminis-

tration with the help of a Council consisting of a President and two Members.

In 1919 Nawab Moin-ud-din Khan Bahadur was given the title of Nawab Eyanath Jung, and in 1922 the title of Nawab Moin-ud-Dowla. In 1923 he was appointed Minister in charge of the Industrial Department and also a Member of the Executive Council. The next year he was given charge of the Military Department and in 1927 he resigned the post, for, by an order of His Exalted Highness the Nizam, his Paigah Estates were released from the Court of Wards and he was made the Amir of the Sir Asman Jahi Paigah.

Though at one time a keen rider, Polo Player and Racing Noble, Nawab Moin-ud-Dowla Bahadur's present main recreation is shooting. He is also passionately fond of watching cricket, and he has done much to encourage the game and raise its standard not only in Hyderabad (Deccan) but in the whole of India. The All-India Gold Cup Cricket Tournament, which was started eight years ago as a result of his munificence, attracts to Hyderabad most of the best Cricketers in India. The last M.C.C. and Australian fixtures in Secunderabad, Deccan, were also due to his keen interest in Cricket and his generosity.

AWAB SALAR JUNG
BAHADUR (MIR
YUSUF ALI KHAN),
one of the premier noblemen
of Hyderabad, Deccan, and
the sole representative of
the illustrious family of
Sir Salar Jung the Great of
Mutiny fame.

Born: 13th June 1889 at

Poona.

Educated: At Nizam

College.

Was Prime Minister between 1912-15; has travelled all over Europe, Iraq, Persia, Syria, Palestine, etc.

Area of Estate: 1,480 square miles.

Population: 202,739.

Revenue: Over Rs. 15 lakhs.

Administration is divided into several departments on modern lines, and is under the direct control of the Nawab Saheb who personally supervises the work.

Family History: About the middle of the 17th century the great-grandfather of the Nawab Saheb migrated from Medina to the Adil Shahi kingdom of Bijapur where he settled and married into a noble's family. After the fall of the kingdom, the members of the family took service under the Moguls. Later on they transferred their allegiance to the family of the Nizams and served them as Prime Ministers, who are as follows:—

(1) Shair Jung, (2) Ghayur Jung, (3) Dargah Khuli Khan Salar Jung, (4) Mir Alam, (5) Munirul-Mulk, (6) Sirajul-Mulk, (7) Sir Salar Jung I., (8) Sir Salar Jung II., (9) the present Salar Jung.

Address: Hyderabad (Deccan).

AWAB TILAWAT JUNG BAHADUR, SAHIBZADA MIR TILAWAT ALI KHAN, B.A. (Punjab).

Born in 1879.

Descendant of the Jr. Branch of the Ruling family of Hydergrandfather being abad, his the second son of Nizam III of Hyderabad. Those who come in contact with him can detect the physical and mental characteristics of his Turkoman lineage. The Nawab Saheb is also one of the premier Nobles of the State who are exempted from the Arms Act of British India.

Beginning his service with the State as First Asstt. to the

Home Secretary, he held various posts of trust and responsibility, such as Chief Inspector of Schools at Headquarters, Commander and Pay Master of the household and Body Guard Troops of H.E.H. the Nizam, etc. He was a member of the Legislative Council of the State representing the City Municipality and afterwards a nominated member on behalf of the Sarfikhas. He was Cabinet Minister in charge of Public Works Department and Medical Department; Secretary and Sadrul Maham of Sarfikhas; Member of the Executive Council with Revenue and Local Fund and Agriculture portfolios. He has been responsible for the introduction of Service Stamps, Money Order and Savings Bank systems in the Postal Department of the State. The suggestion for the early completion of the Kazipet-Belharsha Railway line which links up the N. S. Railway with Delhi and Madras Chord line originated from him and he prevented the extension of the contract with the N. G. S. Railway Company to 1954 which made it possible for the Nizam's Government to acquire and take over the control of the Railway in 1930.

Though not entrusted with any portfolio at present in the administration of the State, the Nawab Sahib still serves as a member of the Sarfikhas Committee which manages the administration of the Crown lands and the household departments of the Ruler.

Sahibzada Mir Akbar Ali Khan, the Nawab Saheb's only son, was born in 1909. He graduated from the Madras University and was awarded a special European Scholarship by the Gracious Command of H.E.H. the Nizam. He joined Trinity College and returned to Hyderabad with the Economics Tripos Degree of Cambridge University.

Address: The City, Hyderabad, Dn.

AWAB MOHIUDDIN YAR JUNG BAHA-DUR SYED MOHIUDDIN ALI KHAM, B.A. (Cantab.), known popularly as "Hunter Sahib," and among the Hindus particularly as Govindachary, was born in 1864 in Hyderabad-Deccan.

Is a descendant on his father's side of Nawab Raji Ali Khan (a Farooki by birth), Ruler of Khandesh and Nawab Najeb Khan, Salar Jung of Delhi, on his mother's side of the Nawabs of Poona and Tippys Sultan.

Educated: At the Aligarh College and Trinity College, Cambridge. Passed History Tripos in 1892. During his stay in England he was very popular there. He had the honour of being presented to the late Queen Victoria and then Prince of Wales and later King Edward VII by the then Secretary of State for India, Lord Cross. He was invited to all the Jubilee Celebrations of 1887, and the Lord Mayor's Banquet and to the Garden party given by Lord Salisbury at Hatefield in connection with that Jubilee. He was one of the represent

tatives of the Cambridge students at the Tricentenary Celebration of the Dublin University in 1892 and attended among many functions the garden party given at the Castle by Lord Zetland, the then Viceroy of the United Ireland, and stayed with Lord Ross at his country house, Biri Castle, where he met many distinguished personages of the World who had come to take part in the Celebrations. He is the happy possessor of many tokens of remembrance from distinguished statesmen and scholars of England such as Lord Curzon, Sir John Lubbock, Professors, Max-Muller, A. Wright and T. R. Seeley.

Married: In 1886, the only daughter of Nawab Nazim Jung Bahadur, and after his return from England made another Nekah. He has one daughter from the former, who is married, and one son from the latter, who is a young man of good promise, and is at present a Customs Superintendent.

He was appointed on his return to Hvderabad from Aligarh as Hon. Attache at the Residency and served Mr. Cordery and Col. Ross, the then Residents at Hyderabad, in turn till he left for England to complete his education there. On his return from England he was oftered a Commission in the Berars but he preferred to serve the country of his birth and its Ruler, like his ancestors, and joined the service of H. E. H. the Nizam's Government. Rose from Division Officer, to the posts of Collector, Division, Famine and Customs Commissioner, and finally retired as Director-General of Revenue, Telangana Districts by the end of 1927 on the highest possible pension sanctioned by H. E. H. the Nizam in appreciation of the services rendered to the Government. After retirement H. E. H. The Nizam of Hyderabad and Berar very graciously later appointed him again, first as Military Secretary and later as a companion to the Heir-Apparent, but he respectfully begged of him to be excused, simply because the Nawab did not like to deprive the deserving younger men of the chance of improving their position. The Nawab Saheb is acknowledged not only by the Government, but by the public also as a successful Administrator. A great sportsman, he has risked his own life serveral times to face on foot.

The Nawab is greatly attached, like his ancestors, Nawab Najeeb Khan, Salar Jung and Nawab Azam Ali Khan of Hyderabad to the British. During the Great War he offered his and his son's services. He helped to the utmost the recruiting British Officer by inducing the inhabitants of the Parbhani District of which he was the then Collector to join the British Army, for which he received the thanks of the Resident, the Recruiting Officer and also received a certificate of Indian War Loan, 1917 from the Government of India. He subscribed liberally to the War Loan the interest on which he handed over to the Committee looking after wounded Indian soldiers.

PANCHAKOTE RAJ:
SRI SRI KALYANI
PROSAD SINGHA DEO,
Proprietor.

Born: 16th March 1899.

Married: The only daughter of the Taluqdar of Antu, in Protapgarh District.

Succeeded: On the 29th September 1938, his father the late Raja Jyoti Prosad Singha Deo Bahadur.

Heir-apparent: Sri Sri Sankari Prosad Singha Deo (Eldest son).

The Raj is one of the most ancient in India. Founded as early as 81 A.D. by

Maharaja Damodar Sekhar, a direct descendant of Bikromaditya, who came from Dhar in Central India. The Raj was an independent state, and first paid a tribute to Mahomedan rulers in 1632-33 and even during the British period it was semi-independent, until the permanent settlement of 1793. Various minor principalities, now large Estates, used to be under its suzerainty and the old bond persists in sentiment.

Area: nearly 3,000 square miles comprising extensive properties—including valuable mines—in Manbhum, Burdwan, Ranchi, Bankura, Orissa, Calcutta and Benares.

At one period of history the home of the family, until recently a ruling family, was Panchet Hill, not far from Asansol. The present seat is Kashipur (Manbhum) and the palace is one of the finest buildings in Bihar. Succession is by primogeniture.

The family is known throughout India for its munificence, its extensive charitable and religious endowments, and the devotion of the tenantry to the head of the noble house.

The Raja is a good sportsman. He takes keen interest in administrative affairs, public works and in the development of his vast estate. He takes personal interest in the welfare of his tenants, particularly in the matter of education.

Manager: Mr. Pannalal Bose, M.A., (District and Sessions Judge Retired).

Private Secretary: Mr. Subodh Kumar Mitra, M.Sc., B.L.

ARLAKIMEDI: CAPTAIN MAHARAJA SRI SRI SRI KRISHNA CHANDRA GATA-PATHI NARAYANA DEO, M.L.C., Maharaja of Parlakimedi. Ganjam District, in Province. The Maharaja Saheb is the owner of the Parlakimedi Estate with an 615 square miles: and Gouduguranti and Boranta, villages in Budarsingi Estate and the Malukdar Estate. Anandapuram, in Chicacole and the Delang, Balarampur and Budhakera Estates in Orissa, making a total of 83 sq. miles.

Born: 26th April 1892.

Educated : At Maharaja's College, Parlakimedi and Newington College, Madras.

The Maharaja Saheb was a member of the Royal Commission on Agriculture; a delegate to the First Indian Round Table Conference; an associated member of the Orissa Boundary Committee and was selected in 1933 as a representative of the All-India Landholders' Association to give evidence before the Parliamentary Joint Select Committee in London. He is an honorary Adviser and Visitor to the Agricultural College, Coimbatore. He has been taking a prominent part in commercial and industrial advancement and owns a railway line of 57 miles. He maintains a big Rice Mill, a progressive carpentry School, a first grade College, a Sanskrit College, two large Girls' Schools for Oriyas and Telegus, an Agricultural Demonstration Farm and Veterinary Hospital. He has to his credit a long list of magnificent public services. He contributed Rs.1,00,000 to the Research Institute, Coonoor, and Rs. 20,000 to Post Graduates for Research work in food and commercial crops at Coimbatore Government College of Agriculture. During the Great War he subscribed Rs. 3,10,000 towards War Loans and Funds and recruited men both for Combatant and Non-Combatant Forces. He holds Honorary Commission in the land forces of R. I. M. since 1918. In recognition of his meritorious services and the interest taken in improving the condition of his Estate and its people he was awarded the title of Rajah (personal) in 1918, Rajah (hereditary) in 1922, Maharaja (personal) on 1-1-36, made Honorary 2nd-Lieutenant in 1918 and subsequently promoted to the rank of Captain. The Maharaja Saheb is keenly interested in big game hunting having bagged many panthers and tigers besides other wild animals and is also a keen Cricketer. He is a member of several important Clubs of the Madras Presidency and of the East Indian Association, London. He was returned unopposed to the Orissa Assembly on 23-1-37. He was called upon to form the First Ministry in Orissa. He is included in the panel of non-official advisors of Government of India in the Indo-British Trade Negotiations.

AMGARH RAJ: MAHA-RATA KAMAKSHYA NARAIN SINGH BAHADUR of Ramgarh Raj, Bihar. Born: 10th August 1016. Assumed full control, 10th August 1937. Educated: At the Raikumar College, Raipur, and afterwards at the Mayo College, Aimere. Married: The eldest daughter of His Excellency General Shingha Shumshere Jung Bahadur Rana of Nepal in February 1936.

Heir - Apparent: Born 27th

January 1938.

Family History: The ancestors of the Rai are Rathor Raiputs and trace their descent from Maharaja Manikchand, a brother of the illustrious Maharaja Joychand of Kanoui. About 600

years ago Maharaja Baghdeo Singh Bahadur and Maharaja Singhdeo Bahadur left Manda and established their new dynasty at Urda in the Pargana of Karanpura. Maharaja Dalel Singh Bahadur removed the Capital first to Badam and afterwards to Ramgarh where he built a large Fort. Maharaja Tej Singh Bahadur, however, removed the Capitalto Ichak. It was removed in 1873 to Padma, the present Capital.

Renowned for its munificence, the Raj has donated :--Rs. 1,00,000 to the Earthquake Relief Fund, Rs. 67,000 to the Sadar Hospital Building, Rs. 54,000 to the Mission Zenana Hospital, Rs. 25,000 to the Prince of Wales Fund, Rs. 25,000 to the King George V Memorial

Fund and Rs. 15,000 to the Leprosy Fund.

The Maharaja Bahadur is the Vice-President of the Bihar Kshatriya Mahasabha and was nominated a member of the General Council of Rajkumar College, Raipur, by H. E. The Governor of Bihar and has now been elected to the Managing Committee of the same College. He is also the Vice-President of the Bihar and Chota-Nagpur Landholders' Association.

Natural Wealth of the Raj: Iron ore, Coal, Mica, China clay, Limestone. Forest Produce: Bamboo, Sabai, Lac, Kath, Gum and Silk Cocoons.

Area: 4,800 square miles. Income: Over Rs. 14,00,000 (1937-1938). There is a big waterfall at Rajrapa and hot water springs at Barakatha, both of which are easily accessible by car.

Younger Brother: Raj Kumar Basant Narain Singh, M.R.A.S. (Eng.) F.R.E.S., F.R.H.S. (Lond.), M.A.M.N.H., M.N.G.S. (U.S.A.), is the Chief Secretary of the Raj. PRINCIPAL OFFICERS.

Dewan: CHOWDHARY ROSHAN LAL. General Manager: RAI BAHADUR G. S. Husur Secretary: THAKUR RAMKUMAR SINGH. UPADHYA, B.A. A ssistant Manager: BABU JADU MOHAN PRASAD. Law Superintendent: S. N. Roy,

ESQ., B.A., B.L.
Secretary: D. D. SHARMA, ESQ., B.Sc. (Lond.), Dip. Agric. (Wye), M.I.C. (Trinidad).
Geologist: S. K. Roy, Esq., M.Sc., B.L.
Electrical Engineer: SARDAR MARHAN SINGH, A.M.T.I. (G.B.)

IZIANAGRAM. MAHARAJ KUMAR VIJAYA, KT., M.L.A. (U.P.) of Vizianagram, owner of "Benares Estates" in the United Provinces. "Vizy" (as he is known of in the field of Sport) was Captain of the Indian Cricket XI which toured Britain in 1936; Patron of Indian Sport; ex-minister, U. P. Government; has travelled extensively in Europe and America and was created a Knight in 1936. Married in 1923 and has two daughters. His father Maharaja Viziarama Gajapatiraj, Manne Sultan Bahadur of Vizianagram established many charitable institutions and was for some time a Member of the Madras Legislative Council: grandfather His Highness

Maharaja Sir Ananda Gajapatiraj, G.C.I.E., was a member of the Imperial Legislative Council: His great-grandfather His Highness Maharaja Sir Viziarama Gajapatiraj, K.C.S.I., was also a member of the Imperial Legislative Council. Both of them had enjoyed the personal distinction of "His Highness" and also a salute of 13 guns and 19 guns respectively. They had both established many charitable institutions in Benares, Allahabad and other places—Maharaja Sir Viziarama Gajapatiraj had also built a fountain at Hyde Park, London. The Town Hall at Benares, the Library known as Carmichael Library, Benares; the Vizianagram Hall in Muir College at Allahabad are a few of the many acts of munificence of the Vizianagram House. His nephew the present Raja of Vizianagram, who is a minor, enjoys a rare hereditory distinction of being the only Zemindar in India who has a salute of 11 guns in the district of Vizagapatam.

Born on 28th December 1905; educated at the Princes' College, Ajmere, and Haileybury College, England. Whilst he was at the Princes' College, Ajmere, he won his Colours at Tennis and Cricket, and set up a record, as he was the youngest student to get a double blue, and this record has not yet been broken. In 1934 he stood for election to the Central Legislative Assembly from the Landholders' Constituency of the United Provinces, and was returned unopposed, and was also the youngest member of the House. On the eve of the inauguration of the reformed assemblies he stood for election to the U. P. Provincial assembly in 1936 and was returned by a large majority and was one of the very few Hindu non-congress candidates to be returned from one of the largest general constituencies. One of the well-known big game hunters in India and is well-nigh his century of tiger. He was appointed interim Minister of Justice of the United Provinces Government under the New Act, 2nd April 1937.

NAWAB SIR MUHAMMAD: Barrister-at-Law, is the biggest and most influential landholder in the eastern districts of the United Provinces. He is a hereditary Nawab and has been a member of the Legislative Council since the inauguration of the Montagu-Chelmsford Reforms in 1921. He was appointed a Minister in 1926 and continued in that office for nearly 12 years until the introduction of the Provincial Autonomy. He was also in the Interim Ministry formed under the new constitution. He has travelled widely and has made a special study of the people and problems of the United Provinces. He has rendered great public service by infusing a real spirit of selfgovernment in the local bodies which has enabled and encouraged them to discharge their duties and obligations towards the public more effectively and efficiently. His personal interest and guidance in the affairs of the local bodies has been responsible for greater amenities to the public. It was through his patronage that the U.P. District Boards' Conference was originated and has been working

so successfully.

The high standard of the provincial roads that the province can rightly boast of is the result of the continuous and untiring efforts of Nawab Sir Muhammad Yusuf in the Public Works Department. The great progress made by the Public Health Department, the increasing efficiency and popularity of the Medical Department, the growth of the co-operative movement and the general efficiency of the Registration and Veterinary Departments are all due to his sound and efficient administration during the last 12 years. He has always shown the spirit, initiative and enthusiasm for the good of the people and the province.

His services in the cause of the landholders are too well-known to be reiterated. In the well-being and uplift of the zemindars and the tenants he has always evinced keen and personal interest. An active worker of the Agra Province Zemindars' Association, he carried on an intensive campaign throughout the province and did his best to consolidate the position of the zemindars. In fact, it would be no exaggeration to say that the Agra Province Zemindars' Association is a lasting monument to his untiring and zealous efforts.

Several educational and religious institutions owe their existence to his generous and charitable disposition. His courtesy and obliging nature have won for him a popularity which is coveted by so many to-day. He has always been very popular in the council and during his term of office as Minister wielded enormous influence over the members of the legislative council. He is the best speaker on government benches and his influence in the councils has proved beyond a shadow of doubt that he is a pillar of real strength both to the government and the public at large.

He is one of the most influential leaders of the Muslim community of all-india importance. He has contributed in no small measure in maintaining and consolidating the solidarity of the Mussalmans in India and has helped them in following a wise and sound policy in the interests of the country. He has rendered signal services to the Muslim community and by dint of his patriotism, is held in high esteem by persons of all schools of thought.

He is universally liked and respected both by officials and non-officials—Muslims and non-Muslims, and in him one can find a real example of a selfless worker who is always striving to do some real good to the people. His impartiality is well-known and he commands the confidence of the Hindus and Muslims alike in these provinces.

Address: 57, Newberry Road, Lucknow.

The Calendars.

A full Calendar will be found at the beginning

The Jewish Calendar is in accordance with the system arranged A.D. 358. The Calendar dates from the Creation, which is fixed as 3,760 years and 3 months before the beginning of the Christian Era; the year is Luni-solar.

The Mohammedan, or era of the Hejira, dates from the day after Mahomet'z flight from Mecca, which occurred on the night of July 15, 622 a.D. The months are Lunar.

The Fasti year was derived from a combina-A full Calendar will be found at one beginning of this book. Below are given details of the other Calendars in use in India.

The Jewish Calendar is in accordance with year seems also to have been related at one time to the Hejira, but the fact of its being Solar made it lose 11 days each year.

The Samuat era dates from 57 B.C., and is Luni-solar. The months are divided into two fortnights—sudi, or bright and badi, or dark, Each fortnight contains 15 tithis, which furnish the dates of the civil days given in our calendars.

A NEW KIND of TRAVEL BOOK... OVERLAND BY TRAIN

Are you an 'armchair traveller'? Then you will enjoy every page of this account of the Overland Route by train from Bombay to London via the oilfield and pearling waters of Bahrein Island; Basra, 'Venice of the East', ancient Babylon; Baghdad: modern Turkey with the girls of Pera in contrast to the former odalisques of the old Seraglio; golden Tokay, and blue Danube . . . a dozen countries laid bare to your eyes! And if you are going on leave this book will prove, with its details of fares. hotel rates and scores of travel tips, more invaluable and more interesting than a dozen handbooks.

gly bound in cloth, with 74
iful photographs, two maps, and
rive coloured dust cover, 151 pp.
y pocket size, Price Rs. 6 from
ellers, or Rs. 6-12 V. P. P. from
Times of India Press", Hornby
Road, Bombay,

'FULL OF INTEREST AND BEGUILING INFORMATION"

that deserving army of officials, businessmen and soldiers who travel.... se they must..... I have never had the good fortune to encounter one half of terest and beguiling information held together for the first time in this book."

Cal D T Ethanton
